'Hello, sweetie!' Melody Pond, Melody Malone, River Song...She has had many names. Whoever she really is, this

archaeologist and time traveller has had more adventures (and got into more trouble) than most people in the universe. And she's written a lot of it down. Well, when you're married to a Time Lord (or possibly not), you have to keep track of what you did and when. Especially as it may not actually have happened to both of you yet. These are just a few of River Song's exploits, extracted from her journals. Sometimes, she is with the Doctor. Sometimes she's on her own. But wherever and whenever she may be, she is never far from danger and excitement. This is just a tiny portion of her impossible life. But it will reveal more than you've ever known about the legend that is River Song.

It's the start of a brand-new year for the Doctor, Gabby, and Cindy, and things are looking very different for the Tenth Doctor's TARDIS team! Dangerously different, in fact! Did the Doctor really abandon Gabby and Cindy back to their life on Earth - and why is he wandering homeless, without his TARDIS, on a mystifying alien world? The truth will dazzle, terrify, and entertain you! Renowned writer Nick Abadzis (Laika), with superstar artists Giorgia Sposito (Wonderland, Charmed) and Valeria Favoccia, pilots the TARDIS through the revelatory next chapter in the Doctor's ongoing story!

All over the world, people are venting their fury at one another on social media. Dropping their friends, giving vent to their hatred, and everywhere behaving with incredible cruelty. Even Donna has found that her friend Hettie, with her seemingly perfect life and fancy house, has unfriended her. And now, all over the world, internet trolls are dying... As more and more people give in to this wave of bitterness and aggression, it's clear this is no simple case of modern living. This is unkindness as a plague. From the streets of London to the web cafes of South Korea and the deepest darkest forests of Rio, can the Doctor and Donna find the cause of this unhappiness before it's too late? An original novel featuring the Tenth Doctor and Donna, as played by David Tennant and Catherine Tate. Compassion has finally been tracked down by the Time Lords and two TARDISEs are moving in to attack and disable here. She disgorges the Doctor and Fitz in a dark, mysterious, Gallifreyan location, where they are attacked by a gigantic spider, that only the Doctor can see.

Whacked! is the definitive book of insane commentaries that focus on movies of the horror and exploitation genre of the 1970s and '80s. The satiric criticism of movies featured in this book is the meat. The movies themselves serve as a backdrop. Home Video pioneer, Glen Coburn, writer/director of **Bloodsuckers From Outer Space** creates a quirky cast of characters that meander through his commentaries. These characters and their presence as the author's movie viewing companions are often more significant than the movies themselves. A central figure in the book is Coburn's unofficial bastard stepson, Elmo. This scruffy, unwashed young man is responsible for perpetual hijinks that often distract the author from his mission to strip down each movie to its despicable anatomy. From the author: "After years of suffering from over active sweat glands I finally realized the truth. The vaporous fumes of this book do not serve as movie reviews. My commentaries are not a sewer pipe to the understanding of movies such as, "Cannibal Butt wipes of Alabama." My flatulent essays are the entertainment itself. It was brought to my attention by a lobotomized turnip farmer that when he read these articles he was overcome with a compulsion to witness the movies. My beautiful writing led to great inspiration in the simmering brain of this pathetic specimen of humanity. I was not alone during my adventure in self-loathing. Several people and animals were always around to stink up the place. My horrible bastard surrogate son, Elmo was at arms length most of the time. His chronic presence was disturbing and comforting in equal measure. My lovely wife, Honeypot watched some of these movies while reading a cookbook written in Braille. My darling smart-ass daughter, Princess sat in on a few viewings and quickly turned even more disgruntled. A friend of mine described this book as toilet reading. He said that each of these commentaries could be read in one sitting. If you enjoy this book, I will fawn over you until you become nauseated. Those who do not appreciate my work can go straight to hell." An excerpt: "This movie reminds me of being doped-up on cold medication. It's like waking up in a night sweat from the grip of an awful dream only to realize that you're still

dreaming. When you finally wake up again, you figure out that you're in another dream. This goes on until ninety minutes have passed and you become fully alert, engulfed in a pond of your own saliva. If Christopher Nolan was drunk on window cleaner and made Inception for ten dollars, the result would be Blood of Ghastly Horror. I don't mean that in a bad way. This movie is a veritable masterpiece of making one movie out of another movie and then making another movie out of the first two. Each additional film contains new footage that is unrelated to anything in any movie ever made. The layers are intractably woven together into an irresistibly trippy gruel."Review: "Not since that other Texas redneck has there been a critic whose collection contains such a colorful cast of characters and a trashy attitude toward the trashy films we (for no good reason) love. WHACKED is not only a nauseatingly fun read, but between all the shinola and bullstuff, I bet you'll learn a thing or two. It's a perfectly putrid addition to your vast library of otherwise stuffy film books that take themselves way too seriously." -- Michael Koopmans FANGORIA.com

Cally was like any other teenage girl; she was smart, funny, caring, and beautiful. She loved going shopping with her mother, Kate, as well as beating her dad, Bill, at a game of basketball. Sure, she had her fair share of problems, like peer pressure and the occasional arguments with her parents--which usually led to being grounded. However, none of this could ever prepare her for the ultimate problem, an abusive boyfriend. Cally had been with her boyfriend, Ryan, for exactly one year. Nine months of that year was absolutely wonderful. They did everything together and were very much in love. However, the last three months were a pure and living hell for Cally. Ryan had started drinking very heavily and had become mentally and physically abusive. The abuse was terrible for Cally; in only three months Ryan had busted her lip and had put bruises all over Cally's body. The abuse was getting worse by the day and Cally knew that she had to end the relationship soon. Cally still cared for Ryan, despite his cruel and abusive ways, but she knew that he was not going to change; he was too far gone. Cally had planned to break up with him on prom night, but as a fatal turn of events unfolds, Cally discovers that it's not so easy to escape from Ryan's grip.

As America's armed forces face an extremely complex and chaotic strategic environment, the ability to maintain an advantage over an uncertain adversary is a constant challenge. The world is currently seeing an increasing number of economic and political superpowers, a rise in the ability of state and non-state actors to produce nuclear weapons and an increase in the capability of violent extremist organizations to fund and support terrorist activities. During this time of global insecurity, the United States must stay determined and focused in order to protect the American people, its allies and partners. In order to accomplish this task, the U.S. currently relies heavily on technological means which are rapidly becoming the predominant choice for defeating global threats. From the organizational structure to the facilities utilized for training, warfighters have become significantly dependent on technology and the capabilities innovation provides. Unfortunately, the negative effects created due to this over-reliance result in significant dangers and hazards to the warfighters that often go unrecognized.
