Teaching writing as part of a building activity provides students with an easy to remember image that helps

them understand and apply good writing construction. This building process helps them see how each writing block sets the foundation for the next block; as a result, their confidence in writing skills grows. The first

foundational block is writing correct sentences, the second, writing effective paragraphs, and finally writing effective essays. Just as actual foundations require raw materials, so does each writing

building block require specific elements. For example, in grammar, to build a correct sentence, you need nouns, verbs, prepositions, conjunctions, and other grammatical elements. As the
