This second, brilliantly bonkers book from the author of Baby Aliens Got My Teacher! is loaded with laughs and crazy capers!

NEW YORK TIMES BESTSELLER • The “master storyteller” (San Francisco Chronicle) The Spy and the Traitor uncovers the true story behind one of the Cold War’s most intrepid spies. “[An] immensely exciting, fast-moving account.”—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Foreign Affairs • Kirkus Reviews • Library Journal In 1942, in a quiet village in the leafy English Cotswolds, a thin, elegant woman lived in a small cottage with her three children and her husband, who worked as a machinist nearby. Ursula Burton and Francis spoke English with a slight foreign accent. By all accounts, she seemed to be living a simple, unassuming life. Her neighbors in the village knew little about her. They didn’t know that she was a high-ranking Soviet intelligence officer. They didn’t know that her husband was also a spy, or that she was running powerful agents across Europe. Behind the facade of her picturesque life, Burton was a dedicated Communist, a Soviet colonel, and a veteran agent, gathering the scientific secrets that would enable the Soviet Union to build the bomb. This true-life spy story is a masterpiece about the woman code-named “Sonya.” Over the course of her career, she was hunted by the Chinese, the Japanese, the Nazis, MI5, MI6, and the FBI—and she evaded them all. Her story reflects the great ideological clash of the twentieth century—between Communism, Fascism, and Western democracy—and casts new light on the spy battles and shifting allegiances of our own times. With unparalleled access to Sonya’s diaries and correspondence and never-before-seen information on her clandestine activities, Ben Macintyre has conjured a page-turning history of a legendary secret agent, a woman who influenced the course of the Cold War and helped plunge the world into a decades-long standoff between nuclear superpowers.

Hollywood, 1962 For FBI Special Agent Terrence Tillberry, being in love with Petra Tarasova is wonderful, except for two things: First, she’s in the KGB. Second, she can’t stand him. And Terrence isn’t exactly a prize. Since his divorce, he’s ballooned in weight thanks to a diet of Hostess fruit pies and Twinkies, and that’s only one of the reasons his boss hates him. The financial strain of caring for his increasingly demented mother hasn’t helped Terrence feel any less desperate, either. Luck seems to turn his way when he discovers a secret list of CIA operatives. Selling the list to Petra might be just the ticket to win her heart—and solve the rest of his problems, too. Petra has other goals, though, and to reach them she draws Terrence into the ultimate showbiz fantasy. But when the bodies start piling up, Terrence realizes that his problems are only just beginning.

Biographers' Club Prize-winner Clare Mulley’s The Women Who Flew for Hitler–a dual biography of Nazi Germany’s most highly decorated women pilots. Hanna Reitsch and Melitta von Stauffenberg were talented, courageous, and strikingly attractive women who fought convention to make their names in the male-dominated field of flight in 1930s Germany. With the war, both became pioneering test pilots and were awarded the Iron Cross for service to the Third Reich. But they could not have been more different and neither woman had a good word to say for the other. Hanna was middle-class, vivacious, and distinctly Aryan, while the darker, more self-effacing Melitta came from an aristocratic Prussian family. Both were driven by deeply held convictions about honor and patriotism; but ultimately, while Hanna tried to save Hitler’s life, begging him to let her fly him to safety in April 1945, Melitta covertly supported the most famous attempt to assassinate the Führer. Their interwoven lives provide vivid insight into Nazi Germany and its attitudes toward women, class, and race. Acclaimed biographer Clare Mulley gets under the skin of these two distinctive and unconventional women, giving a full–and as yet largely unknown–account of their contrasting yet strangely parallel lives, against a changing backdrop of the 1936 Olympics, the Eastern Front, the Berlin Air Club, and Hitler’s bunker. Told with brio and great narrative flair, The Women Who Flew for Hitler is an extraordinary true story, with all the excitement and color of the best fiction.Biographers' Club Prize-winner Clare Mulley’s The Women Who Flew for Hitler–a dual biography of Nazi Germany’s most highly decorated women pilots. Yet upon fleeing to America, she was recruited by the CIA to assassinate the Fidel. Torn by love and loyalty, she couldn’t bring herself to slip him the lethal pills. Her life would take many more twists and turns—including having a child with ex-dictator of Venezuela, Marcos Pérez Jiménez; testifying about the John F. Kennedy assassination; and becoming a party girl with close ties the New York mafia (and then a police informant). Caught up in Cold War intrigue, espionage, and conspiracy—this is Marita’s incredible autobiography of a young woman who became a spy for the CIA.

At the same time, he was a masterful double agent. An inspired shape-shifter who kept his cover in place until the day he died, Pham Xuan An ranks as one of the preeminent spies of the twentieth century. When Thomas A. Bass set out to write the story of An's remarkable career for The New Yorker, fresh revelations arrived daily during their freewheeling conversations, which began in 1992. She was ruthless. She was brilliant and had a will of iron. Born Vera Maria Rosenberg in Bucharest, she became Vera Atkins. William Stephenson, the spymaster who would later be known as "Intrepid," recruited her when she was twenty-three. Vera spent most of the 1930s running too many dangerous espionage missions to count. When war was declared in 1939, her many skills made her one of the leaders of the Special Operations Executive (SOE), a covert intelligence agency formed by, and reporting to, Winston Churchill. She trained and recruited hundreds of agents, including dozens of women. Their job was to seamlessly penetrate deep behind the enemy lines. As General Dwight D. Eisenhower said, the fantastic exploits and extraordinary courage of the SOE agents and the French Resistance fighters "shortened the war by many months."They are celebrated, as they should be. But Vera Atkins' central role has been hidden until after she died; William Stevenson promised to wait and publish her story posthumously. Now, Vera Atkins can be celebrated and known for the hero she was: the woman whose beauty, intelligence, and unwavering dedication proved key in turning the tide of World War II.

Harriet the Spy

Philly in Beirut

When two MI5 agents disappear in Jamaica, Bond is sent to investigate, but a mysterious assailant attempts to dispatch 007 with everything from poisoned nectarines to killer centipedes! And when Bond links the attacks to the island of Crab Key, owned by the mysterious Doctor No, his troubles are just beginning!

The remarkable story of Krystyna Skarbek, aka Christine Granville, George Medal, OBE and Croix de Guerre. In June 1952, a woman was murdered by an obsessive colleague in a hotel in South Kensington. Her name was Christine Granville. That she died young was perhaps unsurprising, but that she had survived the Second World War was remarkable. The daughter of a feckless Polish aristocratic and his wealthy Jewish wife, she would become one of Britain's most daring and highly decorated secret agents. Having fled Poland on the outbreak of war, she was recruited by the intelligence services long before the establishment of the SOE, and took on mission after mission. She skied over the hazardous High Tatras into Poland, served in Egypt and North Africa and was later parachuted into Occupied France, where an agent's life expectancy was only six weeks. Her courage, quick wit and determination won her release from arrest more than once, and saved the lives of several fellow officers, including one of her many lovers, just hours before their execution by the Gestapo. More importantly, perhaps, the intelligence she gathered was a significant contribution to the Allied war effort and her success was reflected in the fact that she was awarded the George Medal, the OBE and the Croix de Guerre.

Bond, James Bond. The ultimate British hero—suave, stoic, gadget-driven—was, more than anything, the necessary invention of a traumatized country whose self-image as a great power had just been shattered by the Second World War. By inventing the parallel world of secret British greatness and glamour, Ian Fleming fabricated an icon that has endured long past its maker's death. In The Man Who Saved Britain, Simon Winder lovingly and ruefully re-creates the nadirs of his own fandom while illuminating what Bond says about sex, the monarchy, food, class, attitudes toward America, and everything in between. The result is an insightful and, above all, entertaining exploration of postwar Britain under the influence of the legendary Agent 007.
