NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, exposed the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Oprah Winfrey, Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling out bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and taking on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the show's ups and downs, rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

What do women want? The same thing men were promised in the Declaration of Independence: happiness, or at least the freedom to pursue it. For women, though, pursuing happiness is a complex task. If you head out into America and talk to women one-on-one, as Jill Filipovic has done, you'll see that happiness is indelibly shaped by the constraints of gender, the expectations of feminine sacrifice, and the ways that womanhood itself differs along lines of race, class, location, and identity. In *The H-Spot*, Filipovic argues that the main obstacle standing in-between women and happiness is a rigged system of unfinished feminism, men have long been able to "have it all" because of free female labor, while the bar of achievement for women has only gotten higher. Never before have women at every stage of their lives work so much (whether it's to be an accomplished white-collar employee or just make ends meet). Never before have the standards of feminine perfection been so high. And never before have the demands of being a "good mother" been so extreme. If our laws and policies made women's happiness and fulfillment a goal in and of itself, Filipovic contends, many of our country's most contentious political issues, from reproductive rights to equal pay to welfare spending -- would swiftly be resolved. Filipovic argues that it is more important than ever to prioritize women's happiness-and that doing so will make the world a better place, too. Here, she provides an outline for a feminist movement we all need and a blueprint for how policy, laws, and society can deliver on the promise of the pursuit of happiness for all.

One of The New York Times Book Review's "10 Best Books of 2021" Shortlisted for the 2021 International Booker Prize A fictional examination of the lives of real-life scientists and thinkers whose discoveries resulted in moral consequences beyond their imagining. When We Cease to Understand the World is a book about the complicated links between scientific and mathematical discovery, madness, and destruction. Fritz Haber, Alexander Grothendieck, Werner Heisenberg, Erwin Schrödinger—these are some of luminaries into whose troubled lives Benjamín Labatut thrusts the reader, showing us how they grappled with the most profound questions of existence. They have strokes of unparalleled genius, alienate friends and lovers, descend into isolation and insanity. Some of their discoveries reshape human life for the better; others pave the way to chaos and unimaginable suffering. The lines are never clear. At a breakneck pace and with a wealth of disturbing detail, Labatut uses the imaginative resources of fiction to tell the stories of the scientists and mathematicians who expanded our notions of the possible.

Steve Hely, writer for The Office and American Dad!, and recipient of the Thurber Prize for American Humor, presents a travel book about his journey through Central and South America. Part travel book, part pop history, part comic memoir, Hely's writing will make readers want to reach for their backpack and hiking boots. The Wonder Trail is the story of a trip from Los Angeles to the bottom of South America, presented in 102 short chapters. From Mexico City to Oaxaca; into ancient Mayan ruins; the jungles, coffee plantations, and remote beaches of Central America; across the Panama Canal; by sea to Colombia; to the wild Easter celebration of Popayán; to the Amazon rainforest; the Inca sites of Cuzco and Machu Picchu; to the Galápagos Islands; the Atacama Desert of Chile; and down to wind-worn Patagonia at the bottom of the Western Hemisphere; Steve traveled collecting stories, adventures, oddities, marvels, bits of history and biography, tales of weirdos, fun facts, and anything else interesting or illuminating. Steve's plan was to discover the unusual, wonderful, and absurd in Central and South America, to seek and find the incredible, delightful people and experiences that came his way. And the book that resulted is just as fun. A blend of travel writing, history, and comic memoir, The Wonder Trail will inspire, inform, and delight.

*George Hall is an unobtrusive man. A little distant, perhaps, a little cautious, not quite at ease with the emotional demands of fatherhood or of manly bonhomie. "The secret of contentment, George felt, lay in ignoring many things completely." Some things in life can't be ignored, however: his tempestuous daughter Katie's deeply inappropriate boyfriend Ray, for instance, or the sudden appearance of a red circular rash on his hip. At 57, George is settling down to a comfortable retirement, building a shed in his garden and enjoying the freedom to be alone when he wants. But then he runs into a spot of bother. That red circular rash on his hip: George convinces himself it's skin cancer. And the deeply inappropriate Ray? Katie announces he will become her second husband. The planning for these frowned-upon nuptials proves a great inconvenience to George's wife, Jean, who is carrying on a late-life affair with her husband's ex-colleague. The Halls do not approve of Ray, for vague reasons summed up by their son Jamie's observation that Ray has "strangler's hands." Jamie himself has his own problems – his tidy and pleasant life comes apart when he fails to invite his lover, Tony, to Katie's wedding. And Katie, a woman whose ferocious temper once led to the maiming of a carjacker, can't decide if she loves Ray, or loves the wonderful way he has with her son Jacob. Unnoticed in the uproar, George quietly begins to go mad. The way these damaged people fall apart – and come together – as a family is the true subject of Haddon's hilarious and disturbing portrait of a dignified man trying to go insane politely. A Spot of Bother is Mark Haddon's unforgettable follow-up to the internationally beloved bestseller *The Curious Incident of the Dog in the Night-time*. Once again, Haddon proves a master of a story at once hilarious, poignant, dark, and profoundly human. Here the madness – literally – of family life proves rich comic fodder for Haddon's crackling prose and bittersweet insights into misdirected love.*

*A dozen of the most successful and popular writers today including: Helen Fielding, Robert Harris, Patrick Marber, Zadie Smith, John O'Farrell, Roddy Doyle, Melissa Bank and Irvine Welsh have written 6000-word fictional monologues along the lines of Alan Bennett's *Talking Heads*. And Colin Firth makes his debut as a fiction writer. The result is a book of completely original stories that have heart, soul and wit. All the writers have given their work free, and Penguin is giving £1 per copy sold to the TreeHouse Trust, a charity which is setting up a unique school for autistic children*

Jacob Finch Bonner was once a promising young novelist with a respectably published first book. Today, he's teaching in a third-rate MFA program and struggling to maintain what's left of his self-respect; he hasn't written—let alone published—anything decent in years. When Evan Parker, his most arrogant student, announces he doesn't need Jake's help because the plot of his book in progress is a sure thing, Jake is prepared to dismiss the boast as typical amateur narcissism. But then . . . he hears the plot. Jake returns to the downward trajectory of his own career and braces himself for the supernova publication of Evan Parker's first novel: but it never comes. When he discovers that his former student has died, presumably without ever completing his book, Jake does what any self-respecting writer would do with a story like that—a story that absolutely needs to be told. In a few short years, all of Evan Parker's predictions have come true, but Jake is the author enjoying the wave. He is wealthy, famous, praised and read all over the world. But at the height of his glorious new life, an e-mail arrives, the first salvo in a terrifying, anonymous campaign: You are a thief, it says. As Jake struggles to understand his antagonist and hide the truth from his readers and his publishers, he begins to learn more about his late student, and what he discovers both amazes and terrifies him. Who was Evan Parker, and how did he get the idea for his "sure thing" of a novel? What is the real story behind the plot, and who stole it from whom?

The Wonder of You

NEW YORK TIMES BESTSELLER • A heartwarming novel about secrets of youth rediscovered, hometown memories, and the magical moments in ordinary lives, from the beloved author of *Fried Green Tomatoes at the Whistle Stop Cafe* "A gift, a blessing and a triumph . . . celebrates the bonds of family and friends—and the possibilities of recovery and renewal."—The Free Lance–Star Bud Threadgoode grew up in the bustling little railroad town of Whistle Stop with his mother, Ruth, church-going and proper, and his Aunt Idgie, the fun-loving hell-raiser. Together they ran the town's popular Whistle Stop Cafe, known far and wide for its fun and

famous fried green tomatoes. And as Bud often said of his childhood to his daughter Ruthie, "How lucky can you get?" But sadly, as the railroad yards shut down and Whistle Stop became a ghost town, nothing was left but boarded-up buildings and memories of a happier time. Then one day, Bud decides to take one last trip, just to see what has become of his beloved Whistle Stop. In so doing, he discovers new friends, as well as surprises about Idgie's life, about Ninny Threadgoode and other beloved Fannie Flagg characters, and about the town itself. He also sets off a series of events, both touching and inspiring, which change his life and the lives of his daughter and many others. Could these events all be just coincidences? Or something else? And can you really go home again?

How we can all be lifelong wonderers: restoring the sense of joy in discovery we felt as children. From an early age, children pepper adults with questions that ask why and how: Why do balloons float? How do plants grow from seeds? Why do birds have feathers? Young children have a powerful drive to learn about their world, wanting to know not just what something is but also how it got to be that way and how it works. Most adults, on the other hand, have little curiosity about whys and hows; we might unlock a door, for example, or boil an egg, with no idea of what happens to make such a thing possible. How can grown-ups recapture a child's sense of wonder at the world? In this book, Frank Keil describes the cognitive dispositions that set children on their paths of discovery and explains how we can all become lifelong wonderers. Keil describes recent research on children's minds that reveals an extraordinary set of emerging abilities that underpin their joy of discovery—their need to learn not just the facts but the underlying causal patterns at the very heart of science. This glorious sense of wonder, however, is stifled, beginning in elementary school. Later, with little interest in causal mechanisms, and motivated by intellectual blind spots, as adults we become vulnerable to misinformation and manipulation—ready to believe things that aren't true. Of course, the polymaths among us have retained their sense of wonder, and Keil explains the habits of mind and ways of wondering that allow them—and can enable us—to experience the joy of asking why and how.

Struggling with ambivalent feelings toward the passions and identities that are important to other members of her Jewish Pennsylvania family, Sophie Applebaum makes observations about her family life over the course of twenty years.

The Wonder of All Things

This Place of Wonder

I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippines. After realizing I would have children of mixed racial birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial, religious and cultural differences gave the book a more defined nature, one of which I was proud. I had given up long ago on trying to get an agent or a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their own heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race known as the T-Challa. Their plan is to enslave the population and to strip the earth of all its resources to maintain and expand their vast empire. However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa. The Probe which takes the name Paladin merges with a human named Caleb Ocode as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then man's his ship with the best the earth has to offer as they go out and defend the earth successfully defeating the small fleet sent by the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named Paladin, the only defense of earth. After searching all possible answers to save himself and protect the earth, Caleb decides to find the X'ena to see if they can cure him before his death, but time is short and the single ship must travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?

"This book is perfect." —Hadley Freeman, *The Guardian* A funny, tender, and wickedly insightful look at a young woman's forays into love, work, and friendship over the course of 25 years. Nothing comes easily to Sophie Applebaum, the black sheep of her family trying to blend in with the herd. Uneasily situated between two brothers, Sophie first appears as the fulcrum and observer of her clan in "Boss of the World." Then, at college, in "The Toy Bar," she faces a gauntlet of challenges as Best Friend to the dramatic and beautiful Venice Lambourne, curator of "perfect things." In her early twenties, Sophie is dazzled by the possibilities of New York City during the Selectric typewriter era—only to land solidly back in Surrey, PA after her father's death. The Wonder Spot follows Sophie's quest for her own identity—who she is, what she loves, whom she loves, and occasionally whom she feels others should love—over the course of 25 years. In an often-disappointing world, Sophie listens closely to her own heart. And when she experiences her 'Aha!' moments—her own personal wonder spots—it's the real thing. In this tremendous follow-up to her runaway bestseller, *The Girls' Guide To Hunting And Fishing*, Bank returns with her signature combination of devilishly self-deprecating humor, and again shares her vast talent for capturing a moment, taking it to heart, and giving it back to her readers.

Her special skill lies not just in her clear, clean writing, but in her general amusement about the world, her arch, pithy, dropped-mike observations about behavior, character and motivation. She can spot hypocrisy, cant, self-contradiction and absurdity ten miles away. She's the one you want to leave the party with, so she can explain what really happened. . . . Not since *Clueless*, which transported Emma to Beverly Hills, has Austen been so delightfully interpreted. . . . Sittenfeld writes so well—her sentences are so good and her story so satisfying. . . . Trish Doller's *The Suite Spot* is a charming romance novel about taking a chance on a new life and a new love. Rachel Beck has hit a brick wall. She's a single mom, still living at home and trying to keep a dying relationship alive. Aside from her daughter, the one bright light in Rachel's life is her job as the night reservations manager at a luxury hotel in Miami Beach—until the night she is fired for something she didn't do. On impulse, Rachel inquires about a management position at a brewery hotel on an island in Lake Erie called Kelleys Island. When she's offered the job, Rachel packs up her daughter and makes the cross country move. What she finds on Kelleys Island is Mason, a handsome, moody man who knows everything about brewing beer and nothing about running a hotel. Especially one that's barely more than foundation and studs. It's not the job Rachel was looking for, but Mason offers her a chance to help build a hotel—and rebuild her own life—from the ground up.
