Have you ever wondered: What it's like to daily bet hundreds of thousands of dollars working for some of the largest professional gamblers in Las Vegas? ... How to spend a summer house sitting one of the biggest stars in the world's 11,000 square-foot mansion - without an invitation from it's celebrity owner ... Whether the life of crime - specifically, running a shoplifting ring in a middle American mall - pays? ... What causes a son to finally say enough is enough ... and decide "Today is the day I am going to kill my dad." Comedian Brandt Tobler has the answers in this funny, touching and sometimes downright unbelievable memoir of a small town Wyoming-kid turned "mall-fia" don, turned nationally touring comic. Brand tells his life story with candor, detailing the many pit stops, wrong turns, crazy connections and lucky breaks he experienced along the way to his comedy career, all while trying to balance a toxic relationship with his unreliable jailbird dad. In these pages Brandt will make you laugh (he better - it's his job!) and believe as he does that, when it comes to defining family, blood isn't always thicker than water. -- back cover.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

By one of the most profoundly influential thinkers of our century, *The Rebel* is a classic essay on revolution. For Albert Camus, the urge to revolt is one of the "essential dimensions" of human nature, manifested in man's timeless Promethean struggle against the conditions of his existence, as well as the popular uprisings against established orders throughout history. And yet, with an eye toward the French Revolution and its regicides and deicides, he shows how inevitably the course of revolution leads to tyranny. As old regimes throughout the world collapse, *The Rebel* resonates as an ardent, eloquent, and supremely rational voice of conscience for our tumultuous times. Translated from the French by Anthony Bower.

A NEW YORK TIMES NOTABLE BOOK • The moving, inspiring memoir of one of the great women of our times, Shirin Ebadi, winner of the 2003 Nobel Peace Prize and advocate for the oppressed, whose spirit has remained strong in the face of political persecution and despite the

challenges she has faced raising a family while pursuing her work. Best known in this country as the lawyer working tirelessly on behalf of Canadian photojournalist, Zara Kazemi—raped, tortured and murdered in Iran—Dr. Ebadi offers us a vivid picture of the struggles of one woman against the system. The book movingly chronicles her childhood in a loving, untraditional family, her upbringing before the Revolution in 1979 that toppled the Shah, her marriage and her religious faith, as well as her life as a mother and lawyer battling an oppressive regime in the courts while bringing up her girls at home. Outspoken, controversial, Shirin Ebadi is one of the most fascinating women today. She rose quickly to become the first female judge in the country; but when the religious authorities declared women unfit to serve as judges she was demoted to clerk in the courtroom she had once presided over. She eventually fought her way back as a human rights lawyer, defending women and children in politically charged cases that most lawyers were afraid to represent. She has been arrested and been the target of assassination, but through it all has spoken out with quiet bravery on behalf of the victims of injustice and discrimination and become a powerful voice for change, almost universally embraced as a hero. Her memoir is a gripping story—a must-read for anyone interested in Zara Kazemi’s case, in the life of a remarkable woman, or in understanding the political and religious upheaval in our world. Praise for Shirin Ebadi and *Iran Awakening* “This is the riveting story of an amazing and very brave woman living through some quite turbulent times. And she emerges with head unbowed.”—Archbishop Desmond Tutu “The safety and freedom of citizens in democracies is irretrievably bound with the safety and freedom of people like Shirin Ebadi who are fighting to reassert the best achievements of mankind: universal human rights. One of the staunchest advocates for human rights in her country and beyond, Ms. Ebadi, herself a devout Muslim, represents hope for many in Muslim societies that Islam and democracy are indeed compatible.”—Azar Nafisi “A moving portrait of a life lived in truth.”—The New York Times Book Review “A riveting account of a brave, lonely struggle . . . [Iran Awakening] reads like a police thriller, its drama heightened by Ebadi’s determination to keep up the quotidian aspects of her family life.”—The Washington Post Book World “A must read . . . may be the most important book you could read this year.”—Seattle Post-Intelligencer

“[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes” (Vice). A book as powerful and influential as Rebecca Solnit’s *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. “One of the best books of the 21st century.” —The Guardian “No writer has better understood the mix of fear and possibility, peril and exuberance that’s marked this new millennium.” —Bill McKibben, New York Times—bestselling author of *Falter* “An elegant reminder that activist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways.” —The New Yorker

**An award-winning Black feminist music critic takes us on an epic journey through radical sound from Bessie Smith to Beyoncé. Daphne A. Brooks explores more than a century of music archives to examine the critics, collectors, and listeners who have determined perceptions of Black women on stage and in the recording studio. How is it possible, she asks, that iconic artists such as Aretha Franklin and Beyoncé exist simultaneously at the center and on the fringe of the culture industry? Liner Notes for the Revolution offers a startling new perspective on these acclaimed figures—a perspective informed by the overlooked contributions of other Black women concerned with the work of their musical peers. Zora Neale Hurston appears as a sound archivist and a performer, Lorraine Hansberry as a queer Black feminist critic of modern culture, and Pauline Hopkins as America's first Black female cultural commentator. Brooks tackles the complicated racial politics of blues music recording, song collecting, and rock and roll criticism. She makes lyrical forays into the blues pioneers Bessie Smith and Mamie Smith, as well as fans who became critics, like the record-label entrepreneur and writer Rosetta Reitz. In the twenty-first century, pop superstar Janelle Monae's liner notes are recognized for their innovations, while celebrated singers Cécile McLorin Salvant, Rhiannon Giddens, and Valerie June take their place as cultural historians. **The essential pocket primer on climate change that will leave an indelible impact on everyone who reads it. “Hope Jahren asks the central question of our time: how can we learn to live on a finite planet?” (Elizabeth Kolbert, author of *The Sixth Extinction*). “Hope Jahren is the voice that science has been waiting for.” —Nature Hope Jahren is an award-winning scientist, a brilliant writer, a passionate teacher, and one of the seven billion people with whom we share this earth. In *The Story of More*, she illuminates the link between human habits and our imperiled planet. The challenges we face can be difficult even to think about. Climate change, war, political polarization, economic upheaval, and the dying back of nature together create a planetary emergency of overwhelming proportions. This revised, tenth anniversary edition of *Active Hope* shows us how to strengthen our capacity to face these crises so that we can respond with unexpected resilience and creative power. Drawing on decades of teaching an empowerment approach known as the *Work That Reconnects*, the authors guide us through a transformational process informed by mythic journeys, modern psychology, spirituality, and holistic science. This process equips us with tools to face the mess we're in and play our role in the collective transition, or Great Turning, to a life-sustaining society.

I am still alive. Barely. My name is Ivy Westfall. I am sixteen years old and a traitor. Three months ago, I was forced to marry the President's son, Bishop Lattimer - as all daughters of the losing side of the war are sold off in marriage to the sons of the winners. But I was different. I had a mission - to kill Bishop. Instead, I fell in love with him. Now I am an outcast, left to survive the brutal savagery of the lands outside of civilization. Yet even out here, there is hope. There is life beyond the fence. But I can't outrun my past. For my actions have set off a treasonous chain of events in Westfall that will change of all our fates - especially Bishop's... And this time, it is not enough to just survive... *The Revolution of Ivy* is the shattering conclusion to the young adult dystopian Ivy duology, by the author of *The Roanoke Girls*.

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society

rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

***Calliope is a literary novel. In its simplest form, it is the story of a man longing to become the young, idealistic person he once was when the world seemed completely open to promise. It is the desire to re-experience life with all the naiveté and hope of romantic youth. In its allegorical form, the story explores such themes as purpose, morality, social convention, materialism and happiness. When the protagonist meets an orange-haired girl, his life is forever altered. Her name is Calliope, and what occurs throughout the rest of the novel is a wild, episodic fugue. The flight becomes a frenetic interlacing through wilderness and civilization, this being an allusion to Jean-Jacques Rousseau's Discourse on Inequality. The wilderness comes to represent a path back to the primal self, while civilization is more dubious representing both the potential for corruption, as well as the great heights of artistic and rational endeavors. Yet while on the journey, the protagonist is forced to look at life anew in part due to the somewhat unscrupulous efforts of Calliope. Morality is examined through the eyes of Calliope, who is by all intensive purposes Greek, which means pre-Christian. Her moral code is not affected by the guilt of Christianity. Her nakedness throughout the novel in part symbolizes a complete lack of shame. As for her beliefs, an understanding of Friedrich Nietzsche's perspectivism best represents her values. This allows the protagonist an opportunity to erase everything that he has learned. All custom, all forms of etiquette, religious belief, habit and convention must be forgotten in order to re-experience the world with the sense of wonderment he so eagerly longs for. With no ties to the world, he embarks upon an epic voyage of silliness and profound examination. Lured along by this electric, orange-haired muse, he becomes convinced that she is either bent upon his supreme salvation or utter damnation. What is so amazing about the entire journey is where they both end up—a location which seems to be the last place the protagonist was in complete control of his***

***On the one hand, Eagleton demolishes what he calls the "superstitious" view of God held by most atheists and agnostics and offers in its place a revolutionary account of the Christian Gospel. On the other hand, he launches a stinging assault on the betrayal of this revolution by institutional Christianity. ***Conservative radio host and syndicated columnist Dennis Prager provides a bold, sweeping look at the future of civilization with Still the Best Hope, and offers a strong, cogent argument for why basic American values must triumph in a dangerously uncertain world. Humanity stands at a crossroads, and the only alternatives to the "American Trinity" of liberty, natural rights, and the melting-pot ideal of national unity are Islamic totalitarianism, European democratic socialism, capitalist dictatorship, or global chaos if we should fail. ***When the Women's March gathered millions just one day after Trump's inauguration, a new era of progressive action was born. Organizing on the far Right led to Trump's election, bringing authoritarianism and the specter of neo-fascism, and intensifying corporate capitalism's growing crises of inequality and injustices. *sustainability. Derber offers the first comprehensive guide to this new era and an original vision and strategy for movement success. He convincingly shows how only a new universalizing wave, a progressive and revolutionary "movement of movements," can counter the world-universalizing economic and cultural forces of intensifying corporate and far-right power. Derber explores the crises and eroding legitimacy of the globalized capitalist system and the right wing movements that helped create the Trump era. He shows how left universalizing movements can--and must—converge to propel a mass base that can prevent societal, economic, or ecological collapse, stop a resurgent Right, and build a democratic social alternative. He describes tactics and strategies for this new progressive movement. Brief guest "interludes" by Medea Benjamin, Noam Chomsky, Ralph Nader, Bill Fletcher, Juliet Schor, Gar Alperovitz, Chuck Collins, Matt Nelson, Janet Wallace, and other prominent figures tell how to coalesce and universalize activism into a more powerful movement wave—at local, community, national, and international levels. Vivid and highly accessible, this book is for activists, students, and all citizens concerned about the erosion of justice and democracy. It thoroughly illuminates the rationale, theory, practice, humanism, love, and joy of the social transformation that we urgently need.*

*A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • A hugely ambitious, "delightfully readable, genuinely informative" portrait (The New York Times) of the two-centuries-long entwined histories of Iran and America—two powers who were once allies and now adversaries—by an admired historian and former journalist. In this rich, fascinating history, John Ghazvinian traces the complex story of the relations between these two nations back to the Persian Empire of the eighteenth century—the subject of great admiration by Thomas Jefferson and John Quincy Adams—and an America seen by Iranians as an ideal to emulate for their own government. Drawing on years of archival research both in the United States and Iran—including access to Iranian government archives rarely available to Western scholars—the Iranian-born, Oxford-educated historian leads us through the four seasons of U.S.-Iran relations: the spring of mutual fascination; the summer of early interactions; the autumn of close strategic ties; and the long, dark winter of mutual hatred. Ghazvinian makes clear where, how, and when it all went wrong. America and Iran shows why two countries that once had such heartfelt admiration for each other became such committed enemies—and why it didn't have to turn out this way.*

#1 NEW YORK TIMES BESTSELLER This much is true: You have been lied to. The government is expanding. Taxes are increasing. More secrets are being planned. Inflation is ballooning. Our basic freedoms are disappearing. The Founding Fathers didn't want any of this. In fact, they clearly laid out the principles in the Constitution of the United States of America. Unfortunately, that beautiful, ingenious, and revolutionary document is being ignored more in Washington. If we are to enjoy peace, freedom, and prosperity once again, we absolutely must return to the principles upon which we were founded. But finally, there is hope . . . In THE REVOLUTION, Texas congressman and presidential candidate Ron Paul has exposed the core of everything threatening America, from the real reasons behind the collapse of the dollar and the looming financial crisis, to terrorism and the loss of precious civil liberties. In this book, Ron Paul provides answers to questions that few even dare to ask. Despite a media blackout, this self-proclaimed physician-turned-congressman sparked a movement that has attracted a legion of young, dedicated, enthusiastic supporters . . . a phenomenon that has amazed veteran political observers and made more than one political rival envious. Candidates across America are already running as "Ron Paul Republicans." "Dr. Paul cured my apathy," says a popular campaign sign. THE REVOLUTION may cure yours as well.

"Reading Grace Lee Boggs helps you glimpse a United States that is better and more beautiful than you thought it was. As she analyzes her own inspiring theories and practices that have emerged from the struggles for equality and freedom in Detroit and beyond, she also shows us that in our country, a future revolution is not only necessary but possible." --Michael Hardt, co-author of Commonwealth "This groundbreaking book represents the best of Grace Lee Boggs, but the best of any radical, visionary thinking in the United States. She reminds us why revolution is not only possible and necessary, but in some places already in the making. The conditions we face under neoliberalism and war do, indeed, mark a new era in which the old ideological positions of protest are not really relevant or effective--and this book offers a new way forward."--Robin D. Moore, Freedom Dreams: The Black Radical Imagination "Grace Boggs has long been a major voice of hope and action for transformation of the United States and the world. Here is her testimony of hope and program for action. It must be taken seriously." --Immanuel Wallerstein, author of Utopia or Reality: Historical Choices of the Twenty-first Century "One of the most accomplished radicals of our time, the Detroit-based visionary Grace Lee Boggs has become one of our most influential and inspiring public intellectuals. The Next American Revolution is her powerful reflection on a lifetime of struggle."

*We hear about inadequate mental health care. We ask questions regarding a link between mental illness and violence. We do NOT hear as much about the stigma of mental illness that complicates one's ability to cope with a diagnosis that becomes a label, resulting in "self-stigma," discouraging individuals from seeking and/or complying with treatment. Too often community members only "experience" mental illness through dramatic or dire media stories that fail to inform us about the real world of mental illness. Thus, stigma feeds, and is fed by, myths and misunderstandings leading to a community sense of hopelessness and fear of mental illness. In contrast, Geel, a stigma-free community in Belgium, has a centuries' old history of accepting those with mental illness - even as boarders in their own homes. Geel acknowledges the human needs of those with mental illness and responds to those needs by providing social opportunities and meaningful work, within the community While the U.S. does not have the same history as Geel, we do have programs that offer a fostering environment, offering hope for those with a diagnosis of mental illness as well as for the communities in which they live. In a language and style that can be understood by anyone and everyone, the author shares what she's learned and experienced regarding tolerance and inclusion - in Geel and in our own country - offering individuals and communities an opportunity to hear the encouraging "voices of hope for mental illness." When the general population is freed of myths and misunderstandings regarding mental illness, we can focus on mental health fostered by community care that thrives in "caring communities."*

"The Revolution of Hope lives up to its title with an uplifting exploration of the definition of hope, what it truly means to be human, and steps that should be taken to promote humanization in an increasingly disconnected and technology-driven society. [The American Mental Health Foundation's Fromm titles] are timely, directly relevant to modern psychological and social issues, and bring absolutely invaluable humanist messages to temper psychology's scientific and healing discipline. Highly recommended, especially for college library collections." Midwest Book Review First published in 1968, the year of international-student confrontation and revolution, this classic challenges readers to choose which of two roads humankind ought to take: the one, leading to a completely mechanized society with the individual a helpless cog in a machine bent on mass destruction; or the second, being the path of humanism and hope." From August 1969 to August 1970, the nation witnessed nine thousand protests and eighty-four acts of arson or bombings at schools across the country. It was the year of the My Lai massacre investigation,

the Cambodia invasion, Woodstock, and the Moratorium to End the War. The American death toll in Vietnam was approaching fifty thousand, and the ascendant counterculture was challenging nearly every aspect of American society. *Witness to the Revolution*, Clara Bingham's unique oral history of that tumultuous time, unveils anew that moment when America careened to the brink of a civil war at home, as it fought a long, futile war abroad. Woven together from one hundred original interviews, *Witness to the Revolution* provides a firsthand narrative of that period of upheaval in the words of those closest to the action—the activists, organizers, radicals, and resisters who manned the barricades of what Students for a Democratic Society leader Tom Hayden called “the Great Refusal.” We meet Bill Ayers and Bernardine Dohrn of the Weather Underground; Daniel Ellsberg, the former Defense Department employee who released the Pentagon Papers; feminist theorist Robin Morgan; actor and activist Jane Fonda; and many others whose powerful personal stories capture the essence of an era. We witness how the killing of four students at Kent State turned a straitlaced social worker into a hippie, how the civil rights movement gave birth to the women's movement, and how opposition to the war in Vietnam turned college students into prisoners, veterans into peace marchers, and intellectuals into bombers. With lessons that can be applied to our time, *Witness to the Revolution* is more than just a record of the death throes of the Age of Aquarius. Today, when America is once again enmeshed in racial turmoil, extended wars overseas, and distrust of the government, the insights contained in this book are more relevant than ever. Praise for *Witness to the Revolution* “Especially for younger generations who didn't live through it, *Witness to the Revolution* is a valuable and entertaining primer on a moment in American history the likes of which we may never see again.”—Bryan Burrough, *The Wall Street Journal* “[One of the] best paperbacks of 2017 so far . . . The book is a rich tapestry of a volatile period in American history.”—*Time* “A gripping oral history of the centrifugal social forces tearing America apart at the end of the '60s . . . This is rousing reportage from the front lines of US history.”—*O: The Oprah Magazine* “The familiar voices and the unfamiliar ones are woven together with documents to make this a surprisingly powerful and moving book.”—*New York Times Book Review* “[An] Enthralling and brilliant chronology of the period between August 1969 and September 1970.”—*Buffalo News* “[Bingham] captures the essence of these fourteen months through the words of movement organizers, vets, students, draft resisters, journalists, musicians, government agents, writers, and others. . . . This oral history will enable readers to see that era in a new light and with fresh sympathy for the motivations of those involved.

While Bingham's is one of many retrospective looks at that period, it is one of the most immediate and personal."—Booklist

In 1968, a clerical mistake threatens the prestigious but cash-strapped Goode School in the small New England town of Cape Wilde. After a century of all-male, old-boy education, the school accidentally admits its first female student: Carole Faust, a brilliant, outspoken, fifteen-year-old black girl whose arrival will have both an immediate and long-term effect on the prep school and everyone in its orbit. There's the school's philandering headmaster, Goddard "God" Byrd, who had promised co-education "over his dead body" and who finds his syllabi full of dead white males and patriarchal tradition constantly challenged; there's EV, the daughter of God's widowed mistress who watches Carole's actions as she grows older with wide eyes and admiration; and, finally, there's Carole herself, who bears the singular challenge of being the First Girl in a world that's not quite ready to embrace her.

Do we live in a world that makes sense, not just now, but totally and forever? If, as scientists now predict, the universe is going to end in collapse or decay, can it really be a divine creation? Is there a credible hope of a destiny beyond death? In this engaging and intellectually scrupulous book, a leading scientist-theologian draws on ideas from science, scripture, and theology to address these important questions. John Polkinghorne carefully builds a structure of the hope of the life to come that involves both continuity and discontinuity with life in this world—enough continuity so that it is we ourselves who shall live again in that future world and enough discontinuity to ensure that the second story is not just a repetition of the first. Polkinghorne develops his argument in three sections. In the first, he considers the role of contemporary scientific insights and cultural expectations. In the second, he gives a careful account

of the various testimonies of hope to be found in the Bible and assesses the credibility of belief in Jesus' resurrection. In the final section he critically analyzes and defends the Christian hope of the life of the new creation.
