

The Sales Playbook For Hyper Sales Growth

" A great no-BS resource where you are guaranteed to pick up useful tips and approaches, whether you ' re an email pro or just starting out. " – Andrus Purde, Founder & CEO, Outfunnel -- No matter how great your product is, it ' s very likely that 40–60% of free trials never see your product a second time. This means that you stand to lose up to 60% of your hard-earned signups. Do you just let them go? Email marketing is one of the highest leverage activities in a SaaS business. It can help: • increase onboarding and trial conversions; • reduce churn; and • grow monthly recurring revenue (MRR). By introducing a single campaign today, you could significantly increase your conversions, and get the benefits of that increase predictably and repeatedly, week after week. That ' s the beauty of automation. It ' s also how we created an upsell program at LANDR that was generating up to 42% of weekly subscription conversions. When I joined LANDR, we were only sending 3 automated emails (and only 1 of those was performing). By focusing on sending the right email to the right user at the right time, performance jumped up, with increases in: • product onboarding completion; • engagement; • sales; and • upgrades to annual subscriptions. We made a lot of mistakes along the way (including sending 85,000 emails to the wrong users). It took a lot of trial and error, long hours, and exhaustive internet searches, but the results were obvious. Email was more effective at generating revenue than: • Investing in more ads; • Building new features hoping they ' ll drive engagement; • Redesigning at the cost of trial and error. You can learn SaaS email marketing the way we did (through hard work), or jump to the front of the line. The SaaS Email Marketing Playbook includes everything I would have loved to know about email before I got started at LANDR: • how and when to create new emails or In-App messages to influence your users ' behaviors and purchase decisions; • how to double, triple, or quadruple the performance of every single email you send; • how to stand out in an increasingly more crowded inbox; and • how to create processes and structure to systematically grow the performance of an email marketing program. The book also includes seven deep dives to help you implement your onboarding, upsell, retention, referral, and behavioral sequences, among others. You don ' t need to be a master copywriter (or have one on your team) to send effective emails. You just need the right processes and knowledge to start growing your business with email. The SaaS Email Marketing Playbook contains everything you need to plan, build, and optimize your email marketing program. -- The SaaS Email Marketing Playbook was written for businesses with clear signs of Product-Market Fit, that are: • selling to consumers or businesses; • charging monthly or yearly subscription fees; • generating more than \$2k MRR; and • adding at least 200 email signups per week.

Entrepreneur, CEO, or business leader: no matter your title, the success of your company is a responsibility-and weight-that lies squarely on your shoulders. In the beginning, increased control was an asset that bought you peace of mind. But now, without the structure your business needs to thrive, you're overworked, overwhelmed, and unsure of the path ahead. Fortunately, everything that makes your company work can be captured and put to work for you. In The Business Playbook, serial entrepreneur Chris Ronzio walks you through his proven framework for building a playbook: the profile of your business, the people who work in it, the policies that guide it, and the processes that operate it. If you want to build a company that doesn't rely on you putting in more hours, this book will show you the way.

"Coaching is the universal language of learning, development, and change." Imagine a workplace without fear, stress, or worry. Instead, you're acknowledged as a valued, contributing team player who doesn't sacrifice priorities, values, happiness, or your life for your job. Sound ludicrous? Consider this is a reality in many thriving organizations. Most leadership books don't apply to sales leadership. Sales leaders are uniquely and indispensably special and need to be coached in a way that's aligned with their role, core competencies, and individuality to achieve their personal goals and company objectives. What if you can successfully coach anyone in 15, 5, or even 60 seconds using one question? Sales Leadership makes delivering consistent, high-impact coaching easy. For busy, caring managers, this removes the pressure and misconception that, "Coaching is difficult, doesn't work, and I don't have time to coach." Since most managers don't know how to coach, they become part of the non-stop, problem-solving legion of frustrated Chief Problem Solvers who habitually do others' work, create dependency, and nourish the seed of mediocrity. Great business leaders shift from doing people's jobs to developing them by learning the language of leadership coaching. In its powerful simplicity, Sales Leadership delivers a chronological path to develop a thriving coaching culture and coaching leaders who develop top performing teams and sales champions. Using Keith's intuitive LEADS Coaching Framework™, the coaching talk tracks for critical conversations, and his Enrollment strategy to create loyal, unified teams, you will inspire immediate change. Now, coaching is easily woven into your daily conversations and rhythm of business so that it becomes a natural, healthy habit. In his award-winning book, Coaching Salespeople Into Sales Champions, Keith was the first Master Certified Coach to share his personal coaching playbook that is now the standard for coaching excellence. Ten years later, and one million miles traveled, he reveals the evolution of sales leadership and coaching mastery through his experiences working with Fortune 5000 companies and small businesses worldwide. In the first book ever titled Sales Leadership, you'll master the ability to: Ask more questions, give less advice, and build trust and accountability to rely on people to do their job. Reduce your workload and save 20 hours a week on unproductive and wasteful activities. Shatter the toxic myths around coaching to eliminate generational gaps and departmental silos. Achieve business objectives, boost sales faster, and retain more customers. Create buy-in around strategic change and improve daily performance metrics. Assess company readiness and ensure implementation of a successful and sustainable coaching initiative and create a healthy, happy workplace. "People create the mindset, mindset shapes behavior, behavior defines culture, and ultimately, culture determines success. That's why the primary business objective is: To Make Your People More Valuable."

Well known technology executive and angel investor Elad Gil has worked with high growth tech companies like Airbnb, Twitter, Google, Instacart, Coinbase, Stripe, and Square as they've grown from small companies into global brands. Across all of these break-out companies, a set of common patterns has evolved into a repeatable playbook that Gil has codified in High Growth Handbook. Covering key topics including the role of the CEO, managing your board, recruiting and managing an executive team, M&A, IPOs and late stage funding rounds, and interspersed with over a dozen interviews with some of the biggest names in Silicon Valley including Reid Hoffman (LinkedIn), Marc Andreessen (Andreessen Horowitz), and Aaron Levie (Box), High Growth Handbook presents crystal clear guidance for navigating the most complex challenges that confront leaders and operators in high-growth startups. In what Reid Hoffman, cofounder of LinkedIn and co-author of the #1 NYT bestsellers The Alliance and The Startup of You calls "a trenchant guide," High Growth Handbook is the playbook for turning a startup into a unicorn.

Why should I do business with you, and not your competitor? Whether you are a retailer, manufacturer, distributor, or service provider - if you cannot answer this question, you are surely losing customers, clients and market share. This eye-opening book reveals how identifying your competitive advantages and trumpeting them to the marketplace is the most surefire way to close deals, retain clients, and stay miles ahead of the competition. The five fatal flaws of most companies: ? They don ' t have a competitive advantage but think they do ? They have a competitive advantage but don ' t know what it is--so they lower prices instead ? They know what their competitive advantage is but neglect to tell clients about it ? They mistake "strengths " for competitive advantages ? They don ' t concentrate on competitive advantages when making strategic and operational decisions The good news is that you can overcome these costly mistakes - by identifying your competitive advantages and creating new ones. Consultant, public speaker, and competitive advantage expert Jaynie Smith will show you how scores of small and large companies substantially increased their sales by focusing on their competitive advantages. When advising a CEO frustrated by his salespeople ' s inability to close deals, Smith discovered that his company stayed on schedule 95 percent of the time - an achievement no one else in his industry could claim. By touting this and other competitive advantages to customers, closing rates increased by 30 percent--and so did company revenues. Jack Welch has said, "If you don ' t have a competitive advantage, don ' t compete." This straight-to-the-point book is filled with insightful stories and specific steps on how to pinpoint your competitive advantages, develop new ones, and get the message out about them. "The biggest marketing flaw in most companies is their failure to fully reap the benefits of their competitive advantages. Either they think they have a competitive advantage but don ' t. Or they have one and don ' t realize it. Or they know they have a strong competitive advantage but fail to promote it adequately to their customers and prospects. " In my research with middle-market companies, I found only two CEOs out of 1,000 who could clearly name their companies ' competitive advantages. The other 99.8 percent could offer only vague, imprecise generalities. These same CEOs often rely on outside consultants to guide strategic-planning sessions. Yet, in my experience, very few consultants - even seasoned ones - give competitive advantage evaluation more than a superficial glance. " Ignoring your competitive advantages can be an expensive and even fatal mistake. Because no matter the size of your company or the kind of business you are in, your competitive advantages should be the foundation of all your strategic and operational decisions. They ' re the reasons customers choose to buy from you instead of the other guy." - From Creating Competitive Advantage

How can we use technology to reverse this trend? A groundbreaking new branch of artificial intelligence—Personality AI—may be the answer. Combining traditional machine learning, data analytics, and behavioral psychology, Personality AI helps professional communicators tear down walls, establish trust with their audiences, and utilize data to build meaningful relationships, strengthen empathy, and win more customers. As a salesperson, how much time do you spend learning proven sales techniques from your company's Top Producers? How much time do you spend practicing those techniques in-house, refining them with other team members before taking your final, polished approach on the road? And how much time each day or week does your Sales Manager spend helping you develop those high-performing techniques and processes? Same question for you, Sales Managers: How much of your day or week is dedicated to growing your sales team? How much time do you spend teaching or arranging for the mentoring or practicing of proven sales techniques? Are you teaching your salespeople how to fish, or are you just telling them how many fish they need to bring in to meet quota? In The Sales Playbook for Hyper Sales Growth, we not only delve into the necessity of developing these processes within a company but also provide valuable techniques, tools, and procedures that sales teams can begin implementing immediately.

A playbook that empowers sales managers to think like CEOs and act like entrepreneurs At Salesforce.com, Elay Cohen created and executed the sales productivity programs that accelerated the company's growth to a \$3 billion-plus enterprise. The innovation delivered over these years by Elay and his team resulted in unprecedented sales productivity excellence. Based on that experience, Elay embarked on a journey to help every company in the world grow like Salesforce.com. After working with many organizations and further reflecting on his time at Salesforce.com, it became apparent that one key player was best positioned to accelerate growth in organizations: the first-line sales manager. Empowering sales managers to own and execute their own sales programs, as entrepreneurs would, became the focus of this book and his technology company. First-line sales managers are the backbone of every sales organization. They make it happen. They're where the rubber meets the road in pipeline generation, revenue growth, and customer success. These sales managers serve as the voice of salespeople to organizations, and as the organizational voice back to salespeople. In this accessible guide, Cohen shares how sales managers can build an inspired, engaged team, equipping them with the tools they need to drive up sales productivity and grow the business. He reveals, among many other lessons, how you can nurture a winning sales culture; build world-class training programs that encourage salespeople to learn from each other; and execute sales processes, playbooks, and deals in a way that gives your salespeople the winning edge.

What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships-and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and geographies, The Challenger Sale argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one-the Challenger- delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.

Today's sales environment is very much a "keep up or get left behind" paradigm, but you need to do better to excel. Hacking Sales shows you how to get ahead of everyone else with focused effort and the most effective approach to modern sales.

The current way of treating people at work has failed. Globally, only 30% of employees are engaged in their jobs, and in this fast-paced world that's just not enough. The world's best companies understand this, and have been quietly treating people differently for nearly two decades. Now you can learn their secrets and discover The Engagement Bridge™ model, proven to build bottom line value for companies through sustainable employee engagement. Companies with the best cultures generate stock market returns of twice the general market and enjoy half the employee turnover of their peers. Their staff innovate more, deliver better customer service and, hands-down, beat the competition. These companies outperform and disrupt their markets. They break the rules of traditional HR, they rebel against the status quo. Build it has found these rebels and the rulebreakers. From small startups to global powerhouses, this book shows that courage, commitment, and a people-centric mindset, rather than money and resources, are what you need to turn an average business into a category leader. The book follows the clear and proven Engagement Bridge™ model, developed from working with thousands of leading companies worldwide on their own employee engagement journeys. The practical model highlights the areas that leaders need to examine in order to build a highly engaged company culture and provides a framework for success. Build it is packed with tips, tools and real-life examples from employers including NASDAQ, Unilever, IBM, KPMG, 3M, and McDonald's to help you start doing this not tomorrow, but today. Readers will learn: How employee engagement helps companies perform The key factors that drive engagement, and how they work together What the world's most rebellious companies have done to break the rules of traditional HR and improve engagement How to implement The Engagement Bridge™ model to boost productivity, innovation, and better decision-making Unique in this category, Build it is written from two sharply different perspectives. Glenn Elliott is a multi-award winning Entrepreneur of the Year, CEO and growth investor. He talks candidly about the mistakes and missteps he has made whilst building Reward Gateway into a \$300m category leader in employee engagement technology. Debra Corey brings 30 years experience in senior level HR roles at global companies such as Gap, Quintiles, Honeywell and Merlin Entertainments. She shares the practical tools and case studies that can kickstart your employee engagement plan, bringing her own pragmatic and engaging style to each situation. Can your software sell itself? Convention and the trillion-dollar sales industry claim that it's impossible for your product to sell itself. Yet successful software businesses like Slack, Dropbox, Atlassian, and HubSpot make millions selling to customers who never once reached out to a sales rep. In Product-Led Growth: How to Build a Product That Sells Itself, growth consultant Wes Bush challenges the traditional SaaS marketing and sales playbook and introduces a completely new way to sell products. Bush reveals how your product--not expensive sales teams--can be the main vehicle to acquire, convert, and retain customers. In this step-by-step guide to Product-Led Growth, Bush explains: Why you should flip the traditional sales process on its head and turn your product into a sales machine; How to decide whether your business should use a free trial, freemium, or hybrid model; How to turn free users into happy, paying customers. History tells us that "how" you sell is just as important as "what" you sell. Blockbuster couldn't compete with Netflix by selling the same digital content, and you need to decide "when" not "if" you'll innovate on the way you sell. Are you going to be product-led? Or will you be disrupted, too? In this entertaining and thought-provoking book, Tony Alessandra and Michael O'Connor argue that the "Golden Rule" is not always the best way to approach people. Rather, they propose the Platinum Rule: "Do unto others as "they'd" like done unto them". In other words, find out what makes people tick and go from there.
