This is a book that gives the beginning and intermediate guitarist many traditional Christmas songs simply, but artistically, arranged by a classical guitarist. Dr.Zisa has taught guitar many years and has been a sought out concert performer. He has arranged many traditional songs and hymns that you would like to play. But in addition, he has provided you with information about the history of the songs. You can amaze your audiences with your knowledge of how each traditional song made its way into our hearts.

**(Piano Solo Songbook).** Softer, gentler piano solo arrangements of 34 more favorites, including: **Bella Notte \* Feed the Birds (Tuppence a Bag) \* God Help the Outcasts \* I Just Can't Wait to Be King \* I Wan'na Be like You (The Monkey Song) \* Into the Unknown \* Out There \* The Place Where Lost Things Go \* The Rainbow Connection \* Stay Awake \* and more.**

**(Piano Vocal).** This sheet music features an arrangement for piano and voice with guitar chord frames, with the melody presented in the right hand of the piano part as well as in the vocal line.

Communities and Families, the third volume in Studying Family and Community History, opens with a series of case studies of various occupations and goes on to examine social mobility and aspects of community life such as local politics, religion and leisure activities. Suggestions for individual research are provided throughout the book.

Is it just a coincidence that a record number of people are seeing in numbers, or could it be the fabric of the universe revealing itself to us? According to the religion of Kabbalah and even the ancient Greek philosopher and mathematician Pythagoras, the truths of the universe are contained within numbers. The phenomena of numbers—seeing repeating numbers and number sequences—are sweeping the globe. People from the average Joe to celebrities are seeing repeating numbers on clocks, in addresses, in phone numbers, in account numbers, and on license plates, just to name a few. Repeating numbers and number sequences are showing up in both the quirky and the commonplace on a daily basis. Skeptics argue that seeing repeating numbers is simply a matter of pattern recognition and it ' s all in our head. There have been scientific theories throughout history that attempt to explain the basis of the universal structure—from String Theory to the Holographic universe. All things in existence can be counted, sorted, or measured using numbers and, intriguingly, a common thread in many theories is mathematics. More people are reporting the same phenomena in all cultures, races, and religions, turning skeptics into believers. Soul Numbers has the potential to create a tidal wave amid this numbers phenomenon, making it the new, most complete numbers-meaning bible. Numerology books offer some insight into the base number meanings of 0 to 9 but fail to go further to precisely pinpoint and explain why someone is seeing 1:47 on a clock daily and what it means to them. Covering the number meanings from 0 to 999, Soul Numbers helps readers decipher any number sequence. Whether they ' re seeing single 2s everywhere or exactly four—2222—it will allow them to break the numbers down like an ancient code. Unlike other titles with mainly angelic-focused number meanings, this book holds a broad spectrum view of number patterns, weaving science and spirituality to spark the curiosity of both the skeptic and the die-hard spiritualist.

The Lawrence and Lynne Brown Democracy Medal, presented by the McCourtney Institute for Democracy at Penn State, recognizes outstanding individuals, groups, and organizations that produce innovations to further democracy in the United States or around the world. 2019 Brown Democracy Medal winners David M. Farrell and Jane Suiter are co-leads on the Irish Citizens' Assembly Project, which has transformed Irish politics over the past decade. The project started in 2011 and led to a series of significant policy decisions, including successful referenda on abortion and marriage equality.

Her children are all she has left. She'll tear up heaven and earth to protect them.... Reeling from the loss of her family, Moira McCauley clings to the only love she has left - her twin sons. Her only dream is to give her boys what she didn't have. Love. Stability. Acceptance. She's succeeding until a mysterious stranger destroys her precarious world with one bite, plunging Moira into a realm of ancient gods, witchcraft, and Celtic blood-drinkers. Faced with a dark secret about her own role in an age-old vampire war, Moira must make a terrifying choice: sacrifice her own children, or usher in the apocalypse. Moira struggles to come to terms with her new life and her past as she fights ancient vampires to protect her children. Can she save them? Or will she destroy everything and everyone in the process? Moira's Song is the first spell-binding book in the Moira McCauley vampire series. If you like fast-paced, gripping stories, badass, female heroines, vampire stories with a twist, and dark supernatural forces, you'll love this book. *This comprehensive book explores the Malaysian form of shadow puppet theatre, highlighting its unique nature within the context of Southeast Asian and Asian shadow puppet theatre traditions. Intended for a Western audience not familiar with Asian performance and practices, the text serves as a bridge to this highly imaginative form. An in-depth examination of the Malaysian puppet tradition is provided, as well as performance scripts, designs for puppet characters, instructions for creating a shadow screen, and easy directions for performance. Another section then considers the practical, pedagogical, and ethical issues that arise in the teaching of this art.*

*From the bestselling author of Crazy Rich Asians (the basis for the acclaimed major motion picture) comes a deliciously fun story of family, fortune, and fame in Mainland China. Book Two of the Crazy Rich Asians Trilogy It's the eve of Rachel Chu's wedding, and she should be over the moon. She has a flawless Asscher-cut diamond, a wedding dress she loves, and a fiancé willing to thwart his meddling relatives and give up one of the biggest fortunes in Asia in order to marry her. Still, Rachel mourns the fact that her birthfather, a man she never knew, won't be there to walk her down the aisle. Then a chance accident reveals his identity. Suddenly, Rachel is drawn into a dizzying world of Shanghai splendor, a world where people attend church in a penthouse, where exotic cars race down the boulevard, and where people aren't just crazy rich ... they're China rich. Look for Kevin Kwan's latest novel, Sex & Vanity!*

*Audio production is an incredibly rewarding craft. To take the raw, basic tracks of a fledgling idea and shape them into one glorious stereophonic sound wave is an amazing feat. The transformation from analogue to digital dominance has brought many advances in sound quality and new techniques, but producing digital music with only a standard computer and DAW can be problematic, time-consuming and sometimes disappointing without the right approach and skills. In Template Mixing and Mastering, renowned mix engineer Billy Decker tackles the challenges of in-the-box production through his innovative template approach. He shares his passion and knowledge from over twenty years of industry experience, including an introduction to templates and a step-by-step guide to their set-up and a discussion of drum replacement technology. Channel and setting information for each of the drum, instrument and vocal sections of his template is discussed along with the master channel and his methodology of mixing and mastering. Finally, he gives professional advice and best practice.*

**What exactly are nootropics? Nootropics are generally called "smart drugs" because they improve brainpower. but, more than 80 unique substances can fall under this broad category and they are wildly distinctive and generally useless. They include Adderall for ADHD, psychedelics, and even coffee. Do nootropics actually work? Choosing one as a complement is a muddy picture, however some nootropics DO work. most "smart pills" are stimulants -- short-acting chemicals that give you a boost in focus and attention for some hours. The nootropics that we have good evidence for, such as Adderall and Modafinil (sometimes used to help humans recover from a coma), are prescribed drugs. The "smart drugs" that aren't prescription-based or illegal have little or no proof suggesting they work. The substance must... Help the brain function under disruptive conditions, such as hypoxia (low oxygen) and electroconvulsive shock. Protect the brain from chemical and physical assaults, such as anti-cholinergic drugs and barbiturates. Increase the efficacy of neuronal firing control mechanisms in cortical and sub-cortical regions of the brain. Possess few or no side effects and be virtually non-toxic. Enhance memory and ability to learn. Research indicates getting omega-3s from fish is better than simply taking drugs, but if fish is simply too tough to get, put together, or eat, then the drugs are an awesome 2d alternative. Omega-3s are the real "smart drugs" in that you could not sense the results the day you consume them, however you may be in much better cognitive shape a few years from now than in case you had never added them in your diet. **This book considers how women's experiences have been treated in films dealing with Nazi persecution. Focusing on fiction films made in Europe between 1945 and the present, this study explores dominant discourses on and cinematic representation of women as perpetrators, victims and resisters. Ingrid Lewis contends that European Holocaust Cinema underwent a rich and complex trajectory of change with regard to the representation of women. This change both reflects and responds to key socio-cultural developments in the intervening decades as well as to new directions in cinema, historical research and politics of remembrance. The book will appeal to international scholars, students and educators within the fields of Holocaust Studies, Film Studies, European Cinema and Women's Studies. Drawing on research from multiple disciplines and international case studies, this book provides a comprehensive and up-to-date understanding of online disinformation and its potential countermeasures. Disinformation and Manipulation in Digital Media presents a model of the disinformation process which incorporates four cross-cutting dimensions or themes: bad actors, platforms, audiences, and countermeasures. The dynamics of each dimension are analysed alongside a diverse range of international case studies drawn from different information domains including politics, health, and society. In elucidating the interrelationship between the four dimensions of online disinformation and their manifestation in different international contexts, the book demonstrates that online disinformation is a complex problem with multiple, overlapping causes and no easy solutions. The book's conclusion contextualises the problem of disinformation within broader social and political trends and discusses the relevance of radical innovations in democratic participation to counteract the post-truth environment. This up-to-date and thorough analysis of the disinformation landscape will be of interest to students and scholars in the fields of journalism, communications, politics, and policy as well as policymakers, technologists, and media practitioners. This collection of essays represents the first of its kind in exploring the conjunction of translation and social media communication, with a focus on how these practices intersect and transform each other against the backdrop of the cascading COVID-19 crisis. The contributions in the book offer empirical case studies as well as personal reflections on the topic, illuminating a broad range of themes such as knowledge translation, crisis communications, language policies, cyberpolitics and digital platformization. Together they demonstrate the vital role of translation in the trust-based construction of global public health discourses, while accounting for the new medialities that are reshaping the conception, experience and critique of translation in response to the cultural, political and ecological challenges in the post-pandemic world. Written by leading scholars in translation studies, media studies and literary studies, this volume sets to open up new conversations among these fields in relation to the global pandemic and its aftermath. The Open Access version of this book, available at [www.taylorfrancis.com](http://www.taylorfrancis.com), has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

The present volume studies the application of concepts from non-equilibrium thermodynamics to a variety of research topics. Emphasis is on the Maximum Entropy Production (MEP) principle and applications to Geosphere-Biosphere couplings. Written by leading researchers from a wide range of backgrounds, the book presents a first coherent account of an emerging field at the interface of thermodynamics, geophysics and life sciences.

You know Michael W. Smith as one of contemporary Christian music's most popular artists. *Friends Are Friends Forever* looks beyond the musician to present a man who relies on scripture to provide daily guidance. He says, 'I'd like to tell you a few stories from my life, some wrong roads I've traveled, some right decisions I've made, and how God has often taken my mistakes and turned them into something good.

**This book presents the first in-depth exploration into the gendered attitudes and worldviews of advertising students. Offering a significant contribution to other cultural sociological works concerning the cultural and creative industries, *Learning to Sell Sex(ism)* adds further weight to the argument that it is imperative that we look closely at the people who create media texts in order to better account for and challenge sexist media content. In this study, such media creators are the advertising industry's next generation of practitioners and creatives.**

**Involving a mix of in-depth questionnaires, qualitative surveys, interviews with students, observational data, as well as an examination of the components comprising advertising modules, O'Driscoll documents the dominant gendered discourses articulated by advertising students and offers an opportunity for the advertising educational sector to reflect on how it might play its part in reducing stereotypical and sexist content emanating from the industry. *Learning to Sell Sex(ism)* will be of interest to students and scholars across a range of disciplines, including media studies, gender studies, sociology, cultural studies and marketing.**

Listen to David Hesmondhalgh discuss the arguments at the core of 'Why Music Matters' with Laurie Taylor on BBC Radio 4's Thinking Allowed here. In what ways might music enrich the lives of people and of societies? What prevents it from doing so? Why Music Matters explores the role of music in our lives, and investigates the social and political significance of music in modern societies. First book of its kind to explore music through a variety of theories and approaches and unite these theories using one authoritative voice Combines a broad yet theoretically sophisticated approach to music and society with real clarity and accessibility A historically and sociologically informed understanding of music in relation to questions of social power and inequality By drawing on both popular and academic talk about a range of musical forms and practices, readers will engage with a wide musical terrain and a wealth of case studies

Girls mean business in a brand-new series about friendship and entrepreneurship that Katherine Applegate, Newbery Medal-winning author of *The One and Only Ivan*, calls “ A great read! ” All the great leaders had to start somewhere. And Teresa ( “ Resa ” for short) is starting with the lemonade stand competition her teacher assigned to the class—but making it a success is going to be a lot harder than Resa thinks. The prize: line-skipping tickets to Adventure Central. The competition: Val, Resa's middle school nemesis. And the biggest obstacle to success: Resa's own teammates. Harriet is the class clown, Amelia is the new girl who thinks she knows best, and Didi is Resa's steadfast friend—who doesn't know the first thing about making or selling lemonade. The four of them quickly realize that the recipe for success is tough to perfect—but listening to each other is the first step. And making new friends might be the most important one... The back of each book in this middle-grade series features tips from the Startup Squad and an inspirational profile of a girl entrepreneur! An Imprint Book "An inspiring story about entrepreneurial girls. I loved this story of girls finding their way in the world of entrepreneurship." —Ann M. Martin, author of the *Baby-Sitters Club* series and Newbery Honor winner *A Corner of the Universe* “ The Startup Squad encourages girls to dream big, work hard, and rely on each other to make good things happen. It teaches them how to succeed—and reminds all of us that girls mean business! ” —Sheryl Sandberg, COO of Facebook and founder of LeanIn.Org and OptionB.Org “ A great read that is fast-paced, fun, and empowering. The Startup Squad comes complete with a treasure trove of tips for starting a business. ” —Katherine Applegate, Newbery Medal-winning author of *The One and Only Ivan* This title has common core connections.

***Music and Youth Culture offers a groundbreaking account of how music interacts with young people's everyday lives. Drawing on interviews with and observations of youth groups together with archival research, it explores young people's enactment of music tastes and performances, and how these are articulated through narratives and literacies. An extensive review of the field reveals an unhealthy emphasis on committed, fanatical, spectacular youth music cultures such as rock or punk. On the contrary, this book argues that ideas about youth subcultures and club cultures no longer apply to today's young generation. Rather, archival findings show that the music and dance cultures of youth in 1930s and 1940s Britain share more in common with youth today than the countercultures and subcultures of the 1960s and 1970s. By focusing on the relationship between music and social interactions, the book addresses questions that are scarcely considered by studies stuck in the youth cultural worlds of subcultures, club cultures and post-subcultures: What are the main influences on young people's music tastes? How do young people use music to express identities and emotions? To what extent can today's youth and their music seem radical and progressive? And how is the 'special relationship' between music and youth culture played out in everyday leisure, education and work places?***
