This book, first published in 1990, examines the relationship between the Soviet Union and the Western Alliance at a time of great changes. Experts on a range of topics analyse the relationship from both the Soviet

perspective (the impact of Gorbachev, and the role of Eastern Europe), and from the standpoint of the nations of the West including France, Great Britain and West Germany). Also included is a discussion of the role of the northern flank in Soviet nuclear-free proposals. The book

concludes with an assessment of the challenges posed by the changing Soviet perspective, and the opportunities that these present for the Western Alliance.

Now repackaged--the timeless classic of World War I Germany that speaks to generation after generation.

The National
Politics of EU
Enlargement in
the Western
Balkans
examines the
way in which a
number of
European Union
member states,
including

Germany and France, formulate their policies towards enlargement in the Western Balkans. The six countries of the Western Balkans – Albania, Bosnia and Herzegovina, Kosovo,

Montenegro,
North Macedonia
and Serbia – are
on course to
become the next
members of the
European Union.
While there has
been a lot of work
on the ways in
which these
countries are

how the EU as a

approaches the
question of
expansion, very
little attention
has been paid to
how individual
EU member
states regard

enlargement into a region that presents a number of serious challenges, including the legacies of the conflicts of the 1990s, economic underdevelopment and poor

governance. Focusing on key states, such as Germany, France and Italy, the neighbouring countries of Central and South East Europe, and Britain, once a leading advocate

of enlargement that is now in the process of leaving the European Union, this volume casts important new empirical and conceptual light on the diverse motivations that underpin member

towards EU
enlargement. The

great interest to
scholars of the
