Tourism Development, Governance and Sustainability in The Bahamas

Current Issues in Tourism, Gastronomy, and Tourist Destination Research

**Religious studies and research have gained a lot of interest and attention from researchers, policy makers, and practitioners over the last few years, but the socio-economic impacts have not been explored. Taking into account the profound economic impact the tourism and hospitality industries can have on regions and cities around the world, further research in this area is critical to analyze the extent of such impact and the ramifications that are associated with it. The Handbook of Research on Socio-Economic Impacts of Religious Tourism and Pilgrimage is a pivotal reference source that provides vital research on the social and economic factors in faith-based journeys. While highlighting topics such as tourist spending, spiritual tourism, and local development, this publication explores religious tourism in the middle age, as well as the methods of modern religious tourism. This book is ideally designed for business managers, cultural preservationists, academicians, business professionals, entrepreneurs, and upper-level students seeking current research on religious tourism and its socio-economic impacts.**

**China has become one of the largest study and teach-abroad, travel, and business destinations in the world. Yet few books offer a diversity of perspectives and locales for Westerners considering the leap. This unique collection of letters offers a rarely seen, intimate, and refreshingly honest view of living and working in China. Woven through this correspondence is the compelling theme of outsiders coping in a culture that is vastly foreign to them and the underlying love-hate struggle it engenders. These tales of trials, successes, and failures offer invaluable insight into a country that remains endlessly fascinating.**

*This book focuses on the complex issues of tourism development, governance and sustainability in the long-standing popular island destination, The Bahamas, where tourism remains one of the primary fiscal industries. The book achieves this by looking at the impacts of mass tourism development from social, economic and environmental perspectives; panarchy and resilience; assessing sustainability; moving towards a blue economy; impacts of climate change and innovative alternative tourism offerings to ensure sustainable tourism – a welcomed but challenging essential contemporary focus of the tourism industry. It further looks at how development, governance and sustainability come together in the aftermath of a recent natural disaster, hurricane Dorian, which proved to be a strong catalyst for action, innovation and change in The Bahamas. Given the complexity of these key concepts and The Bahamas as an established popular tourism destination archipelago which relies so heavily on the industry, this book offers significant insight for other tourism regions and will therefore be essential reading for upper-level students and academics in the field of Tourism research.*

*This book analyses the aid, politics and the war of narratives between the US and Pakistan under the Kerry Lugar Berman Act (2009–2013), using the security-development nexus as a framing discourse and taking a decolonial approach to the subject. The book explores the politics of US foreign aid to Pakistan, with regard to the issues of ‘sovereignty’ and ‘agency’, to analyse the notions of aid, power and narratives in the asymmetrical US-Pakistan relations. Based on primary interviews and extensive data analysis of US foreign aid datasets, the book specifically argues that foreign aid is based under the hubris of the security-development nexus, which encourages a dialectical power struggle between the US and Pakistan, and between the civil and military actors inside Pakistan, which use the indivisibility of security and development to advance their strategic interests over each other. This book is a timely analysis given the recent political turmoil in Pakistan that saw the ouster of Prime Minister Imran Khan who blamed the Biden Administration for orchestrating a “regime change” conspiracy against his government. Interdisciplinary and relevant to academic and policy debates, this book will be of interest to researchers in the fields of Development Studies, International Relations, Policy Studies, Area Studies and, in particular, South Asian Politics.*

*This book constitutes extended papers from the 5th International Conference on Technology in Education, ICTE 2020, held in August 2020. Due to the COVID-19 pandemic the conference was held online. The 30 papers presented in this volume were carefully reviewed and selected from 79 submissions. They are organized in topical sections on instructional technology; learning analysis and assessment; learning environment; open and collaborative learning; technology and education.*

This comprehensive Handbook offers an overview of current research on the use of social media within the tourism industry, investigating a range of social media practices and proposing strategies to address key challenges faced by tourist destinations and operators.

The topic of ‘experience’ is becoming central to full understanding of consumer behaviour. The book covers the key sectors where it is critical - from resort management and tourist information to destination marketing. International in scope it backs up the theory throughout with relevant case materials, questions and exercises.

Over the last few decades, many countries have reformed their secured transactions law. One of the main reasons has been the clear link between reform and the availability of credit, and the drive to improve access to finance, particularly for micro, small and medium-sized enterprises. This book focuses particularly on developing economies in Africa, which have legal frameworks influenced by English, French, Belgian, Roman-Dutch and other laws. Reform in this area of law across African countries has taken a number of forms, which are explored and discussed in this book. Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre-reform law and practice, and the reform process itself. It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms. The book sets out a road map for the future of secured transactions reform; primarily in Africa, but also in other countries that have undertaken or are contemplating similar reforms. This book is the second in a series of books about Secured Transactions Law in countries around the world, and its reform, both on a national and an international scale. The first book, Secured Transactions Law Reform: Principles, Policies and Practice, was published in 2016.

This book provides an overview of the history and evolution of tourism to the present, and speculates on possible and probable change into the future. It discusses significant travel, tourism and hospitality events while referring to tourism-related notions and theories that have been developed since the beginnings of tourism. Its scope moves beyond a comprehensive historical account of facts and events. Instead, it bridges these with contemporary issues, challenges and concerns, hence enabling readers to connect tourism past with the present and future. This textbook aspires to enhance readers' comprehension of the perplexed system of tourism, promoting decision-making and even the development of new theories. This book will be of great interest to academics, practitioners and students from a wide variety of disciplines, including tourism, hospitality, events, sociology, psychology, philosophy, history and human geography.
