Clearly, the “ normal ”  
way of life is the  
opposite of genuine

an expiration date. Any

Seven-point-something billion people can't switch to sustainable living this afternoon, because it's temporarily impossible. But the collapse of industrial

civilization is now in its

it's done, the human

the road, many new  
options will become  
possible, including  
genuine sustainability.

these years. All told, people seemed to like the way their trademark styles came together and shed light on even the most difficult subjects, in a way that perhaps made those burdens a little easier to bear.

However, as they toured around the country, Adrian and Jeff realised that other people's questions were at least

Eventually they decided
