**Looks at the colonial period of American history, highlighting what led to the continent's colonization, its growth, and the colonies' ultimate break with Britain.**

**In his celebrated account of the origins of American unity, John Adams described July 1776 as the moment when thirteen clocks managed to strike at the same time. So how did these American colonies overcome long odds to create a durable union capable of declaring independence from Britain? In this powerful new history of the fifteen tense months that culminated in the Declaration of Independence, Robert G. Parkinson provides a troubling answer: racial fear. Tracing the circulation of information in the colonial news systems that linked patriot leaders and average colonists, Parkinson reveals how the system's participants constructed a compelling drama featuring virtuous men who suddenly found themselves threatened by ruthless Indians and defiant slaves acting on behalf of the king. Parkinson argues that patriot leaders used racial prejudices to persuade Americans to declare independence. Between the Revolutionary War's start at Lexington and the Declaration, they broadcast**

any news they could find about Native Americans, enslaved Blacks, and Hessian mercenaries working with their British enemies. American independence thus owed less to the love of liberty than to the exploitation of colonial fears about race. *Thirteen Clocks* offers an accessible history of the Revolution that uncovers the uncomfortable origins of the republic even as it speaks to our own moment.

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY CHICAGO TRIBUNE AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Los Angeles Times • The Boston Globe • The Seattle Times • The Independent In such acclaimed novels as *Let the Great World Spin* and *TransAtlantic*, National Book Award-winning author Colum McCann has transfixed readers with his precision, tenderness, and authority. Now, in his first collection of short fiction in more than a decade, McCann charts the territory of chance, and the profound and intimate consequences of even our smallest moments. "As it was, it was like being set down in the best of poems, carried into a cold landscape, blindfolded, turned around, unblindfolded, forced, then, to invent new ways of seeing." In the exuberant title novella, a retired judge reflects on his life's work, unaware as he goes about his daily routines that this particular morning will be his last. In "Sh'khol,"

a mother spending Christmas alone with her son confronts the unthinkable when he disappears while swimming off the coast near their home in Ireland. In "Treaty," an elderly nun catches a snippet of a news report in which it is revealed that the man who once kidnapped and brutalized her is alive, masquerading as an agent of peace. And in "What Time Is It Now, Where You Are?" a writer constructs a story about a Marine in Afghanistan calling home on New Year's Eve. Deeply personal, subtly subversive, at times harrowing, and indeed funny, yet also full of comfort, *Thirteen Ways of Looking* is a striking achievement. With unsurpassed empathy for his characters and their inner lives, Colum McCann forges from their stories a profound tribute to our search for meaning and grace. The collection is a rumination on the power of storytelling in a world where language and memory can sometimes falter, but in the end do not fail us, and a contemplation of the healing power of literature. Praise for *Thirteen Ways of Looking* "Extraordinary . . . incandescent."—Chicago Tribune "The irreducible mystery of human experience ties this small collection together, and in each of these stories McCann explores that theme in some strikingly effective ways. . . . [The first story] is as fascinating as it is poignant. . . . [The second] captures the mundane and mysterious aspects of shaping characters from the gray clay of words, placing them in realistic settings and breathing life into

their lungs. . . . That he makes the story so emotionally compelling is a sign of his genius. . . . The most remarkable [piece] is Sh'khol. . . . Caught in the rushing currents of this drama, you know you're reading a little masterpiece."—The Washington Post "McCann is a writer of power and subtlety and beauty. . . . The powerful title story loiters in the mind long after you've read it."—Sarah Lyall, The New York Times "[McCann] unspools complex and unforgettable stories in this, his first collection in more than a decade."—The Boston Globe "McCann is a passionate writer whose impulse is always toward a generous understanding of his diverse characters."—The Wall Street Journal "Powerful, profound, and deeply empathetic, McCann's beautifully wrought writing in Thirteen Ways of Looking glides off the page."—BuzzFeed "McCann weaves the magic that made Let the Great World Spin so acclaimed."—The Huffington Post

Thirteen at Dinner

### **The True Story of Thirteen Women and the Dream of Space Flight Thirteen Stories**

*Adapted for the stage from the novel **On the Trail of King Richard III** by L.M. Ollie, this play deals with the consequences of obsession; the enemy of rational thought. The dinner brings together an eclectic ensemble of individuals including several members of the Richard III Society. Dedicated to an almost mythical image of this 15th century monarch, these individuals are forced to confront contentious issues never before discussed while mourning the passing, early that day, of one of their own. The action takes place in the private functions room of the New Black Horse Inn, Market Bosworth on the eve of the anniversary of King Richard's death (August 22nd, 1485). Thirteen people sit down to dinner but only one of them is aware that one more guest from beyond the grave will very shortly be joining them.*

In 2004, the world was first introduced to **The Filthy Thirteen**, a book describing the most notorious squad of fighting men in the 101st Airborne Division—and the inspiration for the movie **The Dirty Dozen**. Now, Jack Womer—one of the squad’s integral members and probably its best soldier—delivers his long-awaited memoir. Originally a member of the 29th Rangers, which was suddenly dissolved, Womer asked for transfer to another elite unit, the Screaming Eagles, where room was found for him among the division’s most miscreant squad of brawlers, drunkards, and goof-offs. Beginning on June 6, 1944, however, the **Filthy Thirteen** began proving themselves more a menace to the German Army than they had been to*

*their own officers and the good people of England, embarking on a year of ferocious combat at the very tip of the Allied advance in Europe. In this work, with the help of Stephen DeVito, Jack provides an amazingly frank look at close-quarters combat in Europe, as well as the almost surreal experience of Dust-Bowl-era GI's entering country after country in their grapple with the Wehrmacht, finally ending up in Hitler's mountaintop lair in Germany itself. "Jack Womer's story is entertaining, honest and forthright, just like the man. He does not shrink from describing what actually happened although occasionally one suspects just a hint of artistic license. However, there is nothing which is unbelievable given the chaotic and random nature of war."* —Army Rumour Service

*Thirteen boys were born at midnight on the stroke of the new millennium. Twelve of them are dead. A violent cult called "The People" has executed each one and will stop at nothing to reach its last target: thirteen-year-old Adam. But Adam has no idea he's in danger. Raised by adoptive parents, he doesn't know his real birthday connects him to the other victims. Adam's life goes up in flames when a cult deserter tracks him down with a warning. This magnificent novel by one of America's finest writers is the epic of one man's remarkable journey, set in nineteenth-century America against the background of a vanishing people and a rich way of life. At the age of twelve, under the Wind moon, Will is given a horse, a key, and a map, and sent alone into the Indian Nation to run a trading post as a bound boy. It is during this time that he grows into a man, learning, as he does, of the raw power it takes to create a life, to find a home. In a card game with a white Indian named Featherstone, Will wins—for a brief moment—a mysterious girl named Claire, and his passion and desire for her spans this novel. As Will's destiny intertwines with the fate of the Cherokee Indians—including a Cherokee Chief named Bear—he learns how to fight and survive in the face of both nature and men, and eventually, under the Corn Tassel Moon, Will begins the fight against Washington City to preserve the Cherokee's homeland and culture. And he will come to know the truth behind his belief that “only desire trumps time.” Brilliantly imagined, written with great power and beauty by a master of American fiction, *Thirteen Moons* is a stunning novel

about a man ' s passion for a woman, and how loss, longing and love can shape a man ' s destiny over the many moons of a life.

Imagine a piece of technology so valuable that it turns the world's two most powerful lobbies - the oil industry and the arms trade - against one another. Yavlinsky, a brilliant Russian scientist has created a piece of wonder-technology; a drilling process that uses the forces of supercavitation. Named 'Version Thirteen', it enables oil explorers to take 40 per cent more oil out of the ground - it's worth trillions. But there's a problem.

Supercavitation is also the basis for highly sophisticated weaponry - submarines and torpedoes that can travel at hundreds of kilometres per hour beneath the sea. Russian arms dealers have been selling this technology to Iran since the 1980s. If the revolutionary oil-drilling technology works, the weaponry is rendered useless. When Yavlinksy is found dead, the designs for the revolutionary drilling process are stolen or destroyed. Except one set of design plans does still exist. The one lodged in Samuel Spendlove's head. Spendlove, an Oxford academic now working as a spy, is the novel's hero. Blessed (or cursed) with a photographic memory, he suddenly finds himself the most wanted man in the world... The story of his pursuit takes us from the Middle East to Moscow to the Kamchatka peninsula, a land of no roads and many active volcanoes, one of the most remote and spectacular places on the planet. Fans of Robert Harris and Martin Cruz Smith will love Martin Baker. Combining painstaking research with the forensic storytelling skill of a Hollywood screenwriter, Version

Thirteen Satires of Juvenal

"In length the series is unique; in quality—and there is not a weak link in the chain—it cannot but be ranked with the best of twentieth century historical novels."—T. J. Binyon, *Independent* Captain Jack Aubrey sets sail for the South China Sea with a new lease on life. Following his dismissal from the Royal Navy (a false accusation), he has earned reinstatement through his daring exploits as a privateer, brilliantly chronicled in *The Letter of Marque*. Now he is to shepherd Stephen Maturin—his friend, ship's surgeon, and sometimes intelligence agent—on a diplomatic mission to prevent links between Bonaparte and the Malay princes which would put English merchant shipping at risk. The journey of the *Diane* encompasses a great and satisfying diversity of adventures. Maturin climbs the Thousand Steps

of the sacred crater of the orangutans; a killer typhoon catches Aubrey and his crew trying to work the Diane off a reef; and in the barbaric court of Pulo Prabang a classic duel of intelligence agents unfolds: the French envoys, well entrenched in the Sultan's good graces, against the savage cunning of Stephen Maturin.

We were all equal, but sometimes the band could be led by whoever shouted the loudest. Step inside one of Australia's most beloved and hard-working bands. For eighteen years, Mark Seymour fronted Hunters and Collectors - although he was never remotely in control of it. Together they released songs that remain Australian anthems like Talking to a Stranger, Say Goodbye, Throw Your Arms Around Me and Holy Grail. The band was also a great social experiment - an artistic collective that shared everything equally, from the drinks rider to songwriting copyright. It couldn't last. In the end, the relentless touring machine known as 'Hunnas' didn't break up so much as switch itself off. With a songwriter's eye for the perfect detail, Seymour tells the truth about the endless fried breakfasts, bewildering industry negotiations and the view from a thirteen-tonne truck on a never ending highway. More than a simple rock memoir, THIRTEEN TONNE

THEORY is a dryly comic, revealing and passionate reflection on the struggle to be heard in a democracy of blokes. 'Anyone who writes of their years in rock music must know that this is the book they are going to have to trump.' Robert Forster, *The Monthly* 'Very funny . . . there can be no escaping the absurdity of rock'n'roll.' *The Age* For readers of *The Astronaut Wives Club*, *The Mercury 13* reveals the little-known true story of the remarkable women who trained for NASA space flight. In 1961, just as NASA launched its first man into space, a group of women underwent secret testing in the hopes of becoming America's first female astronauts. They passed the same battery of tests at the legendary Lovelace Foundation as did the Mercury 7 astronauts, but they were summarily dismissed by the boys' club at NASA and on Capitol Hill. The USSR sent its first woman into space in 1963; the United States did not follow suit for another twenty years. For the first time, Martha Ackmann tells the story of the dramatic events surrounding these thirteen remarkable women, all crackerjack pilots and patriots who sometimes sacrificed jobs and marriages for a chance to participate in America's space race against the Soviet Union. In addition to talking extensively to these women,

Ackmann interviewed Chuck Yeager, John Glenn, Scott Carpenter, and others at NASA and in the White House with firsthand knowledge of the program, and includes here never-before-seen photographs of the Mercury 13 passing their Lovelace tests. Despite the crushing disappointment of watching their dreams being derailed, the Mercury 13 went on to extraordinary achievement in their lives: Jerrie Cobb, who began flying when she was so small she had to sit on pillows to see out of the cockpit, dedicated her life to flying solo missions to the Amazon rain forest; Wally Funk, who talked her way into the Lovelace trials, went on to become one of the first female FAA investigators; Janey Hart, mother of eight and, at age forty, the oldest astronaut candidate, had the political savvy to steer the women through congressional hearings and later helped found the National Organization for Women. A provocative tribute to these extraordinary women, *The Mercury 13* is an unforgettable story of determination, resilience, and inextinguishable hope.

A unique account of the amazing Thai cave rescue told in a heart-racing, you-are-there style that blends suspense, science, and cultural insight. On June 23, 2018, twelve young players of the Wild Boars soccer team and their coach enter a cave in northern Thailand seeking an afternoon's adventure. But when they turn to leave, rising floodwaters block their path out. The boys are trapped! Before long, news of the missing team spreads, launching a seventeen-day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil, people begin to wonder: how long can a group of ordinary kids survive in complete darkness, with no food or clean water? Luckily, the Wild Boars are a very extraordinary "ordinary" group. Combining firsthand interviews of rescue workers with in-depth science and details of the region's culture and religion, author Christina Soontornvat—who was visiting family in Northern Thailand when the Wild Boars went missing—masterfully shows how both the complex engineering operation above ground and

the mental struggles of the thirteen young people below proved critical in the life-or-death mission. Meticulously researched and generously illustrated with photographs, this page-turner includes an author's note describing her experience meeting the team, detailed source notes, and a bibliography to fully immerse readers in the most ambitious cave rescue in history.

In this scholarly yet practical book, Professor Cheng shows precisely how the postures and moves of t'ai chi work, with examples from anatomy and physics, both internally as energetic principles and externally on opponents. He clarifies the spheres, triangles, and centripetal and centrifugal forces within physical exchanges such as push-hands. Contrasting Western and Chinese techniques of healing, he also explores the relationships of organs to one another in pathology and the necessary dynamics of treatment. **It is remarkable that African Americans, the descendants of slaves, embrace Christianity at all. The imagination that is necessary to parse biblical text and find within it a theology that speaks to their context is a testimony to their will to survive in a hostile land. Black religion embraces the cross and the narrative of Jesus as savior, both theologically and culturally. But this does not suggest that African Americans have not historically, and do not now, struggle with the reconciliation of the cross, black life, suffering. African Americans are well aware of the shared relationship of Christianity with the white oppressors of history. The religion that helped African Americans to survive is the religion that was instrumental in their near genocide.**

**THE LATEST TITLE IN THE JOHN STANLEY LIBRARY DESIGNED BY THE CARTOONIST SETH** In the early to mid-1960s, John Stanley turned his attention to drawing and writing his own series rather than working with the already established licensed characters he is most well-known for, such as Little Lulu. D+Q has embarked on an archival series of Stanley's comics, including Melvin Monster, Around the Block with Dunc and Loo, Kookie, and Thirteen Going on Eighteen. Thirteen Going on Eighteen focuses on the friendship and rivalry of two teenage girls, Val and Judy. Each comic is a darkly hilarious look at the social maneuverings and betrayals of the teen set. Stanley's stripped down approach perfectly captures the fever pitch of the teenage years. He creates a teenage sitcom and turns it into an anguished character study.
