

These People Are Still Not Your Friends Facts Of Life For Managers

A major intervention in media studies theorizes the politics and aesthetics of internet video The wave of uprisings and revolutions that swept the Middle East and North Africa between 2010 and 2012 were most vividly transmitted throughout the world not by television or even social media, but in short videos produced by the participants themselves and circulated anonymously on the internet. In *The People Are Not An Image*, Snowden explores this radical shift in revolutionary self-representation, showing that the political consequences of these videos cannot be located without reference to their aesthetic form. Looking at videos from Tunisia, Bahrain, Syria, Libya, and Egypt, Snowden attends closely to the circumstances of both their production and circulation, drawing on a wide range of historical and theoretical material, to discover what they can tell us about the potential for revolution in our time and the possibilities of video as a genuinely decentralized and vernacular medium.

A "searing debut" about three young women coming of age, experiencing "the absurdities of life and love on the precipice of violence" (Vogue) Yael, Avishag, and Lea grow up together in a tiny, dusty Israeli village, attending a high school made up of caravan classrooms, passing notes to each other to alleviate the universal boredom of teenage life. When they are conscripted into the army, their lives change in unpredictable ways, influencing the women they become and the friendship that they struggle to sustain. Yael trains marksmen and flirts with boys. Avishag stands guard, watching refugees throw themselves at barbed-wire fences. Lea, posted at a checkpoint, imagines the stories behind the familiar faces that pass by her day after day. They gossip about boys and whisper of an ever more violent world just beyond view. They drill, constantly, for a moment that may never come. They live inside that single, intense second just before danger erupts. In a relentlessly energetic and arresting voice marked by humor and fierce intelligence, Shani Boianjiu, winner of the National Book Foundation's "5 Under 35," creates an unforgettablely intense world, capturing that unique time in a young woman's life when a single moment can change everything.

Bob Nelson was no ordinary T.V. repairman. One day he discovered a book that ultimately changed his entire life trajectory --The Prospect of Immortality by Professor Robert Ettinger. From it, he learned about cryonics: a process in which the body temperature is lowered during the beginning of the dying process to keep the brain intact, so that those frozen could potentially be reanimated in the future. A world of possibilities unfolded for Nelson, as he relentlessly pursued cryonics and became the founder and President of the Cryonics Society of California. Working in coalition with a biophysicist, in 1967 Nelson orchestrated

the freezing of Dr. James Bedford, the first human to be placed in cryonic suspension. Soon thereafter he began freezing others who sought his help, obtaining special capsules and an underground vault. Underfunded, Nelson struggled desperately, often dipping into his own savings, and taking extraordinary measures to maintain his patients in a frozen state. His fascinating memoir reveals his irrepressible passion for life and chronicles the complicated circumstances that comprised his adventures in cryonics.

Free-Trade Cheapness not a National Blessing. An address to the people on the subject of free-trade. By Agrícola

In the Bible, there is a drama of defining who are truly God's people—and who are not. Using an array of biblical texts from both the Hebrew Bible and the New Testament, Not God's People explores how ancient Jews and Christians created their own identity in relation to others. The book analyzes how biblical texts define 'us' and 'them,' how these texts differ in the way they define group identity, and how this process continues to be re-created by Jews and Christians today. Not God's People asks questions such as: How is the outsider defined? Is the ideal insider defined as the opposite of the outsider? It follows up with related questions such as: How were these definitions of 'we' and 'other' in the ancient communities used by later Jews and Christians? Are the processes of community and enemy formation found in the Bible exhibited in most other cultures as well? Not God's People ultimately shows that though the Bible's definitions of the insider and outsider changes dramatically over time, the process are enduring, and eternally true.
