Dogged by their feral hunger for flesh and crippled by fear, Lilly relies on the protection of good Samaritans by seeking refuge in a walled-in town once known as Woodbury, Georgia. At first, Woodbury seems like a perfect sanctuary. Squatters barter services for food, people have roofs over their heads, and the barricade expands, growing stronger every day. Best of all, a mysterious self-proclaimed leader named Philip Blake keeps the citizens in line.

Alette, the narrator, finds herself underground, deep beneath the city, where spirits and people ride endlessly on subways, not allowed to live in the world above. Traveling deeper and deeper, she is on a journey of continual transformation, encountering a series of figures and undergoing fragmentations and metamorphoses as she seeks to confront the Tyrant and heal the world. most shocking realization: the underworld is a vast geological labyrinth populated by another race of beings. With all of Hell's precious resources and territories to be won, a global race ensues. Nations, armies, religions, and industries rush to colonize and exploit the subterranean frontier. A scientific expedition is launched westward to explore beneath the Pacific Ocean floor, both to catalog the riches there and to learn how life could develop in the sunless abyss. But in the dark underground, as humanity falls away from them, the scientists and mercenaries find themselves prey not only to the savage creatures, but also to their own treachery, mutiny, and greed. One thing is certain: Miles inside the earth, evil is very much alive.
