**** The book the Guardian has called a 'taut, intricate thriller [...] deeply poignant and original' *Winner of the Victorian Premier YA Prize for Literature, and Best Young Adult Novel at the Aurealis Awards - two of Australia's most prestigious writing awards* An extraordinary thriller, told from the perspective of two Aboriginal protagonists, which weaves together themes of grief, colonial history, violence, love and family. Nothing's been the same for Beth Teller since she died. Her dad, a detective, is the only one who can see and hear her, and he's drowning in grief. Only a suspected murder, and a mystery to solve, might save them both. And they have a potential witness: Isobel Catching. Aboriginal by birth, like Beth, she seems lost and isolated in the world. But as the two get closer, Isobel's strange tale of glass-eyed monsters and stolen colours will intertwine with Beth's investigation - and reveal something dark and terrible at the heart of this Australian town . . . The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most popular works, along with The Three Musketeers. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."**

When it was built in 1937, Treasure Island was considered to be one of the largest man-made islands in the world. Located in the middle of San Francisco Bay, the 400-acre island was constructed out of dredged bay mud in a remarkable feat of Depression-era civil engineering by the US Army Corps of Engineers. Its alluring name is an allusion to the fabled remnants of the California Gold Rush found in the ocean sediment that formed the island. This collection of essays tells the story of San Francisco's Treasure Island—an artificial, disconnected island that has paradoxically been central to the city's urban ambitions. Conceived as a site for San Francisco's first airport in an age of automobile and air transport, Treasure Island hosted the Golden Gate International Exposition (GGIE) in 1939 and 1940, celebrating the completion of the Golden Gate and the San Francisco-Oakland Bay Bridges. With particular focus on Asia and Latin America, the GGIE promoted peace, harmony, and commerce in the Pacific. Treasure Island's planned use as an airport was scuttled when World War II abruptly reversed the exposition's message of Pacific unity, and the US government developed Treasure Island and the adjacent Yerba Buena Island into a naval training and transfer station, which processed 4,500,000 military personnel on their way to the Pacific theater. In the midst of a twenty-first-century high-tech boom and in one of the most expensive real-estate markets in the world, the city of San Francisco and its developers have proposed an ambitious model of military base reuse and green urbanism—a new eco-city of about 19,000 residents on Treasure Island and Yerba Buena Island. The project is synonymous with a growing global trend toward large-scale, capital-intensive land developments envisioned around ideas of sustainability and spectacular place making. Seen against the successive history of development, future visions for Treasure Island are part of a process of building and erasure that Horiuchi and Sankalia call urban reinventions. This is a process of radical change in which artificial, detached, and delimited sites such as Treasure Island provide an ideal plane for tabula rasa planning driven by property, capital, and state control. With essays by contributors well known for their interdisciplinary work, Urban Reinventions demonstrates how a single site may be interpreted in multiple ways: as an artificial island, world's fair site, military installation, a semi-derelict relic of past lives, a toxic site of nuclear waste, and a future eco-city and major real estate development. The volume offers a wide spectrum of critiques of race, imperialism, gendered Orientalism, military land use, property capital exchange, new eco-cities, sustainability, and waste as a byproduct of development. The book will be of interest to general readers as well as teachers, scholars, and practitioners in the fields of geography, architecture, city planning, urban design, history, environmental studies, American studies, Asian studies, and military history, among others.

Synopsis Rest Stop is a 250 page realistic novel based on real characters I knew while I served my time in prison. It is about the convicts I lived with on a daily basis. The book starts off in prison and gives insight of the living conditions. It tells of the games that are needed in order to survive. It explains the brotherhood that forms between cell mates and the cliques you become part of, not by choice but out of necessity. Following a fight and a stabbing, the four inmates who are held responsible are being transported from a minimum security location to the main prison when they escape. The escape convicts come up with a plan to take over a rest-area on Interstate 15. It was just a few miles from Las Vegas. They figured that the people going to Vegas would have lots of cash on them. Their plan was to rob them and use the money to get out of the country. It is a long way from Oregon State Penitentiary to Las Vegas. A big part of the story takes place on the trip to get to the rest stop, with robbery, murder and rape along the way. The driving force behind the story is the dialog and vivid thought process, not only from the convicts but from the victims. Each chapter gives insight to the mind set and words of the escaped convicts, along with the Warden, the State Police and the Federal agent who is always just one step behind the inmates. The novel begins with a thrilling, fast paced opening. It holds the excited pace up to an unforgettably tense conclusion. Each chapter ends in a poem I wrote while in prison and coincides with the story. The epilogue leaves room for a sequel for a second book. A still unsurpassed catalogue of sexual aberrations and the first systematic exploration of the psychopathology of sex, it was written during Sade's imprisonment and then lost after the storming of the Bastille in 1789. Later rediscovered , the manuscript remained unpublished until 1936 and is now introduced by Simone de Beauvoir's landmark essay, 'Must We Burn Sade?' Best known for rip-roaring adventure tales such as Kidnapped, Treasure Island, and The Strange Case of Dr Jekyll and Mr Hyde, Robert Louis Stevenson penned the novella The Ebb-Tide in collaboration with his stepson, Lloyd Osbourne. Regarded by critics as a sharp rebuke of British imperialism, the plot revolves around three transients who board a ship that they think is carrying a large quantity of champagne, only to find that their attempted heist has backfired in the worst way imaginable.

Enthralling readers with books like "The Strange Case of Dr Jekyll and Mr Hyde" and "Treasure Island", Robert Louis Stevenson is an enduring force in the world of fiction. This book presents three-week study plans with activities that should encourage children to: analyze features of text, concentrating on selected extracts; clarify their ideas by drawing comparisons with the writing of other authors; plan their own adaptation of a book after looking at existing film and graphic novel versions; and identify the difference between historical narratives in comparison to fictional representation.

The American-born author describes her family's experiences and impressions when they were forced to relocate to a camp for the Japanese in Owens Valley, California, called Manzanar, during World War II, detailing how she, among others, survived in a place of oppression, confusion, and humiliation. Reissue.

In this groundbreaking contribution to Victorian and children's literature studies, Marah Gubar proposes a fundamental reconception of the nineteenth-century attitude toward childhood. The ideology of innocence was much slower to spread than we think, she contends, and the people whom we assume were most committed to it--children's authors and members of the infamous "cult of the child"--were actually deeply ambivalent about this Romantic notion. Rather than wholeheartedly promoting a static ideal of childhood purity, Golden Age children's authors often characterize young people as collaborators who are caught up in the constraints of the culture they inhabit, and yet not inevitably victimized as a result of this contact with adults and their world. Such nuanced meditations on the vexed issue of the child's agency, Gubar suggests, can help contemporary scholars to generate more flexible critical approaches to the study of childhood and children's literature.

Robinson Crusoe is a novel by Daniel Defoe, first published on 25 April 1719. The first edition credited the work's protagonist Robinson Crusoe as its author, leading many readers to believe he was a real person and the book a travelogue of true incidents. Epistolary, confessional, and didactic in form, the book is presented as an autobiography of the title character (whose birth name is Robinson Kreutznaer)—a castaway who spends 28 years on a remote tropical desert island near Trinidad, encountering cannibals, captives, and mutineers, before ultimately being rescued. The story has been thought to be based on the life of Alexander Selkirk, a Scottish castaway who lived for four years on a Pacific island called "Más a Tierra", now part of Chile, which was renamed Robinson Crusoe Island in 1966

Xiang is convinced this map could lead to the fabled treasure. Captivated with the thrill of adventure, she joins Anh and her motley crew off in pursuit of the island. But the girls soon find that the sea—and especially those who sail it—are far more dangerous than the legends led them to believe.
