The Stars Look Down was A. J. Cronin's fourth novel, published in 1935, and this tale of a North county mining family was a great favourite with his readers. Robert Fenwick is a miner, and so are his three sons. His wife is proud that all her four men go down the mines. But David, the youngest, is determined that somehow he will educate himself and work to ameliorate the lives of his comrades who ruin their health to dig the nation's coal. It is, perhaps, a typical tale of the era in which it was written – there were many novels about coal mining, but Cronin, a doctor turned author, had a gift for storytelling, and in his time wrote several very popular and successful novels in the magnificent narrative tradition of The Citadel, Hatter 's Castle and Cronin 's other novels, The Stars Look Down is deservedly remembered as a classic of its age.

In THE STARS SHINE DOWN, Sidney Sheldon returns to the powerful and classic themes that have made him one of the world's most popular bestselling authors. And in a dazzling global setting from London to New York, from Reno to Rome, she will find everything she has ever desired and won -- her fortune, her fame, the man she loves -- swiftly and shockingly imperiled.

Sidney Sheldon's Reckless

A Neuropsychologist's Odyssey Through Consciousness

The Stars Shine Down

When celebrated neuropsychologist Paul Broks's wife died of cancer, it sparked a journey of grief and reflection that traced a lifelong attempt to understand how the brain gives rise to the soul. The result of that journey is a gorgeous, evocative meditation on fate, death, consciousness, and what it means to be human. The Darker the Night, The Brighter the Stars weaves a scientist 's understanding of the mind – its logic, its nuance, how we think about what makes a person – with a poet 's approach to humanity, that crucial and ever-elusive why. It 's a story that unfolds through the centuries, along the path of humankind 's constant quest to discover what makes us human, and the answers that consistently slip out of our grasp. It 's modern medicine and psychology and ancient tales; history and myth combined; fiction and the stranger truth. But, most importantly, it 's Broks ' story, grounded in his own most fascinating cases as a clinician—patients with brain injuries that revealed something fundamental about the link between the raw stuff of our bodies and brains and the ineffable selves we take for who we are. Tracing a loose arc of loss, acceptance, and renewal, he unfolds striking, imaginative stories of everything from Schopenhauer to the Greek philosophers to jazz guitarist Pat Martino in order to sketch a multifaceted view of humanness that is as heartbreaking as it is affirming.

From the American heartland to the edge of Hell, David Morrell (bestselling author of such classics as First Blood and The Brotherhood of the Rose) has consistently redefined the modern thriller. Now he turns to a darker side of suspense in a powerful collection of tales, many of them award winners. Prefaced by revealing autobiographical introductions, they delve into the weird, uncanny terrors that lurk just beneath the comforting surfaces of daily life. Fear of loss, fear of pain, fear of madness, fear of being trapped, fear of the unspeakable horrors that fester deep within the soul. . . . No matter who or where you are, fear is always with you, always ready to attack from behind the masks of thoughts and dreams. In this career-spanning examination of his life and the fears we all share, let David Morrell tell you a story. . . . " For These and All My Sins " —a motorist in need of help finds himself in a town where everyone is disguised . . . and discovers too late the terrifying reason they became that way. . . . " The Beautiful Uncut Hair of Graves " —Both your parents die suddenly. Going through their legal papers, you find adoption records, dated after your birthday. . . . But every official document has vanished, along with your biological mother. . . . " Orange Is for Anghuis, Blue for Insanity " —Beneath the placid, beautiful landscapes of a master artist 's paintings are levels of meaning that hide deep layers of pain. . . . and unearthly nightmares. . . . " Dead Image " —You know that that Hollywood stars think fame is more important than life itself. . . . but you don 't realize the half of it. . . . (There 's a lot of James Dean in this story.) " The Shrine " —Parents grieving for their dead children find a hidden place that offers lost hope. . . . or eternal madness. . . .

When tragedy strikes her personal life, Anna, desperate and numb, flees to the Northern California village of Mendocino to grieve. She lived there as a child with her beloved foster parents, and now she believes it might be the only place left for her. Yet the day she arrives, she learns that a local teenage girl has gone missing. The crime feels frighteningly reminiscent of the most crucial time in Anna 's childhood, when the unsolved murder of a young girl touched Mendocino and changed the community forever. As past and present collide, Anna realizes that she has been led to this moment. The most difficult lessons of her life have given her insight into how victims come into contact with violent predators. As Anna becomes obsessed with saving the missing girl, she must accept that true courage means getting out of her own way and learning to let others in. Weaving together actual cases of missing persons, trauma theory, and a hint of the metaphysical, this propulsive and deeply affecting novel tells a story of fate, necessary redemption, and what it takes, when the worst happens, to reclaim our lives—and our faith in one another.
