Pilgrimage of Awakening is the first biography of the Rogers. Arriving in India after World War II afire with religious zeal, the Reverend Murray Rogers and his wife, Mary, are rocked by the collision of Eastern and Western values. The handsome young couple from England's upper crust, raised with nannies and educated at finishing schools and Cambridge, uproot their children to live a life in solidarity with India's poorest. They seize the challenge of life in Gandhi's Sevagram, then found their own small Christian ashram. Interacting with spiritual leaders on the religious world stage, Murray, the magnetic young Anglican priest, becomes a pioneer in interfaith dialogue. The couple embraces strands of Hinduism and Buddhism in their life pilgrimage across boundaries of culture and faith in India, Jerusalem, Hong Kong, and Canada. As they "rock the boat" institutionally, their spiritual pilgrimage and awakening sparks both controversy and awakening in countless others. Pilgrimage of Awakening is the intimate unfolding of their joyful and painful spiritual transformation within their small community as they raise their three children. Tensions of their dual callings to marriage and family and to dedicated religious life interweave to create a movingly human and sacred story.

This book brings into focus the innovative methods of learning in many Indian schools. It sheds light on schools that make the learning process fun for the teacher as well as the taught, in contrast to the whirl of examination-oriented learning in mainstream schools. The researched data on alternative schools in the country offer the reader an array of institutions all over the country, where efforts are being made to move away from traditional and mainstream learning. It includes exclusive articles by leading practitioners in the field, who offer an insight into the ground reality when a certain philosophy is applied to a school, and also experiential accounts of how such alternative practices mould the learner, teacher and impact the parent as well. The book also consists of a directory of alternative schools in India, including many schools that are tucked away in remote corners of the country. Interestingly, the common thread binding these "alternative schools" is concern for the welfare of the child by teachers who see their work as much more than a job. The last "Indian War" was fought against Native American children in the dormitories and classrooms of government boarding schools. Only by removing Indian children from their homes for extended periods of time, policymakers reasoned, could white "civilization" take root while childhood memories of "savagism" gradually faded to the point of extinction. In the words of one official: "Kill the Indian and save the man." Education for Extinction offers the first comprehensive account of this dispiriting effort. Much more than a study of federal Indian policy, this book vividly details the day-to-day experiences of Indian youth living in a "total institution" designed to reconstruct them both psychologically and culturally. The assault on identity came in many forms: the shearing off of braids, the assignment of new names, uniformed drill routines, humiliating punishments, relentless attacks on native religious beliefs, patriotic indoctrinations, suppression of tribal languages, Victorian gender rituals, football contests, and industrial training. Especially poignant is Adams's description of the ways in which students resisted or accommodated themselves to forced assimilation. Many converted to varying degrees, but others plotted escapes, committed arson, and devised ingenious strategies of passive resistance. Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama, that the response of accommodation was not synonymous with cultural surrender. This is especially apparent in his analysis of students who returned to the reservation. He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men. The discussion comes full circle when Adams reviews the government's gradual retreat from the assimilationist vision. Partly because of persistent student resistance, but also partly because of a complex and sometimes contradictory set of progressive, humanitarian, and racist motivations, policymakers did eventually come to view boarding schools less enthusiastically. Based upon extensive use of government archives, Indian and teacher autobiographies, and school newspapers, Adams's moving account is essential reading for scholars and general readers alike interested in Western history, Native American studies, American race relations, education history, and multiculturalism.

"An irresistible novel that hurls forward at breathtaking speed toward an unpredictable climax." —Thrity Umrigar, bestselling author of The Space Between Us "Beautifully written, atmospheric...contains entire worlds. I couldn't put it down." —Gary Shteyngart, bestselling author of Super Sad True Love Story and Absurdistan Miss Timmins' School for Girls is the truly dazzling debut of a major novelist, Nayana Currimbhoy. Set in India during the monsoon of 1974, it tells the story of a conventional young girl who leaves her cloistered small town home to teach at a remote boarding school run by British Missionaries. Part coming-of-age novel, part suspenseful murder mystery, Miss Timmins' School for Girls is a brilliant evocation of a colorful time and place—India during the love, drug, and rock'n'roll era—complete with the sights, sounds, and music of the period seamlessly woven into the page-turning tale.

Captain Amarinder Singh: The People's Maharaja

An authentic, definitive and no-holds-barred narrative – packed with fascinating incidents and anecdotes – that brings alive the life and times of one of the most prominent, multifaceted and striking individuals (a former royal) in the sphere of Punjab politics Beginning with a historical background of how the Patiala kingdom came to be established, and ruled, over the centuries, the author moves on to describe the early years of Amarinder Singh (a scion of that kingdom). He then portrays the Indo-Pak war zone of 1965 (where the protagonist earned his spurs) and finally focuses on the combative arenas of Punjab politics, where numerous electoral and other battles have been (and continue to be) fought. This informative work unravels the subterfuges of politicians and others (including religious leaders) in trying to ensure their dominance. The pages reveal behind-the-scenes intrigues, plots and counter-plots even as Punjab was in the vice-like grip of terrorism in the late twentieth century. Operation Bluestar (June 1984) and its consequences have been objectively recorded. Besides tracing the career graph of Amarinder Singh, who reached his pinnacle when he became the chief minister of Punjab in February 2002, the author provides useful insights into crucial events that have made an immense impact on that state and the neighbouring areas over the past few decades. The text also throws light on Amarinder Singh's five-year tenure as chief minister (marked by both positive and negative aspects) and on the following period, when Parkash Singh Badal regained that post. The contents are rounded off with an update on the Punjab scenario up to February 2017, which saw Amarinder Singh come back with a thumping victory. Here's a saga that records history in the making in Punjab.

Seven years have passed since Mordecai's battle with the Shining God, Celior, and since that time his control of his abilities has vastly improved. He has at last envisioned a use for the 'God-Stone', but the gods want vengeance and now seek to destroy everything he has built. The secrets of the past threaten the future of his kingdom, his family, and perhaps humanity itself, unless Mordecai can discover the meaning of 'Illel Niel's Doom'. How far will a desperate wizard go to protect his children... or will his efforts merely damn them all? How technologies can get it wrong in sports, and what the consequences are -- referees undermined, fans heartbroken, and the illusion of perfect accuracy maintained.

In BURMA BANYAN, A Daughter's Odyssey, the reader is invited on an intimate set of travels as the author overcomes qualms about returning to Burma after a life span. Memories of Dawnie, her child self, besiege her. These memories are not set in the peaceful, civilized atmosphere of Dehra Dun, nestled in the hills north of Delhi, the setting of her notable first memoir–Jackals' Wedding, A Memoir of a Childhood in British India–but in remote areas of northern Burma and in Mandalay, the capital of "Upper Burmah," in an unstable atmosphere and generally unsafe surroundings. The Burma sojourn of the author's immediate family following Japanese occupation during World War II begins with a replay of their last days in India, continuing the compelling true story within a family story. Counterpoint with modern-day travels, the author once again revisits a long-locked past to probe the truth of romanticized early life. She reveals how she and her sister coped with expectations and warnings and absorbed the fears and insecurity of their parents in the aftermath of war to compound their own secret worries, how they became adept at assessing their grownups' mood swings, and chameleonic in adapting themselves accordingly. Entertaining stories of the generations before, ancestors who settled in India and Burma from faraway lands, flow naturally as the daughters' parents, Pansy and William, return to live for a time in the country of their birth. Their resulting storm-and-sun relationship, the nucleus of the symbolic "jackals' wedding," continues as such in BURMA BANYAN. Kawahara's odyssey, which completes in an unexpected way, also takes readers from Hawai'i to the British Isles, and forays to Australia and New Zealand in search of "lost" family members. The search for a missing father–and a home–is the taproot of these journeys.

Vyvyen Brendon's evocative, at times heart-tugging book, runs from the 18th century and the East India Company, through the Afghan wars, the Indian mutiny and the more settled era of the Queen Empress, and culminates in the conflict leading to Britain's hurried exit in 1947. Its subject is the young progeny of traders, soldiers, civil servants, missionaries, planters, engineers and what should be done with them. Until the coming of air travel these children often only saw their parents every few years. Then there were the children born of Anglo-Indian marriages and affairs. Sent back to Britain they were often reviled as 'darkies', 'a touch of the tar-brush'. And then there were the children educated in India. Brendon reveals appalling stories of abuse at the hands of servants. What frequently unites Brendon's wildly different subjects is their loneliness--drawing on letters, diaries, memoirs and interviews, she portrays children who had to discipline themselves to adapt (often ingeniously) to unfamiliar cultures, far away from family and forced to spend termtree in boarding schools and holidays with unfamiliar families.

Beginning in America, and spilling back over memories and generations to India, Unaccustomed Earth explores the heart of family life and the immigrant experience. Eight luminous stories - longer and richer than any Jhumpa Lahiri has yet written - take us from America to Europe, India and Thailand as they follow new lives forged in the wake of loss.

A debut collection of short fiction blends elements of Indian traditions with the complexities of American culture in such tales as "A Temporary Matter," in which a young Indian-American couple confronts their grief over the loss of a child, while their Boston neighborhood copes with a nightly blackout. How English Public Schools Ruin Britain

'The latest in the series of powerful books on the divisions in modern Britain, and will take its place on many bookshelves beside Reni Eddo-Lodge's Why I'm No Longer Talking to White People About Race and Owen Jones's Chavs.' -Andrew Marr, Sunday Times 'In his fascinating, enraging polemic, Verkaik touches on one of the strangest aspects of the elite schools and their product's domination of public life for two and a half centuries: the acquiescence of everyone else.' -Observer In Britain today, the government, judiciary and military are all led by an elite who attended private school. Under their watch, our society has become increasingly divided and the gap between rich and poor is now greater than ever before. Is this the country we want to live in? If we care about inequality, we have to talk about public schools. Robert Verkaik issues a searing indictment of the system originally intended to educate the most underprivileged Britons, and outlines how, through meaningful reform, we can finally make society fairer for all. Welcome to Shore Mount ? one of India's most prestigious co-ed residential schools. Here, short skirts reign and sports stars are revered, and skinny dips and sneaking girls into boys' rooms are as much a part of the curriculum as the cool Mr Gomez's literature lessons... Into this world arrives Nirvan Shrivastava, with tremendous expectations weighing on his shoulders. After all, he's following in the footsteps of three generations of brilliant Shrivastavas immortalized on every possible honors board in the school. As he hesitatingly negotiates the crazy roller-coaster ride that is life at Shore Mount, he finds true buddies in Gautam, an unlikely musical genius obsessed with all things edible, and Faraz, the slick ladies' man. Together the boys discover that in Shore Mount survival means much more than braving the chill of heater-less dorms, or scrubbing toilets clean with toothbrushes. And as they learn to stand up to vicious bullies on and off the playing fields and survive the agony of heartaches and broken bones, they find themselves hurtling towards adulthood far sooner than they could have ever imagined...

A renowned activist recalls his childhood years in an Indian boarding school Best known as a leader of the Indian takeover of Alcatraz Island in 1969, Adam Fortunate Eagle now offers an unforgettable memoir of his years as a young student at Pipestone Indian Boarding School in Minnesota. In this rare firsthand account, Fortunate Eagle lives up to his reputation as a "contrary warrior" by disproving the popular view of Indian boarding schools as bleak and prisonlike. Fortunate Eagle attended Pipestone between 1935 and 1945, just as Commissioner of Indian Affairs John Collier's pluralist vision was reshaping the federal boarding school system to promote greater respect for Native cultures and traditions. But this book is hardly a dry history of the late boarding school era. Telling this story in the voice of his younger self, the author takes us on a delightful journey into his childhood and the inner world of the boarding school. Along the way, he shares anecdotes of dormitory culture, student pranks, and warrior games. Although Fortunate Eagle recognizes Pipestone's shortcomings, he describes his time there as nothing less than "a little bit of heaven." Were all Indian boarding schools the dispiriting places that history has suggested? This book allows readers to decide for themselves.

The Life Changing Episodes

In this comprehensive history of American Indian education in the United States from colonial times to the present, historians and educators Jon Reyhner and Jeanne Eder explore the broad spectrum of Native experiences in missionary, government, and tribal boarding and day schools. This up-to-date survey is the first one-volume source for those interested in educational reform policies and missionary and government efforts to Christianize and "civilize" American Indian children. Drawing on firsthand accounts from teachers and students, American Indian Education considers and analyzes shifting educational policies and philosophies, paying special attention to the passage of the Native American Languages Act and current efforts to revitalize Native American cultures.

Growing up in middle-class India, Rajika Bhandari has seen generations of her family look westward, where an American education means status and success. But she resists the lure of America because those who left never return—they all become flies trapped in honey in a land of opportunity. As a young woman, however, she finds herself heading to a US university to study, following her heart and a relationship. When that relationship ends and she fails in her attempt to move back to India as a foreign-educated woman, she returns to the US and finds herself in a job where the personal is political and professional: she is immersed in the lives of international students who come to America from over 200 countries, the universities that attract them, and the tangled web of immigration that a student must navigate. An unflinching and insightful narrative that explores the global appeal of a Made in America education that is a bridge to America's successful past and to its future, America Calling is both a deeply personal story of Bhandari's search for her place and voice, and an incisive analysis of America's relationship with the rest of the world through the most powerful tool of diplomacy: education. At a time of growing nationalism, a turning inward, and fear of the "other," America Calling is ultimately a call to action to keep America's borders—and minds—open.

As rich and varied as India itself, these accounts bring to the reader the Indian perspective on the British Raj. Included are the memories and experiences of more than fifty Indian men and women who worked under the British, made friends with them, and then fought to throw them out. They describe the role of apprentice under the sahibs, the complex racial barriers that divided the rulers from the ruled, the Western education which eventually encouraged rebellion, and the ways in which liberal British political arguments were turned against the Raj by nationalist campaigns to force the British to quit India.

What might we learn from Native American experiences with schools to help us forge a new vision of the democratic ideal—one that respects, protects, and promotes diversity and human rights? In this fascinating portrait of American Indian education over the past century, the authors critically evaluate U.S. education policies and practices, from early 20th-century federal incarnations of colonial education through the contemporary standards movement. In the process, they refute the notion of "dangerous cultural difference" and point to the promise of diversity as a source of national strength. Featuring the voices and experiences of Native individuals that official history has silenced and pushed aside, this book: Proposes the theoretical framework of the "safety zone" to explain shifts in federal educational policies and practices over the past century.Offers lessons learned from Indigenous America's fight to protect and assert educational self-determination.Rebuts stereotypes of American Indians as one-dimensional learners.Argues that the maintenance of Indigenous languages is a fundamental human right.Examines the standards movement as the most recent attempt to control the "dangerous difference" allegedly posed by students of color, poor and working-class students, and English language learners in U.S. schools. "To Remain an Indian chronicles the resistance, resilience, and imagination of generations of Native American educators. It is a profoundly moving book that highlights the opportunities, and ethical responsibility, that educators have to expand student identities and challenge coercive relations of power in the wider society." —Jim Cummins, University of Toronto "A must read for both seasoned and young scholars, practitioners, and others interested in culturally based education, including the importance of Indigenous languages." —John Tippeconnic III, Director, American Indian Leadership Program, Pennsylvania State University "The development of young children's logico-mathematical knowledge is at the heart of this text. Similar to the first edition, this revision provides a rich theoretical foundation as well as child-centered activities and principles of teaching that support problem solving, communicating, reasoning, making connections, and representing mathematical ideas. In this great resource for preservice and in-service elementary teachers, Professor Kamii continues to help us understand the implications of Piagetian theory." —Frances R. Published in the year of the school's 125th anniversary, Hail Mount Hermon! A Tribute is a tribute not only to the school's founders, principals and teachers but also to all Hermonites (alumni) of all eras and ages who have great love and affection for their alma mater and hopes that Mount Hermon School looks back to its great legacy and lives on to reach greater heights. The book chronicles the school's tragic beginning soon after its opening in 1895, founding of Queen's Hill School in the beginning of the 20th century, the establishment of Mount Hermon School at the present campus in Darjeeling in 1929-30, and how the school has grown and progressed thereafter right up to the present era. Throughout its 125 years of existence (1895-2020), Mount Hermon School, founded by Christian missionaries of America in the latter part of the 19th century, had its share of ups and downs. However, the school was able to pull through hard times mainly because of the faith, dedication and determination of its leadership. Major events and renowned personalities of the school are well-documented in this book for posterity to note the spirit in which the school was initially founded and why it survived for so long despite trying circumstances to become one of the leading educational institutions in India. The efforts of the Hermonites and their concern for their alma mater to regain its past glory is recorded in the latter part of this book. Their love and concern for their alma mater is a profound reflection of the spirit that not only gave birth to this great institution but kept it going in the past 125 years through troubled times.

Drawing on work with Indian and Japanese patients, a prominent American psychoanalyst explores inner worlds that are markedly different from the Western psyche. A series of fascinating case studies illustrates Alan Roland's argument: the "familial self," rooted in the subtle emotional hierarchical relationships of the family and group, predominates in Indian and Japanese psyches and contrasts strongly with the Western "individualized self." In perceptive and sympathetic terms Roland describes the emotional problems that occur when Indians and Japanese encounter Western culture and the resulting successful integration of new patterns that he calls the "expanding self." Of particular interest are descriptions of the special problems of women in changing society and of the paradoxical relationship of the "spiritual self" of Indians and Japanese to the "familial self." Also described is Roland's own response to the broadening of his emotional and intellectual horizons as he talked to patients and supervised therapists in India and Japan. "As we were coming in for a landing to Bombay," he writes, "the plane banked so sharply that when I supposedly looked down all I could see were the stars, while if I looked up, there were the lights of the city." This is the "world turned upside down" that he describes so eloquently in this book. What he has learned will fascinate those who wish to deepen their understanding of a different way of being.

Asian Indians figure prominently among the educated, middle class subset of contemporary immigrants. They move quickly into residences, jobs, and lifestyles that provide little opportunity with fellow migrants, yet they continue to see themselves as a distinctive community within contemporary American society. In Life Lines Bacon chronicles the creation of a community--Indian-born parents and their children living in the Chicago metropolitan area--bound by neither geographic proximity, nor institutional ties, and explores the processes through which ethnic identity is transmitted to the next generation. Bacon's study centers upon the engrossing portraits of five immigrant families, each one a complex tapestry woven from the distinctive voices of its family members. Both extensive field work among community organizations and analyses of ethnic media help Bacon expose the complicated interplay between the private social interactions of family life and the stylized rhetoric of "Indianness" that permeates public life. This inventive analysis suggests that the process of assimilation which these families undergo parallels the assimilation process experienced by anyone who conceives of him or herself as a member of a distinctive community in search of a place in American society.

General Richard Henry Pratt, best known as the founder and longtime superintendent of the influential Carlisle Indian School in Pennsylvania, profoundly shaped Indian education and federal Indian policy at the turn of the twentieth century. His experiences led him to dedicate himself to Indian education, and from 1879 to 1904 he directed the Carlisle school, believing that the only way to save Indians from extinction was to remove Indian youth to nonreservation settings and there inculcate in them what he considered civilized ways.

'Indian Roots, Ivy Admits: 85 Essays that Got Indian Students into the Ivy League and Stanford' is an inspired collaborative by Viral Doshi, top education consultant in India, and Mridula Maluste, leading writing and editorial consultant for university applications and more. Writing the Common Application essay is one of the most anxiety-inducing tasks that many aspiring university students encounter. The essay is meant to uniquely identify each student, and give him and her the winning edge. But how do fresh young high-schoolers captivate admissions officers through their narratives, portray themselves as agents of change, and chronicle personal achievements and individual talents without seeming to brag? Boarding School Syndrome is an analysis of the trauma of the 'privileged' child sent to boarding school at a young age. Innovative and challenging, Joy Schaverien offers a psychological analysis of the long-established British and colonial preparatory and public boarding school tradition. Richly illustrated with pictures and the narratives of adult ex-boarders in psychotherapy, the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of home and family. Developed from clinical research and informed by attachment and child development theories 'Boarding School Syndrome' is a new term that offers a theoretical framework on which the psychotherapeutic treatment of ex-boarders may build. Divided into four parts, History: In the Name of Privilege; Exile and Healing; Broken Attachments: A Hidden Trauma, and The Boarding School Body, the book includes vivid case studies of ex-boarders in psychotherapy. Their accounts reveal details of the suffering endured: loss, bereavement and captivity are sometimes compounded by physical, sexual and psychological abuse. Here, Joy Schaverien shows how many boarders adopt unconscious coping strategies including dissociative amnesia resulting in a psychological split between the 'home self' and the 'boarding school self'. This pattern may continue into adult life, causing difficulties in intimate relationships, generalized depression and separation anxiety amongst other forms of psychological distress. Boarding School Syndrome demonstrates how boarding school may damage those it is meant to be a reward and discusses the wider implications of this tradition. It will be essential reading for psychoanalysts, Jungian analysts, psychotherapists, art psychotherapists, counsellors and others interested in the psychological, cultural and international legacy of this tradition including ex-boarders and their partners.

The stereotype of the woman missionary has ranged from that of the longsuffering wife, characterized by the epitaph Died, given over to hospitality, to that of the spinster in her unstylish dress and wire-rimmed glasses, alone somewhere for thirty years teaching heathen children. Like all caricatures, those of the exhausted wife and frustrated old maid carry some truth: the underlying message of the stereotypes is that missionary women were perceived as marginal to the central tasks of mission. Rather than being remembered for preaching the gospel, the quintessential male task, missionary women were noted for meeting human needs and helping others, sacrificing themselves without plan or reason, all for the sake of bringing the world to Jesus Christ. Historical evidence, however, gives lie to the truism that women missionaries were and are doers but not thinkers, reactive secondary figures rather than proactive primary ones. The first American women to serve as foreign missionaries in 1812 were among the best-educated women of their time. Although barred from obtaining the college education or ministerial credentials of their husbands, the early missionary wives had read their Jonathan Edwards and Samuel Hopkins. Not only did they go abroad with particular theologies to share, but their identities as women caused them to develop gender-based mission theories. Early nineteenth-century women seldom wrote theologies of mission, but they wrote letters and kept journals that reveal a thought world and set of assumptions about women's roles in the missionary task. The activities of missionary wives were not random: they were part of a mission strategy that gave women a particular role in the advancement of the reign of God. By moving from mission field to mission field in chronological order of missionary presence, Robert charts missiological developments as they took place in dialogue with the urgent context of the day. Each case study marks the beginning of the mission theory. Baptist women in Burma, for example, are only considered in their first decades there and are not traced into the present. Robert believes that at this early stage of research into women's mission theory, integrity and analysis lies more in a succession of contextualized case studies than in gross generalizations.

Commissioned in the famous Rajputana Rifles Regiment in 1964, Brig Narayan Singh Malik (retired) is a veteran of 1965, 1971 and 1999 wars. He was also rewarded for bravery in anti-insurgency operations in Nagaland. National Defence Academy alumni, he attended the Defence Services Staff College and Higher Defence Management Course. Besides holding the coveted appointments in Military Operations Directorates, Divisional and Corps Headquarters, he earned the unique distinction of serving in the Cabinet Secretariat on two separate assignments, including R&AW. He is known for making laudatory contribution on many National issues (including Kargil), both in India as well as abroad. Whereas he faced severe health problems in the formative years, tenures in vital places in subsequent years were also interspersed by unprecedented encumbrances. How he could brush aside the impediments to reach the objectives is a story of perseverance sans seeking rewards. In postretirement period, he continues to indulge in educating people to develop progressive skills. The episodes are a reflection of pains and pleasures derived in life. Although he has taken up permanent residence in Australia, he continues to work towards development of concerned people in India by training them in Leadership, School Management, First Aid, Life Saving, Disaster Management and National Security.
