

The Southern Reach Trilogy The Thrilling Series Behind Annihilation The Most Anticipated Film Of 2018

It is winter in Area X, the mysterious wilderness that has defied explanation for thirty years, rebuffing expedition after expedition, refusing to reveal its secrets. As Area X expands, the agency tasked with investigating and overseeing it--the Southern Reach--has collapsed on itself in confusion. Now one last, desperate team crosses the border, determined to reach a remote island that may hold the answers they've been seeking. If they fail, the outer world is in peril. Meanwhile, Acceptance tunnels ever deeper into the circumstances surrounding the creation of Area X--what initiated this unnatural upheaval? Among the many who have tried, who has gotten close to understanding Area X--and who may have been corrupted by it? In this last installment of Jeff VanderMeer's Southern Reach trilogy, the mysteries of Area X may be solved, but their consequences and implications are no less profound--or terrifying.

Escaping the busy confusion of his homeland and moving to an almost-uninhabited lakeshore where he plans on living simply and raising a family, a man descends into rage, obsession and an abstract sense of reality when his wife suffers multiple miscarriages. A first novel by the author of *How They Were Found*.

Eleven secret government expeditions and few have returned unscathed--the first book in VanderMeer's exciting new Southern Reach Trilogy and soon to be a major motion picture Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization, and the government is involved in sending secret missions to explore Area X. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. *Annihilation* opens with the twelfth expedition. The group is composed of four women, including our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all of their observations, scientific and otherwise; and, above all, to avoid succumbing to the unpredictable effects of Area X itself. What they discover shocks them: first, a massive topographic anomaly that does not appear on any map; and second, life forms beyond anything they're equipped to understand. But it's the surprises that came across the border with them that change everything--the secrets of the expedition members themselves, including our narrator. What do they

really know about Area X—and each other?

The Strange Bird—from New York Times bestselling novelist Jeff VanderMeer—is a novella-length digital original that expands and weaves deeply into the world of his “thorough marvel”* of a novel, *Borne*. The Strange Bird is a new kind of creature, built in a laboratory—she is part bird, part human, part many other things. But now the lab in which she was created is under siege and the scientists have turned on their animal creations. Flying through tunnels, dodging bullets, and changing her colors and patterning to avoid capture, the Strange Bird manages to escape. But she cannot just soar in peace above the earth. The sky itself is full of wildlife that rejects her as one of their own, and also full of technology—satellites and drones and other detritus of the human civilization below that has all but destroyed itself. And the farther she flies, the deeper she finds herself in the orbit of the Company, a collapsed biotech firm that has populated the world with experiments both failed and successful that have outlived the corporation itself: a pack of networked foxes, a giant predatory bear. But of the many creatures she encounters with whom she bears some kind of kinship, it is the humans—all of them now simply scrambling to survive—who are the most insidious, who still see her as simply something to possess, to capture, to trade, to exploit. Never to understand, never to welcome home. With *The Strange Bird*, Jeff VanderMeer has done more than add another layer, a new chapter, to his celebrated novel *Borne*. He has created a whole new perspective on the world inhabited by Rachel and Wick, the Magician, Mord, and *Borne*—a view from above, of course, but also a view from deep inside the mind of a new kind of creature who will fight and suffer and live for the tenuous future of this world. Praise for *Borne* * “Jeff VanderMeer’s Southern Reach Trilogy was an ever-creeping map of the apocalypse; with *Borne* he continues his investigation into the malevolent grace of the world, and it’s a thorough marvel.” —Colson Whitehead

“VanderMeer is that rare novelist who turns to nonhumans not to make them approximate us as much as possible but to make such approximation impossible. All of this is magnified a hundredfold in *Borne* . . . Here is the story about biotech that VanderMeer wants to tell, a vision of the nonhuman not as one fixed thing, one fixed destiny, but as either peaceful or catastrophic, by our side or out on a rampage as our behavior dictates—for these are our children, born of us and now to be borne in whatever shape or mess we have created. This coming-of-age story signals that eco-fiction has come of age as well: wilder, more reckless and more breathtaking than previously thought, a wager and a promise that what emerges from the twenty-first century will be as good as any from the twentieth, or the nineteenth.”

"Poignant"—New York Times What if you could take a vacation to your past? With her celebrated humor, insight, and heart, beloved New York Times bestseller Emma Straub offers her own twist on traditional time travel tropes, and a different kind of love story. On the eve of her 40th birthday, Alice's life isn't terrible. She likes her job, even if it isn't exactly the one she expected. She's happy with her apartment, her romantic status, her independence, and she adores her lifelong best friend. But her father is ailing, and it feels to her as if something is missing. When she wakes up the next morning she finds herself back in 1996, reliving her 16th birthday. But it isn't just her adolescent body that shocks her, or seeing her high school crush, it's her dad: the vital, charming, 40-something version of her father with whom she is reunited. Now armed with a new perspective on her own life and his, some past events take on new meaning. Is there anything that she would change if she could?

This edited collection approaches the most pressing discourses

of the Anthropocene and posthumanist culture through the surreal, yet instructive lens of Jeff VanderMeer's fiction. In contrast to universalist and essentializing ways of responding to new material realities, VanderMeer's work invites us to re-imagine human subjectivity and other collectivities in the light of historically unique entanglements we face today: the ecological, technological, aesthetic, epistemological, and political challenges of life in the Anthropocene era. Situating these messy, multi-scalar, material complexities of life in close relation to their ecological, material, and colonialist histories, his fiction renders them at once troublingly familiar and strangely generative of other potentialities and insight. The collection measures VanderMeer's work as a new kind of speculative surrealism, his texts capturing the strangeness of navigating a world in which "nature" has become radically uncanny due to global climate change and powerful biotechnologies. The first collection to survey academic engagements with VanderMeer, this book brings together scholars in the fields of environmental literature, science fiction, genre studies, American literary history, philosophy of technology, and digital cultures to reflect on the environmentally, culturally, aesthetically, and politically central questions his fiction poses to predominant understandings of the Anthropocene.

Sisters of the Revolution gathers a highly curated selection of feminist speculative fiction (science fiction, fantasy, horror, and more) chosen by one of the most respected editorial teams in speculative literature today, the award-winning Ann and Jeff VanderMeer. Including stories from the 1970s to the present day, the collection seeks to expand the conversation about feminism while engaging the reader in a wealth of imaginative ideas. From the literary heft of Angela Carter to the searing power of Octavia Butler, Sisters of the Revolution gathers daring examples of speculative fiction's engagement with feminism. Dark, satirical stories such as Eileen Gunn's "Stable Strategies for Middle Management" and the disturbing horror of James Tiptree Jr.'s "The Screwfly Solution" reveal the charged intensity at work in the field. Including new, emerging voices like Nnedi Okorafor and featuring international contributions from Angelica Gorodischer and many more, Sisters of the Revolution seeks to expand the ideas of both contemporary fiction and feminism to new fronts. Moving from the fantastic to the futuristic, the subtle to the surreal, these stories will provoke thoughts and emotions about feminism like no other book available today. Contributors include: Angela Carter, Angelica Gorodischer, Anne Richter, Carol Emshwiller, Catherynne M. Valente,

Award-winning and New York Times bestselling author of *Annihilation*, Jeff VanderMeer. Jonathan Lambshead stands to inherit his deceased grandfather's overstuffed mansion—a veritable cabinet of curiosities—once he and two schoolmates catalog its contents. But the three soon discover that the house is filled with far more than just oddities: It holds clues linking to an alt-Earth called Aurora, where the notorious English occultist Aleister Crowley has stormed back to life on a magic-fueled rampage across a surreal, through-the-looking-glass version of Europe replete with talking animals (and vegetables). Swept into encounters with allies more unpredictable than enemies, Jonathan pieces together his destiny as a member of a secret society devoted to keeping our world separate from Aurora. But as the ground shifts and allegiances change with every step, he and his friends sink ever deeper into a deadly pursuit of the profound evil that is also chasing after them. From Lovecraft to Borges to Gaiman, a century of intrepid literary experimentation has created a corpus of dark and strange stories that transcend all known genre boundaries. Together these stories form *The Weird*, and its practitioners include some of the greatest names in twentieth and twenty-first century literature. Exotic and esoteric, *The Weird* plunges you into dark domains and brings you face to face with surreal monstrosities. You won't find any elves or wizards here...but you will find the biggest, boldest, and downright most peculiar stories from the last hundred years bound together in the biggest *Weird* collection ever assembled. *The Weird* features 110 stories by an all-star cast, from literary legends to international bestsellers to Booker Prize winners: including William Gibson, George R. Four hundred years ago, in a small town in rural France, a young woman creates the future in the shape of Rupetta. Part mechanical, part human, Rupetta's consciousness is tied to the women who wind her. In the years that follow she is bought and sold, borrowed, forgotten and revered. By the twentieth century, the Rupettan four-fold law rules everyone's lives, but Rupetta--the immortal being on whose existence and history those laws are based--is the keeper of a secret that will tear apart the world her followers have built in her name. The closeness between women is mirrored in the relationship between Henri and Miri, a woman at the college with whom she fall in love, and also between mothers and daughters and grandmothers and granddaughters - a heritage of affection that loops down over the centuries.

Where does an angel go when he’s been to Hell and back? Renegade angel Bobby Dollar does not have an easy afterlife. After surviving the myriad gruesome dangers Hell oh-so-kindly offered him, Bobby has returned empty-handed – his demon girlfriend Casmira, the Countess of Cold Hands, is still in the clutches of Eligor, Grand Duke of Hell. Some hell of a rescue.

Forced to admit his failure, Bobby ends up back at his job as an angel advocate. That is, until Walter, an old angel friend whom Bobby never thought he’d see again, shows up at the local bar. The last time he saw Walter was in Hell, when Walter had tried to warn him about one of Bobby’s angel superiors. But now Walter can’t remember anything, and Bobby doesn’t know whom to trust. Turns out that there’s corruption hidden within the higher ranks of Heaven and Hell, but the only proof Bobby has is a single feather. Before he knows it, he’s in the High Hall of Heavenly Judgement – no longer a bastion for the moral high ground, if it ever was, but instead just another rigged system – on trial for his immortal soul... Sleeping Late on Judgement Day is the third installment of Tad Williams’ urban fantasy Bobby Dollar series!

Having set global warming in irreversible motion, we are facing the possibility of ecological catastrophe. But the environmental emergency is also a crisis for our philosophical habits of thought, confronting us with a problem that seems to defy not only our control but also our understanding. Global warming is perhaps the most dramatic example of what Timothy Morton calls “hyperobjects”—entities of such vast temporal and spatial dimensions that they defeat traditional ideas about what a thing is in the first place. In this book, Morton explains what hyperobjects are and their impact on how we think, how we coexist with one another and with nonhumans, and how we experience our politics, ethics, and art. Moving fluidly between philosophy, science, literature, visual and conceptual

Access Free The Southern Reach Trilogy The Thrilling Series Behind Annihilation The Most Anticipated Film Of 2018

art, and popular culture, the book argues that hyperobjects show that the end of the world has already occurred in the sense that concepts such as world, nature, and even environment are no longer a meaningful horizon against which human events take place. Instead of inhabiting a world, we find ourselves inside a number of hyperobjects, such as climate, nuclear weapons, evolution, or relativity. Such objects put unbearable strains on our normal ways of reasoning. Insisting that we have to reinvent how we think to even begin to comprehend the world we now live in, *Hyperobjects* takes the first steps, outlining a genuinely postmodern ecological approach to thought and action.

Named one of NPR's Best Books of 2021 From the author of *Annihilation*, a brilliant speculative thriller of dark conspiracy, endangered species, and the possible end of all things. Security consultant "Jane Smith" receives an envelope with a key to a storage unit that holds a taxidermied hummingbird and clues leading her to a taxidermied salamander. Silvana, the dead woman who left the note, is a reputed ecoterrorist and the daughter of an Argentine industrialist. By taking the hummingbird from the storage unit, Jane sets in motion a series of events that quickly spin beyond her control. Soon, Jane and her family are in danger, with few allies to help her make sense of the true scope of the peril. Is the only way to safety to follow in Silvana's footsteps? Is it too late to stop? As she desperately seeks answers about why Silvana contacted her, time is running out—for her and possibly for the world. *Hummingbird Salamander* is Jeff VanderMeer at his brilliant, cinematic best, wrapping profound questions about climate change, identity, and the world we live in into a tightly plotted thriller full of unexpected twists and elaborate conspiracy.

A woman commits suicide for no apparent reason. A week later, her son—beautiful, troubled fifteen-year-old Mark Underhill—vanishes from the face of the earth. To his uncle, horror novelist Timothy Underhill, Mark's inexplicable absence feels like a second death. After his sister-in-law's funeral, Tim searches his hometown of Millhaven for clues that might help him unravel this mystery of death and disappearance. He soon learns that a pedophilic murderer is on the loose in the vicinity, and that shortly before his mother's suicide Mark had become obsessed with an abandoned house where he imagined the killer might have taken refuge. No mere empty

building, the house on Michigan Street whispers from attic to basement with the echoes of a long-hidden true-life horror story, and Tim Underhill comes to fear that in investigating its unspeakable history, Mark stumbled across its last and greatest secret: a ghostly lost girl who may have coaxed the needy, suggestible boy into her mysterious domain. With lost boy lost girl, Peter Straub affirms once again that he is the master of literary horror.

"...compulsively readable historical fiction...[a] powerful novel about unusual women facing sometimes insurmountable odds with grace, grit, love and tenacity." - Kristin Hannah, The Washington Post Named one of best books of the year by Marie Claire and Bookbub "If you enjoyed "The Tattooist of Auschwitz," read "The Huntress," by Kate Quinn." The Washington Post From the author of the New York Times and USA Today bestselling novel, THE ALICE NETWORK, comes another fascinating historical novel about a battle-haunted English journalist and a Russian female bomber pilot who join forces to track the Huntress, a Nazi war criminal gone to ground in America. In the aftermath of war, the hunter becomes the hunted... Bold and fearless, Nina Markova always dreamed of flying. When the Nazis attack the Soviet Union, she risks everything to join the legendary Night Witches, an all-female night bomber regiment wreaking havoc on the invading Germans. When she is stranded behind enemy lines, Nina becomes the prey of a lethal Nazi murderess known as the Huntress, and only Nina's bravery and cunning will keep her alive. Transformed by the horrors he witnessed from Omaha Beach to the Nuremberg Trials, British war correspondent Ian Graham has become a Nazi hunter. Yet one target eludes him: a vicious predator known as the Huntress. To find her, the fierce, disciplined investigator joins forces with the only witness to escape the Huntress alive: the brazen, cocksure Nina. But a shared secret could derail their mission unless Ian and Nina force themselves to confront it. Growing up in post-war Boston, seventeen-year-old Jordan McBride is determined to become a photographer. When her long-widowed father unexpectedly comes home with a new fiancée, Jordan is thrilled. But there is something disconcerting about the soft-spoken German widow. Certain that danger is lurking, Jordan begins to delve into her new stepmother's past—only to discover that there are mysteries buried deep in her family . . . secrets that may threaten all Jordan holds dear. In this immersive, heart-wrenching story, Kate Quinn illuminates the consequences of war on individual lives, and the price we pay to seek justice and truth.

National Book Foundation 5 Under 35 Award winner Charles Yu delivers his debut novel, a razor-sharp, ridiculously funny, and utterly touching story of a son searching for his father . . . through quantum space–time. *Minor Universe 31* is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That’s where Charles Yu, time travel technician—part counselor, part gadget repair man—steps in. He helps save people from themselves. Literally. When he’s not taking client calls or consoling his boss, Phil, who could really use an upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and then vanished. Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It’s called *How to Live Safely in a Science Fictional Universe*, and he’s the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and adventurous, Yu’s debut is certain to send shock waves of wonder through literary space–time.

Set in Philly one year into Trump’s presidency, Sean Thor Conroe’s audacious, freewheeling debut follows our eponymous fuccboi, Sean, as he attempts to live meaningfully in a world that doesn’t seem to need him. Reconciling past, failed selves—cross-country walker, SoundCloud rapper, weed farmer—he now finds himself back in his college city, trying to write, doing stimulant-fueled bike deliveries to eat. Unable to accept that his ex has dropped him, yet still engaged in all the same fuckery—being coy and spineless, dodging decisions,

maintaining a rotation of baes—that led to her leaving in the first place. But now Sean has begun to wonder, how sustainable is this mode? How much fuckery is too much fuckery? Written in a riotous, utterly original idiom, and slyly undercutting both the hypocrisy of our era and that of Sean himself, *Fuccboi* is an unvarnished, playful, and searching examination of what it means to be a man. “Got under my skin in the way the best writing can.” —Sheila Heti “Sean Conroe isn’t one of the writers there’s a hundred of. R.A. Salvatore Presents The War of the Spider Queen

The much anticipated second instalment in VanderMeer's Southern Reach trilogy In Annihilation, Jeff VanderMeer introduced the mysteries of Area X—a remote and lush terrain mysteriously sequestered from civilization. It was the first volume of a projected trilogy; well in advance of publication, translation rights had sold all around the world, and a major movie deal had been struck. Just months later, the second volume is here. For thirty years, the only human engagement with Area X has taken the form of a series of expeditions monitored by a secret agency called the Southern Reach. After the disastrous twelfth expedition chronicled in Annihilation, the Southern Reach is in disarray, and John Rodriguez (a.k.a. "Control") is the team's newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he's promised to serve. And the consequences will reach much farther than that. The Southern Reach trilogy will conclude in fall 2014 with Acceptance.

In City of Saints and Madmen, Jeff VanderMeer has reinvented the literature of the fantastic. You hold in your hands an invitation to a place unlike any you've ever visited—an invitation delivered by one of our most audacious and astonishing literary magicians. City of elegance and squalor. Of religious fervor and wanton lusts. And everywhere, on the walls of courtyards and churches, an incandescent fungus of mysterious and ominous origin. In Ambergris, a would-be suitor discovers that a sunlit street can become a killing ground in the blink of an eye. An artist receives an invitation to a

beheading—and finds himself enchanted. And a patient in a mental institution is convinced he's made up a city called Ambergris, imagined its every last detail, and that he's really from a place called Chicago.... By turns sensuous and terrifying, filled with exotica and eroticism, this interwoven collection of stories, histories, and "eyewitness" reports invokes a universe within a puzzlebox where you can lose—and find-yourself again.
