In this close study of a key figure in the history of technology, Leonard K. Eaton examines Hardy Cross's training, his work, his teaching, and his ideas, demonstrating how his achievements represent a pivotal moment in the history of structural engineering. During Cross's tenure at the University of Illinois (1921-37), he developed the "moment distribution method," allowing mathematicians to calculate statistically indeterminate frames of reinforced concrete for the first time. Later known as the Cross method, this achievement made possible the calculations that allowed for safe and efficient designs from reinforced concrete--a new material at the time--and the subsequent architectural revolution.

In Alice in April, Aunt Sally reminds Alice that she will be turning thirteen soon (like anyone could forget such a momentous occasion) and that she will be the "woman of the house." Alice dives into her new role by planning her father's fiftieth birthday party--and telling everyone in the family to get a physical. But that means Alice herself will have to disrobe at the doctor's! Then there's the latest crisis at school, where the boys have begun to match each girl with the name of a state, according to its geography--mountains or no mountains! As Alice stumbles her way through the minefield of early adolescence in

these six new repackages for Summer, there are plenty of bumps, giggles, and surprises along the way.

Stevie Jonson is thirty-four. She's broody. And she's set to marry not-quite the-man-of-her-dreams in two weeks' time. Just as the reality of her marriage sinks in, Stevie's path collides with that of Katy Norris, a thirty-six-year-old narcissist with an inside knowledge of fertility indicator home kits and a desire to get her boyfriend to settle, at any cost. As Stevie lurches further into a life that never should have happened, she meets a man who reminds her that she's more than just the sum of her ovaries . . . Set in London, Thailand and New York, this hilarious and heartfelt novel will speak to any woman who has ever met the wrong man at the right time.

There are, Alice decides, 272 horrible things left to happen to her in her life, based on the number of really horrible things that have happened already. She figures that out after the disaster of the talent show. And she realizes that there is no way to fend them off. But, she reasons, if you don't have a mother, maybe a sister would help. Maybe lots of sisters. A worldwide sisterhood! Sisterhood means more sympathy and less likely odds that the next horrible thing will strike when Alice is by herself. But, Sisterhood also comes with a whole new set of problems for Alice. Can she be Sisters with all three girls who want to be her brother Lester's girlfriend? In fact, how do

boys fit into Universal Sisterhood at all? And how far should she you go when being part of the crowd means doing something you don't want to do? Alice copes with life in her own way, and her solutions to her endless problems are often funny and surprisingly right.

*The bestselling author of Honeymoon with My Brother hits the road again to learn about love and finally finds it closer to home When you've been jilted at the altar and forced to take your pre-paid honeymoon with your brother, it's fair to say you could learn a thing or two about love. And that's what Franz Wisner sets out to do—traveling the globe with a mission: to discover the planet's most important love lessons and see if they can rescue him from the ruins of his own love life. Even after months on the road, he's still not sure he's found the secret. But a disastrous date with a Los Angeles actress and single mom keeps popping into Franz's head. While researching ideal love, could he have missed a bigger truth: that something unplanned and implausible could actually make him happy? Uproarious, tender, and studded with eye-opening insights on love, *How the World Makes Love* is the story of one average man's search for happiness—a search that turns into an improbable love story in the author's own backyard.*

A Wall Street Story

A generations expert and author of *When Generations Collide* and *The M-Factor* teams up with his seventeen-year-old son to introduce the next influential demographic group to join the workforce—Generation Z—in this essential study, the first on the subject. They were born between between 1995 and 2012. At 72.8 million strong, Gen Z is about to make its presence known in the workplace in a major way—and employers need to understand the differences that set them apart. They're radically different than the Millennials, and yet no one seems to be talking about them—until now. This generation has an entirely unique perspective on careers and how to succeed in the workforce. Based on the first national studies of Gen Z's workplace attitudes; interviews with hundreds of CEOs, celebrities, and thought leaders on

generational issues; cutting-edge case studies; and insights from Gen Zers themselves, *Gen Z @ Work* offers the knowledge today's leaders need to get ahead of the next gaps in the workplace and how best to recruit, retain, motivate, and manage Gen Zers. Ahead of the curve, *Gen Z @ Work* is the first comprehensive, serious look at what the next generation of workers looks like, and what that means for the rest of us.

The healthy eating market continues to thrive, with authors like Joe Wicks seeing recordbreaking sales for accessible healthy eating books. In recent months, however, there has been a backlash against certain healthy lifestyle brands, particularly those without scientific qualifications who promote 'clean eating'. *The Wellness Rebel* explores the aftermath of this, looking at where balanced healthy eating will go next and how we can get back to evidence-based basics and enjoy eating well. With each chapter themed around a common healthy food misconception such as 'Alkaline', 'Raw' and 'Superfoods?', *The Wellness Rebel*

explores the basics of nutrition in an accessible and entertaining way, with Pixie sharing her tips, tricks and tastiest recipes – including her much-loved Pixie Plates – for a truly healthy diet, with no detoxes, no elimination diets, no restrictions – and absolutely no BS.

The explosive finale to the New York Times and USA Today bestselling Shatter Me series. Juliette Ferrars. Ella Sommers. Which is the truth and which is the lie? Krakauer's page-turning bestseller explores a famed missing

person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons.

"Terrifying... Eloquent... A heart-rending drama of human yearning." -New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature

Online Library Travelers Tale Belok Kanan Barcelona Adhitya Mulya

presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

A USA Today bestseller and book club favorite! College student Joe Talbert has the modest goal of completing a writing assignment for an English class. His task is to interview a stranger and write a brief biography of the person. With deadlines looming, Joe heads to a nearby nursing home to find a willing subject. There he meets Carl Iverson, and soon nothing in Joe's life is ever the same. Carl is a dying Vietnam veteran--and a convicted murderer. With only a few months to live, he has been medically paroled to a nursing home, after spending thirty years in prison for the crimes of rape and murder. As Joe writes about Carl's life, especially Carl's valor in Vietnam, he cannot reconcile the heroism of the soldier with the despicable acts of the convict. Joe, along with his skeptical female neighbor, throws himself into uncovering the truth, but he is hamstrung in his efforts by having to deal with his dangerously dysfunctional mother, the guilt of leaving his autistic brother vulnerable, and a haunting childhood

memory. Thread by thread, Joe unravels the tapestry of Carl's conviction. But as he and Lila dig deeper into the circumstances of the crime, the stakes grow higher. Will Joe discover the truth before it's too late to escape the fallout?

A woman uncovers a millennia-old Egyptian conspiracy in this novel from “one of the best writers of international suspense in the business” (Steve Berry). Over four thousand years ago, the ninety-four-year reign of pharaoh Pepi II ended in chaos. In the dead of night, a party of priests set out into the desert, dragging with them a sled carrying a mysterious object. None of them returned. In modern Egypt, Freya Hannan arrives for the funeral of her estranged sister, Alex, who is said to have committed suicide. But as Freya goes through her sister's belongings, she comes to suspect that Alex was murdered. Soon, Freya realizes that Alex's life was as mysterious as her death. And the search for the truth will ensnare Freya in a lethal conspiracy going back millennia—pushing her to hunt not only for her sister's killer, but also for an ancient artifact that could tilt the global balance of power. Full of breakneck thrills and daring escapes combined with the genuine feel for the ancient past that only a true archaeologist can bring, “The Hidden Oasis is a rip-roaring gem of a read” (Raymond Khoury).

FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in

1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

'Structure and Architecture' is an essential textbook for students and practitioners of architecture and structural engineering. MacDonald explains the basic principles of structure and describes the ranges of structure types in current use. Furthermore, the book links these topics directly with the activity of architectural design and criticism. An update of the first edition, 'Structure and Architecture 2ed' includes a revised opening chapter, and a new section that discusses prominent buildings constructed since the last edition was published in 1994. Angus MacDonald deals with structures holistically, relating detailed topics back to the whole structure and building. He aims to answer the questions: What are architectural structures? How does one define the difference

between the structure of a building and all of the other components and elements of which it consists? What are the requirements of structures? What is involved in their design? An understanding of the concepts involved in answering these questions and an appreciation of how the structure of a building functions enhances the ability of an individual to appreciate its architectural quality. This book is unique in that it discusses the structural component of architectural design in the context of visual and stylistic issues.

Published in Indonesia in 2005, *The Rainbow Troops*, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of

the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's *The Kite Runner*: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

Authors' account on their travel around the world.

In the tradition of novels of Gayle Forman and John Green comes this extraordinary YA debut about a blind teen girl navigating life and love in high school. Parker Grant doesn't need 20/20 vision to see right through you. That's why she created the Rules: Don't treat her any differently just because she's blind, and never take advantage. There will be no second chances. Just ask Scott Kilpatrick, the boy who broke her heart. When Scott suddenly reappears in her life after being gone for years, Parker knows there's only one way to react--shun him so hard it hurts. She has enough on her mind already, like trying out for the track team (that's right, her eyes don't work but her legs still do), doling out tough-love advice to her painfully naive classmates, and giving herself gold stars for every day she hasn't cried since her dad's death three months ago. But avoiding her past quickly proves impossible, and the more Parker learns about what really happened--both with Scott, and her dad--the more she starts to question if things are always as they seem. Maybe, just maybe, some Rules are meant to be broken. Combining a fiercely engaging voice with true heart, debut author Eric Lindstrom's *Not If I See You First* illuminates those blind spots that we all have in life, whether visually impaired or not.

A Journey From Lost to Found. At 26, Cheryl Strayed thought she had lost everything. In the wake of her mother's rapid death from cancer, her family disbanded and her marriage crumbled. With nothing to lose, she made the most impulsive decision of her life: to walk eleven-hundred miles of the west coast of America - from the Mojave Desert, through California and Oregon, and into Washington State - and to do it alone. She had no experience of long-distance hiking and the journey was nothing more than a line on the map. This account captures the agonies - both mental and physical - of her incredible journey.

Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase *man jadda wajada*. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. *The Land of Five Towers* is the first book in a trilogy written by A. Rich Dad's Prophecy

In this sequel to *The Kinder Poison*—which *People* magazine proclaimed a "delicious high-stakes adventure"—the magical kingdom of Orkena is on the brink of war, and the only person who can save it is Zahru, the girl they once doomed to death. After surviving the Crossing, Zahru has sworn off adventures. While Crown Prince Jet navigates the looming threat of war, she's content to

simply figure out what the future holds for them. But they're dealt a devastating blow when prince Kasta returns with a shocking claim: he's the true winner of the Crossing and the rightful heir, and he bears the gods' mark as proof. Even more surprising—he's not the only one. Somehow, Zahru possesses the very same mark, giving her equal right to the throne. The last thing she wants is to rule beside her would-be executioner, but she can't let Orkena fall into his merciless hands. So Zahru, Jet, and their allies must race against the clock to find a way to stop Kasta, because once he's crowned, there's no telling what horrors he'll unleash to win the war. Zahru will do whatever it takes to keep Kasta from taking the throne...but to stop a villain, is she willing to become one herself?

This is the true story of Franz Wisner, a man who thought he had it all- a high profile career and the fiancée of his dreams- when suddenly, his life turned upside down. Just days before they were to be married, his fiancée called off the wedding. Luckily, his large support network of family and friends wouldn't let him succumb to his misery. They decided Franz should have a wedding and a honeymoon anyway- there just wouldn't be a bride at the ceremony, and Franz' travel companion would be his brother, Kurt. During the "honeymoon," Franz reconnected with his brother and began to look at his life with newfound

perspective. The brothers decided to leave their old lives behind them. They quit their jobs, sold all their possessions, and traveled around the world, visiting fifty-three countries for the next two years. In *Honeymoon With My Brother*, Franz recounts this remarkable journey, during which he turned his heartbreak into an opportunity to learn about himself, the world, and the brother he hardly knew. Lapalang is a young deer in love with adventure. And one day he sets off, in search of something different. Not heeding his mother's words, and not listening to the voice inside, telling him 'Beware, beware of the land of the human.'

On March 14, 2012, more than three million people read Greg Smith's bombshell Op-Ed in the *New York Times* titled "Why I Am Leaving Goldman Sachs." The column immediately went viral, became a worldwide trending topic on Twitter, and drew passionate responses from former Fed chairman Paul Volcker, legendary General Electric CEO Jack Welch, and New York City mayor Mike Bloomberg. Mostly, though, it hit a nerve among the general public who question the role of Wall Street in society -- and the callous "take-the-money-and-run" mentality that brought the world economy to its knees a few short years ago. Smith now picks up where his Op-Ed left off. His story begins in the summer of 2000, when an idealistic 21-year-old arrives as an intern at Goldman Sachs and learns about the firm's Business Principle #1: Our clients' interests

always come first. This remains Smith's mantra as he rises from intern to analyst to sales trader, with clients controlling assets of more than a trillion dollars. From the shenanigans of his summer internship during the technology bubble to Las Vegas hot tubs and the excesses of the real estate boom; from the career lifeline he received from an NFL Hall of Famer during the bear market to the day Warren Buffett came to save Goldman Sachs from extinction-Smith will take the reader on his personal journey through the firm, and bring us inside the world's most powerful bank. Smith describes in page-turning detail how the most storied investment bank on Wall Street went from taking iconic companies like Ford, Sears, and Microsoft public to becoming a "vampire squid" that referred to its clients as "muppets" and paid the government a record half-billion dollars to settle SEC charges. He shows the evolution of Wall Street into an industry riddled with conflicts of interest and a profit-at-all-costs mentality: a perfectly rigged game at the expense of the economy and the society at large. After conversations with nine Goldman Sachs partners over a twelve-month period proved fruitless, Smith came to believe that the only way the system would ever change was for an insider to finally speak out publicly. He walked away from his career and took matters into his own hands. This is his story.

Barcelona is one of the most visited cities in Europe, a multilingual capital of an autonomous region that longs to be independent of Spain. The city is famous for its painters, modernist architecture, style of football, and its history, but as Peter Bush reveals it has always been a major centre of literary talent and creativity. Barcelona Tales presents a selection of newly translated short stories by 14 writers, many of them Catalan. The stories explore the themes of migration and class conflict in a city renowned in world literature from the

day rural innocents Don Quixote and Sancho Panza visited its streets at the beginning of the seventeenth-century, and witnessed the wonders of the printing press and the cruelties of slavery. Together, they open up the city in ironic, tragic, and lyrical ways, inviting readers to explore fictional lives and literary styles that reflect the dynamic, conflict-ridden character and history of this great European city.
