Advanced First Aid Afloat

This is a unified, tutorial description of the most widely used models of parallel computation and their application to problems in computational geometry. Each chapter offers an in-depth analysis of a problem in computational geometry and presents parallel algorithms to solve them. Comparative tables summarize the various algorithms developed to solve each problem. A wide range of models of parallel computation to develop the algorithms - parallel random access machine (PRAM) - are considered, as well as several networks for interconnecting processors on a parallel computer.

A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries

This book describes both the theory of atomic spectroscopy and all the major atomic spectrometric techniques (AAS, Flame-AES, Plasma AES, AFS, and ICP-MS), including basic concepts, instrumentation and applications. Spectrochemical Analysis by Atomic Absorption and Emission is very wide in scope and will be extremely useful to both undergraduates and lecturers undertaking modern analytical chemistry courses. It contains many figures and tables which illuminate the text, covers various sample preparation methods and gives suggestions for further reading.

The title of the book says it all. 48 pages of line-drawings of Gangsta rappers, done with the black line we all remember from the colouring books of our youth. The juxtaposition of the outlaw image of the rappers with the childlike innocence of a colouring book makes for an instant laugh. In a smaller self-published edition, the book was an immediate hit with the few people who were able to see it. Now expanded from 20 to 48 pages, the book includes all of the top rappers and their underground peers.

Are you a drone or quadcopter owner who craves new perspective? Have you contemplated turning your passion for flying and your love of photography into a lucrative business? If you apply the principles in author Eric Hall's bestselling Quadcopters and Drones: How to Bring

Your Photography or Videography to the Next Level, you'll have your first clients in no time. That's not an empty promise. Eric wrote this book for photography professionals looking to expand their business into this profitable niche or for the hobbyist looking for innovative ways to explore their passion. While this guide can be read in sequence, it isn't a requirement. Each chapter focuses on a different area, from drone selection and safety to the more complex lens choices and FAA regulations. So whether you study carefully from cover to cover or

concentrate solely on topics of interest, you're guaranteed to come away with an expert's insight of what it takes to maximize your aerial photography skills. What you'll also learn in this definitive guide: - How to Take Amazing Aerial Photographs - How to Tap Into the Potential of Your Aerial Photography or Video Business - How to Market Your Business to Gain New Aerial Photography Clients - Aerial Photography Accessories for Your Drone - Discussing How to Inject Creativity Into Your Aerial Photography - An informative bonus section that

includes indispensable links - And many more fundamental tips and guidelines The author outlines techniques that are easy enough for a novice to comprehend, yet are detailed so intermediate and advanced students are sure to come away richer in knowledge. Quadcopters

and Drones: How to Bring Your Photography or Videography to the Next Level leads you step-by-step and teaches you exactly what you must know to succeed in this emerging industry.

When Dr. Margaret sat down to write about her almost 24 year-old marriage, what emerged was the same number of feisty and honest thoughts about what marriage is, and what it definitely is not. Now accompanied by evocative images from around the world by photographers

Deborah Strauss and Christine Mathias, her words bring a knowing smile, a nod of the head, and a recognition of hard-earned truth. This slim volume packs a punch and is a perfect gift to honor those who've loved each other for years, to guide those who've only recently

considered commitment or to keep for yourself. Keywords: Dr. Margaret Rutherford, humor and love marriage books, advice books for newly married couples, marriage books for couples, great gift books for weddings

Jacek Lidwin presents "Unknown People", a book containing 126 black and white street portraits. This book highlights provoking and contemporary examples of the medium of portraiture. Jacek is trying to express his perspective on individuals, unknown people who he meets in

the streets of Poland. His art illustrates Osho's words: "We are born alone, we live alone and we die alone. Aloneness is our very nature but we are not aware of it". He is inspired by street photography of Robert Frank, Henri Cartier-Bresson, Robert Doisneau.

People who want to develop an act for birthday parties or street corners will find this book a blessing. Easy-to-follow directions on how to juggle, manipulate cigar boxes, do balancing tricks, and become an hilariously funny juggler. Contains 25 complete comic juggling routines.

Simple enough for beginners, funny enough for professionals.

This is the definitive and essential text on creating and sponsoring real estate investment groups. Written by a nationally renowned attorney whose practice is limited to the complex legal aspects of these kinds of securities; it is a concise, easily understood and

practical guide on how to proceed. It contains all the basics you need to grasp in the US Securities and Exchange Commission (SEC) regulations governing this kind of investment. The text includes details of the SEC's rules governing the Jobs Act. Long term, this federal legislation is likely to be a game-changer in the syndication of commercial real estate. Regulation A+, finalized just before publication, may provide an important new capital-raising option for smaller companies. The portion of the Act that has been in force

since September 2013, allowing for public advertising of fundraising, is also thoroughly examined. Author Gene Trowbridge, Esq., CCIM, works as a lawyer for and consultant to individuals and organizations engaged in group sponsorships and conducts seminars and workshops throughout the country. He has also been a distinguished and popular member of the CCIM faculty since 1979, helping to shepherd exceptional practitioners to a professional designation that has been called the Ph.D. of commercial real estate. He

has been a group sponsor representing over 850 investors in sixteen real estate syndications.

Presents a tale of a precarious friendship between an illegal Nigerian refugee and a recent widow from suburban London, a story told from the alternating and disparate perspectives of both women.

The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America's longest war, foreshadowing the Taliban's recapture of Afghanistan, by Washington Post

reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat

of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla

conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were

making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a

mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US

government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to

meet with him. Secretary of Defense Donald Rumsfeld admitted that he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a "searing indictment of the deceit, blunders, and hubris of senior military and civilian officials" (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

"A new edition with a final chapter written forty years after the explosion."
