Meet your spirit guides with this book from internationally renowned medium Sylvia Browne, with exercises to increase your psychic abilities and bonus audio meditation download. Through good times and bad, spirit guides look out for those under their care. In Contacting Your Spirit Guide, Sylvia Browne teaches you all about these entities, who are designated by you and God to assist you with life and give you guidance. You will learn about the different types of guides, what they look like, and how they make themselves known. Sylvia leads you through the skills you'll need to know so you can tune in to your own guides, discern their names, and discover the messages they have for you. In the second part of the book (“A Day in the Life of a Spirit Guide”), Sylvia writes intimately about her personal relationships with her spirit guides, Francine and Raheim. Francine then tells her own story through Sylvia about what a “day” is like for her. Sylvia offers great insight into the workings of spirit guides, and in so doing, gives you the tools to understand your “unseen companions along the way.” Includes a free “Spirit Guide Meditation” audio download!

Have you ever wondered what the world looked like when dinosaurs roamed the Earth? Eight-year-old author Elliott Seah did, and took it upon himself to find out more. In his first book, he takes readers on a fact-filled exploration of these amazing creatures from our planet's distant past. With lively illustrations, Elliott provides fascinating answers to important questions about the dinosaurs’ origins, what they ate, how they lived, and how a mass extinction brought their time on Earth to an end. Helpful extras include resources for further reading, and a list of Elliott’s recommended museums with dinosaur collections. Golf is big business around the world. With high profile series such as the PGA, LPGA and European tours to the re-introduction of golf to the Olympics at Rio 2016, golf occupies a prominent place in the global sport community. This is the first book to introduce the fundamentals of golf business and management from a truly international perspective, covering key topics such as media, club management, sponsorship and retail, at elite and non-elite levels. With sections exploring the development of golf on every continent, including North America, South America, Europe, the Middle East, Africa and Asia, this book presents the latest thinking on current issues in golf, ranging from sustainability and innovation to global governance. Each chapter incorporates helpful features for students including learning objectives, discussion questions, guides to further reading, recommended websites and insights from industry voices. This book is essential reading for students of any golf-related degree course or professional accreditation programme, and will also be of interest to those studying or working in sport business, sport management and sport tourism. Underpinned by up-to-date literature, golf researchers will also find the book a useful starting point.

The Essential Classic and Contemporary Writings, Second Edition

The Animals Reader brings together key classic and contemporary writings from philosophy, ethics, sociology, cultural studies, anthropology, environmental studies, history, law and science. Providing a framework for understanding the state of the multidisciplinary field of animal studies, the second edition contains updated content reflecting the developments in research and theory in the field that have emerged in the ten years since publication of the first edition. With new chapters from Peter Singer, Carol Gigliotto, Jacques Derrida and Irus Braverman, and new topics covered including the connection between animal abuse and interpersonal violence and human-animal relations, this book is the go-to resource for students of animal studies. Extracts are from academic texts and more popular texts alike as readers are given a sense of how human-animal relations have been understood and critiqued through time. Helpful pedagogical features specific to this edition include: - an explanatory updated

Editors Introduction - updated introductions to each extract, with details about the author of that piece and the context of their writing - further reading suggestions at the end of each section, updated to reflect new scholarship. With favourite chapters from the first edition preserved, this second edition has all the required new content.

The Animals Reader fully up to date.

Erotic memoir

Enna is a girl who doesn't believe in herself and often utters the phrase "I can't do that!" One night in a dream she sees all the possible future versions of herself, discovering that she can be any of those versions with time, knowledge and dedication. She develops a growth mindset throughout her journey and instead of saying "I can't do that" she learns to say "I can't do that YET!".

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

In *Rules for Reformers*, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. *Rules for Reformers* is a little bit proclamation of grace, a little bit Art of War, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting techniques. As motivating as it is provocative, *Rules for Reformers* is just plain good to read. Thanks to Saul Alinsky's *Rules for Radicals: A Practical Primer for Realistic Radicals*--a book well-beloved by Barack Obama, Hillary Clinton, and many others--for much of the shrewd advice, and for none of the worldview.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother;

Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

This book provides a collection of 15 excellent studies of Voice over IP (VoIP) technologies. While VoIP is undoubtedly a powerful and innovative communication tool for everyone, voice communication over the Internet is inherently less reliable than the public switched telephone network, because the Internet functions as a best-effort network without Quality of Service guarantee and voice data cannot be retransmitted. This book introduces research strategies that address various issues with the aim of enhancing VoIP quality. We hope that you will enjoy reading these diverse studies, and that the book will provide you with a lot of useful information about current VoIP technology research.

The purpose of this guidance document is for the appropriate selection procurement utilization and maintenance of oxygen concentrators. This document also focuses on recommendations for the appropriate use and maintenance of oxygen concentrators in an effort to increase the availability management and quality of oxygen concentrators and ultimately to improve health outcomes in LRS. This document is intended to serve as a resource for the planning and provision of local and national oxygen concentrator systems for use by administrators clinicians and technicians who are interested in improving access to oxygen therapy and reducing global mortality associated with hypoxaemia.
