Once studied by Britain's Bureau of investigation agent comes to investigate for himself Grey's potential as a weapon in a vicious new kind of warfare. Agent Harris Stuyvesant desperately needs Grey's help entering a world where the rich and the radical exist side by side—a heady mix of the powerful and the celebrated, among whom lurks an enemy ready to strike a deadly blow at democracy on both sides of the Atlantic. Here, among a titled family whose servants dress in whimsical costumes and whose daughter conducts an open affair with a man who wants to bring down the government, another. And as he sifts through secrets divulged and kept, he uncovers the target of a horrifying conspiracy, and wonders if he can trust his touchstone, Grey, to reveal the most dangerous player of all . . . (Re-)Locating TESOL in an Age of Empire

An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom_bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on Eisevier's religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Finalist for the Edgar Award for Best First Novel, Harlan Coben meets early Dennis Lehane in this "smashing debut thriller" (Chicago Tribune), set in a small northern Michigan town by a Pulitzer Prize-winning journalist. In the dead of a Michigan winter, pieces of a snowmobile wash up near the crumbling, small town of Starvation Lake—the same snowmobile that went down with Starvation's legendary hockey coach years earlier. But everybody knows Coach Blackburn's accident happened five miles away on a different lake. As rumors buzz about mysterious underground tunnels, the evidence from the snowmobile says one thing: murder. Gus Carpenter, editor of the local newspaper, has recently returned to Starvation after a failed attempt to make it big at the Detroit Times. In his youth, Gus was the goalie who let a state championship get away, crushing Coach's dreams and earning the town's enmity. Now he's investigating the murder of his former coach. But even more unsettling to Gus are the holes in the town's past and the gnawing suspicion that those holes may conceal some dark and disturbing secrets—secrets that some of the people closest to him may have killed to keep.
