How far would you go to save your child? David shares a close bond with his eight-year-old son, Chris, but their family is destroyed when David dies. In the afterlife, he is given an opportunity. He is told that he may be granted three viewings by which to look in on his son. The terms are strict: he cannot help his boy. He cannot reach him, or teach him, or in any way change the course of his life. David agrees, and on three separate occasions observes his son's unfolding story. The first viewing takes place one year after his own death. The second shows him his son at the age of nineteen. David's final viewing shows him the final days of Chris's life. What David sees will not leave him, and he decides to make a simple but impassioned request.

A New York Times bestseller, *The Silver Linings Playbook* was adapted into the Oscar-winning movie starring Bradley Cooper and Jennifer Lawrence. It tells the riotous and poignant story of how one man regains his memory and comes to terms with the magnitude of his wife's betrayal. During the years he spends in a neural health facility, Pat Peoples formulates a theory about silver linings: he believes his life is a movie produced by God, his mission is to become physically fit and emotionally supportive, and his happy ending will be the return of his estranged wife, Nikki. When Pat goes to live with his parents, everything seems changed: no one will talk to him about Nikki; his old friends are saddled with families; the Philadelphia Eagles keep losing, making his father moody; and his new therapist seems to be recommending adultery as a form of therapy. When Pat meets the tragically widowed and clinically depressed Tiffany, she offers to act as a liaison between him and his wife, if only he will give up watching football, agree to perform in this year's Dance Away Depression competition, and promise not to tell anyone about their "contract." All the while, Pat keeps searching for his silver lining. In this brilliantly written debut novel, Matthew Quick takes us inside Pat's mind, deftly showing us the world from his distorted yet endearing perspective. The result is a touching and funny story that helps us look at both depression and love in a wonderfully refreshing way.

Until ten years ago, geneticist Don Tillman had never had a second date. Then he developed *The Wife Project* and met Rosie, 'the world's most incompatible woman'. Now, having survived 3,653 days of marriage, Don's life-contentment graph, recently at its highest point, is curving downwards. Don and Rosie's ten-year-old son, Hudson, is having trouble at school: his teachers say he isn't fitting in with the other kids. Rosie is battling Judas at work, and Don is in hot water after the Genetics Lecture Outrage. For Don, learning to be a good parent as well as a good partner will require the help of friends old and new. It will mean letting Hudson make his way in the world, and grappling with difficult truths about his own identity. It will also mean opening a cocktail bar.

From the New York Times bestselling author of *The Rosie Project* comes a story of taking chances and learning to love again as two people, one mourning her husband and the other recovering from divorce, cross paths on the centuries-old Camino pilgrimage from France to Spain. "The Chemin will change you. It changes everyone..." The Chemin, also known as the Camino de Santiago, is a centuries-old pilgrim route that ends in Santiago de Compostela in northwest Spain. Every year, thousands of walkers—some devout, many not—follow the route that wends through quaint small villages and along busy highways alike, a journey unlike any other. Zoe, an artist from California who's still reeling from her husband's sudden death, has impulsively decided to walk the Camino, hoping to find solace and direction. Martin, an engineer from England, is road-testing a cart of his own design...and recovering from a messy divorce. They begin in the same French town, each uncertain of what the future holds. Zoe has anticipated the physical difficulties of her trek, but she is less prepared for other challenges, as strangers and circumstances force her to confront not just recent loss, but long-held beliefs. For Martin, the pilgrimage is a test of his skills and endurance but also, as he and Zoe grow closer, of his willingness to trust others—and himself—again. Smart and funny, insightful and romantic, *Two Steps Forward* reveals that the most important journeys we make aren't measured in miles, but in the strength, wisdom, and love found along the way. Fans of *The Rosie Project* will recognize Graeme Simsion's uniquely quirky and charming writing style.

She had a play that was to be produced at the New York Fringe Festival and a job waiting for her at The New Yorker. Tragically, five days after graduation, Marina died in a car crash. Marina left behind a rich, deeply expansive trove of writing that, like her title essay, captures the hope, uncertainty, and possibility of her generation. Her short story "Cold Pastoral" was published on

NewYorker.com. Her essay “Even Artichokes Have Doubts” was excerpted in the Financial Times, and her book was the focus of a Nicholas Kristof column in The New York Times. Millions of her contemporaries have responded to her work on social media. As Marina wrote: “We can still do anything. We can change our minds. We can start over... We’re so young. We can’t, we MUST not lose this sense of possibility because in the end, it’s all we have.” The Opposite of Loneliness is an unforgettable collection of Marina’s essays and stories that articulates the universal struggle all of us face as we figure out what we aspire to be and how we can harness our talents to impact the world. “How do you mourn the loss of a fiery talent that was barely a tendril before it was snuffed out? Answer: Read this book. A clear-eyed observer of human nature, Keegan could take a clever idea...and make it something beautiful” (People).

Don Tillman is getting married. He just doesn’t know who to yet. But he has designed the Wife Project, using a sixteen-page questionnaire to help him find the perfect partner. She will most definitely not be a barmaid, a smoker, a drinker, or a late-arriver. Rosie Jarman is all these things. She is also fiery and intelligent and beautiful. And on a quest of her own to find her biological father—a search that Don, a professor of genetics, might just be able to help her with. The Wife Project teaches Don some unexpected things. Why earlobe length is an inadequate predictor of sexual attraction. Why quick-dry clothes aren’t appropriate attire in New York. Why he’s never been on a second date. And why, despite your best scientific efforts, you don’t find love: love finds you.

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher’s carefully constructed world falls apart when he finds his neighbour’s dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents’ marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher’s mind. And herein lies the key to the brilliance of Mark Haddon’s choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

In this moving, wry, and candid novel, widely acclaimed novelist Ayelet Waldman takes us through one woman's passage through love, loss, and the strange absurdities of modern life. Emilia Greenleaf believed that she had found her soulmate, the man she was meant to spend her life with. But life seems a lot less rosy when Emilia has to deal with the most neurotic and sheltered five-year-old in New York City: her new stepson William. Now Emilia finds herself trying to flag down taxis with a giant, industrial-strength car seat, looking for perfect, strawberry-flavored, lactose-free cupcakes, receiving corrections on her French pronunciation from her supercilious stepson - and attempting to find balance in a new family that's both larger, and smaller, than she bargained for. In *Love and Other Impossible Pursuits* Ayelet Waldman has created a novel rich with humor and truth, perfectly characterizing one woman's search for answers in a crazily uncertain world.

Grace Lisa Vandenburg, the narrator of this pleasant neurotic-girl-meets-boy debut, is 35 years old and has been addicted to counting since she was eight. She lives alone in Melbourne, Australia, and is on sick leave from her teaching job, filling her weeks with counting-'steps and syllables and bites and things'-and sticking to her rigid routines, which include trips to the cafe and phone calls from her mother and self-absorbed younger sister. The only person in her life Grace relates to is her 10-year-old niece, Hilary, who is as quirky and charming as Grace is. Things are fine until Grace meets Seamus Joseph O'Reilly, an Irish transplant who works at the local movie theater. Grace has not been on a date in two years and six months and hasn't been in love in forever, but as things progress with Seamus, she realizes what she has been missing. With some gentle encouragement, Grace agrees to test her boundaries and tries to find a happy medium between her obsession and living a full life. The novel does everything a sweet, agreeable romantic comedy should. (Feb.)

In his best-selling book, *Save the Cat!* (r) Goes to the Movies, Blake Snyder provided 50 beat sheets to 50 films, mostly studio-made. Now his student, Salva Rubio, applies Blake's principles to 50 celebrated non-studio films (again with 5 beat sheets for each of Blake's 10 genres). From international sensations like *The Blair Witch Project* to promising debuts like *Pi*, from small films that acquired cult status like *Texas Chain Saw Massacre* to Euro-blockbusters like *The Full Monty*, from unexpected gems like *Before Sunrise* to textbook classics such as *The 400 Blows*, from *Dogville* to *Drive* and *Boogie Nights* to *Cinema Paradiso*, here are 50 movies that fit both the independent label and Blake Snyder's 15 beats. You'll find beat sheets for works from Quentin Tarantino, Steven Soderbergh, David Lynch, Roman Polanski, Danny Boyle, David Mamet, Spike Jonze, Charlie Kaufman, Sofia Coppola, Stephen Frears, David Hare, Stanley Kubrick, Woody Allen, Wes Anderson, and the Coen Brothers, among other renowned writers and directors. You'll see how hitting the beats creates a story that resonates for audiences the world over. Why is this important? Because it gives both writers and moviegoers a language to analyze film and understand how filmmakers can effectively reach audiences. And especially if you are a writer, this book reveals how screenwriters who came before you tackled the same challenges you are facing with the film you want to write or the one you are currently working on."

Forensic psychiatrist Natalie King works with victims and perpetrators of violent crime. Women with a history of abuse, mainly. She rides a Ducati a size too big and wears a tank top a size too small. Likes men but doesn't want to keep one. And really needs to stay on her medication. Now she's being stalked. Anonymous notes, threats, strangers loitering outside her house. A hostile former patient? Or someone connected with a current case? Georgia Latimer—charged with killing her three children. Travis Hardy—deadbeat father of another murdered child, with a second daughter now missing. Maybe the harassment has something to do with Crown Prosecutor Liam O'Shea—drop-dead sexy, married and trouble in all kinds of ways. Natalie doesn't know. Question is, will she find out before it's too late? Anne Buist, herself a leading perinatal psychiatrist, has created an edge-of-the-seat mystery with a hot new heroine—backed up by a lifetime of experience with troubled minds. Anne Buist is the Chair of Women's Mental Health at the University of Melbourne. She has over twenty-five years' clinical and research experience in perinatal psychiatry, and works with protective services and the legal system in cases of abuse, kidnapping, infanticide and murder. Professor Buist is married to novelist Graeme Simsion and has two children. Her novels featuring forensic psychiatrist Natalie King are Medea's Curse, Dangerous to Know and This I Would Kill For. Jennifer Byrne, Australian Women's Weekly 'Crime novels and thrillers depend on strong investigators whose idiosyncrasies make them distinctive and attractively flawed. 'We've got something to celebrate,' Rosie said. I am not fond of surprises, especially if they disrupt plans already in place. I assumed that she had achieved some important milestone with her thesis. Or perhaps she had been offered a place in the psychiatry-training programme. This would be extremely good news, and I estimated the probability of sex at greater than 80%. 'We're pregnant,' she said. Don Tillman and Rosie Jarman are now married and living in New York. Don has been teaching while Rosie completes her second year at Columbia Medical School. Just as Don is about to announce that Gene, his philandering best friend from Australia, is coming to stay, Rosie drops a bombshell: she's pregnant. In true Tillman style, Don instantly becomes an expert on all things obstetric. But in between immersing himself in a new research study on parenting and implementing the Standardised Meal System (pregnancy version), Don's old weaknesses resurface. And while he strives to get the technicalities right, he gets the emotions all wrong, and risks losing Rosie when she needs him most. The Rosie Effect is as charming and hilarious as its predecessor.

However, Rosie has no interest in becoming Mrs Tillman and is actually there to enlist Don's assistance in a professional capacity: to help her find her biological father.Sometimes, though, you don't find love: love finds you...Like The Unlikely Pilgrimage of Harold Fry, The Rosie Project by Graeme Simsion is a truly distinctive debut. With the charm of Mark Haddon's The Curious Incident of the Dog in the Night-Time and the romance of David Nicholls' One Day, it's both funny and endearing - and is set to become the feel-good novel of 2013...Graeme Simsion is a full-time writer. Previously an IT consultant and educator, he wrote his first book in 1994 (the standard reference on data modelling, now entering its fourth edition), and is married to Anne, a professor of psychiatry who writes erotic fiction. They have two children.

Traces the lives of the Tetherly and Copaken families in the aftermath of a child's tragic death, which results in a broken marriage, a bonding between bereaved siblings and healing in the form of an adopted girl's prodigious violin talent. By the author of the best-selling Bad Mother.

Don Tillman, professor of genetics, has never been on a second date. He is a man who can count all his friends on the fingers of one hand, whose lifelong difficulty with social rituals has convinced him that he is simply not wired for romance. So when an acquaintance informs him that he would make a "wonderful" husband, his first reaction is shock. Yet he must concede to the statistical probability that there is someone for everyone, and he embarks upon The Wife Project. In the orderly, evidence-

based manner with which he approaches all things, Don sets out to find the perfect partner. He sets up a project designed to find him the perfect wife, starting with a questionnaire that has to be adjusted a little as he goes along. She will be punctual and logical, most definitely not a barmaid, a smoker, a drinker, or a late-arriver. Then he meets Rosie Jarman, who is everything he's not looking for in a wife. Rosie is all these things. She is also beguiling, fiery, intelligent, and on a quest of her own. She is looking for her biological father, a search that a certain DNA expert might be able to help her with. Don's Wife Project takes a back burner to the Father Project and an unlikely relationship blooms, forcing the scientifically minded geneticist to confront the spontaneous whirlwind that is Rosie, and the realization that love is not always what looks good on paper.

A New York Times bestseller A WASHINGTON POST "FEEL-GOOD BOOK guaranteed to lift your spirits" "A warm, charming tale about the rewards of revealing oneself, warts and all." —People The story of a solitary green notebook that brings together six strangers and leads to unexpected friendship, and even love Clare Pooley's next book, Iona Iverson's Rules for Commuting, is forthcoming Julian Jessop, an eccentric, lonely artist and septuagenarian believes that most people aren't really honest with each other. But what if they were? And so he writes—in a plain, green journal—the truth about his own life and leaves it in his local café. It's run by the incredibly tidy and efficient Monica, who furtively adds her own entry and leaves the book in the wine bar across the street. Before long, the others who find the green notebook add the truths about their own deepest selves—and soon find each other In Real Life at Monica's Café. The Authenticity Project's cast of characters—including Hazard, the charming addict who makes a vow to get sober; Alice, the fabulous mommy Instagrammer whose real life is a lot less perfect than it looks online; and their other new friends—is by turns quirky and funny, heartbreakingly sad and painfully true-to-life. It's a story about being brave and putting your real self forward—and finding out that it's not as scary as it seems. In fact, it looks a lot like happiness. The Authenticity Project is just the tonic for our times that readers are clamoring for—and one they will take to their hearts and read with unabashed pleasure.

A misanthropic matriarch leaves her eccentric family in crisis when she mysteriously disappears in this "whip-smart and divinely funny" novel that inspired the movie starring Cate Blanchett (New York Times). Bernadette Fox is notorious. To her Microsoft-guru husband, she's a fearlessly opinionated partner; to fellow private-school mothers in Seattle, she's a disgrace; to design mavens, she's a revolutionary architect; and to 15-year-old Bee, she is her best friend and, simply, Mom. Then Bernadette vanishes. It all began when Bee aced her report card and claimed her promised reward: a family trip to Antarctica. But Bernadette's intensifying allergy to Seattle -- and people in general -- has made her so agoraphobic that a virtual assistant in India now runs her most basic errands. A trip to the end of the earth is problematic. To find her mother, Bee compiles email messages, official documents, and secret correspondence -- creating a compulsively readable and surprisingly touching novel about misplaced genius and a mother and daughter's role in an absurd world.

Like Sherlock Holmes's dog in the night time, sometimes the true significance of things lies in their absence. Rick Gekoski tells the very human stories that lie behind some of the greatest losses to artistic culture - and addresses the questions such disappearances raise. Some of the items are stolen (the Mona Lisa), some destroyed (like Philip Larkin's diaries, shredded, then burnt, on his dying request) and some were lost before they even existed, like the career of the brilliant art deco architect, Charles Rennie Mackintosh, which foundered amid a lack of cash - but behind all of them lies an often surprising story which reveals a lot about what art means to us. Gekoski explores in depth the greater questions these tremendous losses raise - such as the rights artists and authors have over their own work, the importance of the search for perfection in creativity, and what motivated people to queue to see the empty space where the Mona Lisa once hung in the Louvre.
