

## The Usborne Internet Linked Complete Book Of Chess Chess Guides

Peek-through holes reveal the journey from seed to plant. Especially appealing to the eco-conscious buyer, these gently educational recycled board books with die-cuts offer an interactive early-learning introduction to the natural world.

A reference book providing views of the universe, cutaways of the Earth, information exploring how it has evolved and what causes dramatic natural phenomena. It also covers core subjects such as rocks and minerals, weather and climate as well modern concerns about the environment.

Young children can learn all about how the heart pumps blood, what the brain does, the different bones in the bones and much more in this detailed introduction to the human body.

Provides information on the culture and history of ancient Greece from Minoan times to the coming of the Romans.

Viking World

Astronomy and Space

The Usborne Internet-linked Science Encyclopedia

The Usborne Book of Peoples of the World

Usborne Internet-Linked Book of Astronomy and Space

Describes outer space and the history of astronomy, including the planets of the solar system, the life of a star, the origin of constellations, and how stars are photographed.

Informative text, pictures and illustrations highlighting outer space and the solar system. Complete Books.

A book that contains descriptions of websites you can visit to take you further into the subject in an entertaining and informative way, however you do not have to have a computer to use this book. This encyclopedia works

on its own as an outstanding reference book without using the Internet at all.

The entire family will be berry excited about these books. They will like them a waffle lot. And they are really gouda together. (We're so sorry. Udon even know ª)

*This wonderful collection includes retellings of five stories by Charles Dickens, one of the most popular authors of all time. Meet dozens of his unforgettable characters in stories bursting with drama, comedy, tragedy and romance, set against the backdrop of Victorian England. Contains Oliver Twist, Great Expectations, David Copperfield, A Tale of Two Cities and Bleak House all beautifully retold for younger readers. A section at the back introduces the life and times of Charles Dickens. Full of colourful illustrations from the Usborne Young Reading Programme. Now produced in a shrink-wrapped, luxurious gift edition to celebrate Dickens' bicentenary.*

*This book is a breathtaking introduction to an extraordinary new world. Fantastic photographs, a thousand or even a million times larger than life, reveal the secrets of the micro world, from algae to atoms, dust to DNA and flies' eyes to flu viruses. Also included are websites where you can explore the micro world in more depth; step-by-step project ideas to help you get the most from your microscope and practical information on buying and taking care of microscopes.*

*An exciting and comprehensive guide to improving individual skills and team performance from basic control to the best team formations.*

*Packed with photographs, computer-generated artwork, cut-aways and diagrams, this book on the human body will educate, fascinate and improve understanding of our miraculous bodies. From breathing to blood and muscles to metabolism, this book takes a look inside the human body, explaining how it works, how to keep it working and what may go wrong with it. It also asks questions that concern young readers and the choices they face in terms of their own bodies, regarding drug use, contraception and smoking.*

*The Usborne Encyclopedia of Ancient Greece*

***This is a must-have encyclopedia with over 1500 amazing photographs, illustrations and diagrams. Topics covered include animals and plants, how the human body works, history, cultures, science, technology, space, and our world.***

***The classic bi-lingual Spanish/English word book, illustrated by Stephen Cartwright. A thousand everyday words illustrated with busy scenes and labelled pictures to help children learn key Spanish vocabulary.***

***This is an overview of the universe, from our closest planetary neighbours to stars, galaxies and black holes many millions of light years away from Earth. Readers can use the clear detailed maps of the stars to navigate the night sky.***

***It is impossible to overstate the importance of British novelist CHARLES DICKENS (1812-1870) not only to literature in the English language, but to Western civilization on the whole. He is arguably the first fiction writer to have become an international celebrity. He popularized episodic fiction and the cliffhanger, which had a profound influence on the development of film and television. He is entirely responsible for the popular image of Victorian London that still lingers today, and his characters-from Oliver Twist to Ebenezer Scrooge, from Miss Havisham to Uriah Heep-have become not merely iconic, but mythic. But it was his stirring portraits of ordinary people-not the upper classes or the aristocracy-and his fervent cries for social, moral, and legal justice for the working poor, and in particular for poor children, in the grim early decades of the Industrial Revolution that powerfully impacted social concerns well into the 20th century.***

***Without Charles Dickens, we may never have seen the likes of Sherlock Holmes, Upton Sinclair, or even Bob Dylan. Here, in 30 beautiful volumes-complete with all the original illustrations-is every published word written by one of the most important writers ever. The essential collector's set will delight anyone who cherishes English literature...and who takes pleasure in constantly rediscovering its joys. This volume contains Dickens's famous 1843 novel A Christmas Carol plus his lesser-known tales of the winter holiday: The Chimes (1844), The Cricket on the Hearth (1845), The Battle of Life (1846), and The Haunted Man and the Ghost's Bargain (1848).***
