Poe's preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe's most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).

Perhaps fitting for a horror short story, the devil is in the details in Poe's "The Oval Portrait" (1842). A benighted traveller finds shelter in an abandoned mansion in the Apennine Mountains of Italy. Inside he gets absorbed by a stunning painting and decides to delve into its origins with the help from a book he finds on a pillow. The story revolves around the complex and often tragic relationship between life and art. As per usual Poe can't help himself to play with layers, and most of the story is told as an embedded narrative. The intense emotional and psychological depths of the narrator's infatuation with the portrait and the enticing volume that helps to shed a light on the painting make this short story another fascinating and haunting and Poesque tale which succinctly glorifies the immortality of art. In The Telltale Hardon and Other Perversions, Edgar Allan Pole digs up seven of Edgar Allan Poe's best-loved stories and gives them a post-mortem makeover. In "The Telltale Hardon," a college girl seduces her elderly landlord. Things go awry when his heart gives out and the co-ed must dispose of his body, only to be haunted by his ghostly erection. In "The Purple Death," Pole reimagines "The Masque of the Red Death" as a post-apocalyptic orgy inside Prince's fortified Paisley Park compound. And in "The Pit and the Pendulous Ballsack," a condemned man is tortured in a terrifyingly perverse manner. Pride and Prejudice and Zombies jumpstarted the literary mash-up genre; Edgar Allan Pole's twisted take on classic Poe short stories such as "The Tell-Tale Heart" and "The Fall of the House of Usher" will pound the final nail into the genre's coffin.

Every child knows about Santa Claus, the jolly man who brings gifts to all on Christmas. There are many stories that tell of his life, but the delightful version relayed in The Life and Adventures of Santa Claus is by far the most charming and original of all. Only L. Frank Baum, the man who created the wonderful land of Oz, could have told Santa's tale in such rich and imaginative detail.

What would you get if you take Lewis Carroll's fairy-tale imagination and filter it through Edgar Allan Poe's terror-ridden and grotesque vision? Add a tint of humour and a pinch of satire and voilà – an allegorically nightmarish Last Supper, situated in a house, previously occupied by an undertaker. Parodying the Black Death, the short story indulges in farcical situations, abnormalities, and a lot of puns. The characters exist in a misshapen, surrealist reality that embraces and caricatures London's immoral middle-class particularities and pleasures. Come for the author, endure the grotesque, and relish the ending!

"Madness, but will you say that I am mad? Murder, perhaps you judge too soon. Inspired by Poe's own tragic life, the short story clearly presages Freud's method of psychoanalysis. In a very Fight-club-like plot and situations, "William Wilson" is a journey within the mind. Some sixty years prior to Freud's clinical work and theoretical developments, Poe's story is an example of the rise of the psychological genre in literature. A fruitful, and at the same time paranoid, the theme of the doppelganger runs strong in Edgar Allan Poe's fiction. From "The Fall of the House of Usher" to "Morella" and "Ligeia", Poe's characters are constantly harassed by conscious entities that mirror the chaos within the protagonists' unconscious. The influence of "William Wilson" can be felt in the proliferation of contemporary movies exploring the idea of the double, such as Hitchcock's "Vertigo" (1958), Basil Dearden's "The Man Who Haunted Himself" (1970) or Darren Aronofsky's "Black Swan" (2010). On the 25th anniversary of the founding of the Boston Studies series in 1985, Cohen, Elkana, and Wartofsky wrote in another preface such as this that the time had come for establishing institutions supporting a vision to which the series had been devoted since its inception, namely that of a more broadly conceived, interdisciplinary study of the history and philosophy of science: In recent years it has become evident that, in addition to serious and competent disciplinary work on the specifics of the History of Science, the Philosophy of Science and the Sociology of Science, there is now a growing need to develop a problem oriented approach which no longer distinguishes between these three specialties in a cut and dried way. Since the time has come for such an approach, the institutional tools should be provided. A way to do so would be . . . to organize colloquia and to publish good papers stemming from these, without attempting to organize the papers under the separate rubrics of History of Philosophy or Sociology of Science; and moreover to consider it natural that any fundamental issue of the foundations of the sciences, or their place in a culture and the way they are institutionalized in the societal web, is still our concern, no matter whether we are a professional scientist, historian or philosopher who deals with the problem (p. vii).

"The Tell-Tale Heart" is a short story by Edgar Allan Poe first published in 1843. It follows an unnamed narrator who insists on his sanity after murdering an old man with a "vulture eye." The murder is carefully calculated, and the murderer hides the body by cutting it into pieces and hiding it under the floorboards. Ultimately the narrator's guilt manifests itself in the hallucination that the man's heart is still beating under the floorboards.It is unclear what relationship, if any, the old man and his murderer share. It has been suggested that the old man is a father figure or, perhaps, that his vulture eye represents some sort of veiled secret. The ambiguity and lack of details about the two main characters stand in stark contrast to the specific plot details leading up to the murder.The story was first published in James Russell Lowell's The Pioneer in January 1843. "The Tell-Tale Heart" is widely considered a classic of the Gothic fiction genre and one of Poe's most famous short stories.
