A resolution to the vexed problem whether a troubadour's love is erotic or spiritual is offered by Paolo Cherchi through a new reading of Andreas Capellanus' De Amore (written around 1186-1196). He suggests that Andreas, using a rhetorical strategy that creates ambiguity, condemns courtly love because its claim that passion generates virtue is untenable and deceitful. Although Andreas grasped the

core of the courtly love 'system,' namely, the relation between passion and ethics, he failed to consider the notion of mezura, that courtly virtue through which troubadours transformed nature into culture, and erotic passion into social discourse. Cherchi offers an innovative interpretation and a close reading of selected poems. He traces the history of Provençal lyric poetry, highlighting some of the significant personalities and movements.

The Contemporary Freudian
Tradition

This is the first book dedicated to the Contemporary Freudian Tradition. In its introduction, and through its selection of papers, it describes the development and rich diversity of this tradition over recent decades, showing how theory and practice are inseparable in the psychoanalytic treatment of children, adolescents

and adults. The book is organized around four major concerns in the Contemporary Freudian Tradition: the nature of the Unconscious and the ways that it manifests itself; the extension of Freud's theories of development through the work of Anna Freud and later theorists; the body and psychosexuality, including the centrality of bodily experience as it is elaborated over time in the life of the individual; and aggression. It also illustrates how within the Tradition different exponents have been influenced by psychoanalytic thinking outside it, whether from the Kleinian and Independent Groups, or from French Freudian thinking. Throughout the book there is

strong emphasis on the clinical setting, in, for example, the value of the Tradition's approach to the complex interrelationship of body and mind in promoting a deeper understanding of somatic symptoms and illnesses and working with them. There are four papers on the subject of dreams within the Contemporary Freudian Tradition, illustrating the continuing importance accorded to dreams and dreaming in psychoanalytic treatment. This is the only book that describes in detail the family resemblances shared by those working psychoanalytically within the richly diverse Contemporary Freudian Tradition. It should appeal to

anyone, from student onwards, who is interested in the living tradition of Freud's work as understood by one of the three major groups within British psychoanalysis.
