

True Crime Serial Killers

10 In Depth True Stories Of Some Of The Most Savage Serial Killers And Criminals In History
"Anitha Moolya was supposed to be getting married. She prepared for the big day by making an effort to look her best; she fixed her hair, dressed herself in an off-white sari, accentuated it with fresh flowers, and glass bangles. To complete the look, she wore a pair of gold earrings and a new pair of shoes. It was to be perfect. Only, she didn't know that it was a farce from the very beginning. The ceremony was to be held in a temple, so Anitha and her boyfriend went to the bus station in Hassan. Anticipating the travel, she decided to go to the women's rest room as her husband-to-be waited nearby. The man, Anand Kula, never expected her to return; in fact, when he saw that a lot of people had gathered in front of the toilet, he knew that he had accomplished his goal. The woman to whom he had promised marriage, was now dead. If someone informed you that there was a serial killer roaming the area, what would you do?
The True Crime Stories Of Serial Killers
In this book, you shall read the stories of ten of the most dangerous human beings (a very loose term, considering their acts), who had no sort of remorse or mercy within them when unleashing their murderous desires on their victims. Whether it is eight or eighty victims they left behind, these killers are some of the worst in U.S. history, and it makes you wonder: where is all that darkness coming from? It is time to move on; prepare yourself, and be wary; you may not be the same after reading these accounts... Here is A Preview Of The Book... Serial Killers have been a mystery for years, they commit the most atrocious acts known to man, yet we still know very little about what makes them do what they do. They kill with no remorse and have destroyed families and individuals lives many times over. These killers are at times ordinary folks that one wouldn't even realize were a cold blooded murderer. From the Zodiac Killer to the Night Stalker, all have kept us in fear until caught. This book goes deep into the minds of some of the worst serial killers in history, but not only this there is facts, dates, methods of the killers, victims accounts and even testimony from the killers themselves. Beware! This book is not for the faint of heart...

A well-liked, respected, caring pillar of the community - or an outsider, socially inept and with a frightening appearance? Wearing many different masks, serial killers are among the most disturbing and dangerous violent criminals in existence. They are individuals who have a history of multiple murders, normally committed over a long period of time and often with periods of apparent normality in between. With their different appearances and motives serial killers are hard to identify and often very hard to understand. They may be caught because the one unifying characteristic all serial killers share is their inability to feel remorse for their actions, and consequently their need to keep on killing... Some profilers believe that serial killers don't learn from their mistakes. This book explores the dark factor that sets in and explains how killers come to think that the more they kill and get away with it, the easier it will become.

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Radler's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, his trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

Do you want to get inside the minds of the world's craziest serial killers? This encyclopedia of Serial Killers will take you deep inside the psyche of what makes these terrible people tick. With numerous body counts, methods of madness, torture and more! Be prepared, this book is not for the faint of heart. It is packed with all the details of why, how and what, in all of these crimes. Find out more about the most terrifying things about serial killers: is that sometimes, they're just like us, as the interesting facts in this true crime collection reveal. Even the most diabolical of serial killers was once someone's child, someone's spouse, someone's parent, but somewhere along the line, something happened to send them off the rails on a descent into madness. Wisconsin was just lonely, and that's why 17 young men ended up dead at his hands. Never mind that he carried around a plastic bag to pick up road kill as a child – a huge harbinger of terrible things to come. The compilation of trivia in this serial killer true crime anthology goes beyond the familiar stories to give you a glimpse of some of the more horrifying aspects of people that are unfathomable for most of us. By going behind the scenes, you'll learn more about the monsters whose stories keep us awake at night, uncover the mundane hidden amongst the horrifying bits that make the evening news. These serial killer true crime moments are those you'll want to read around the campfire on a moonless summer night. That's if, of course, you're not already there.

Sleep, if it comes, will be a nightmare.

Serial Killer Book That You Have Never Seen Before! Analysis Of Criminal Minds, Patterns, Thinking, Reasons Why They Did What They Did! Volume 1 And Volume 2 in 1 Book! It is not in the natural wiring of a man (or woman) to take another man's life. It is even more unnatural when the person has a compulsion to keep taking lives, so that he satisfies some twisted craving. The psychology of serial killers is a bit difficult to explore. The reason is that it is not something that is set in rigid boundaries. It appears that after every murder, an extra layer is added to it. It also appears that the humane side of a serial killer dies a little more with every killing. Do you want to learn more about serial killers? Are you interested in knowing what led them down that path? If you do, this book does a great job of looking at what drove the different people to serial killing. It is important to note that nothing justifies taking life but rather we try to look at what made sense in the eyes of the serial killer to do what they did and with no remorse for their actions. Here is A Sneak Peek Of What You Will Learn Donald "Pee Wee" Henry Gaskins Paul John Knowles: The Casanova Killer Tsutomu Miyazaki: The Murderer Of Little Girls Ted Bundy: The Crazy Necrophile Compilation And Linking Of The Mental States And Tics Of These Serial Killers And Much Much More... Do Not Wait Any Longer And Get This Book For Only \$9.99!

The Terrifying Story of the Most Monstrous Serial Killers through History. Serial killers are the most notorious and disturbing of all criminals, representing the very darkest side of humanity. Yet they endlessly fascinate and continue to capture the public's attention with their strange charisma and deadly deeds. From Jack the Ripper to Ted Bundy and the Moors Murderers Ian Brady and Myra Hindley, these killers transfix us with their ability to commit utterly savage acts of cruelty and depravity. Only with modern police detection methods and psychological profiling, have these figures that have existed throughout human history finally been identified in the deadliest category: serial killers. These methods, the killers' characters and their crimes are described here in fascinating and terrifyingly gripping detail. The whole history of serial killers is brought to life in 50 chapters, including: Herman Webster Hudson, Devil in the White City John Christie, 10 Rillington Place murders Zodiac, The Killer Ian Brady and Myra Hindley, The Moors Murderers Ted Bundy Fred and Rosemary West Jeffrey Dahmer Aileen Wuornos Harold Shipman, Dr Death

Books About Serial Killers True Crime: Books About Serial Killers True

Serial Killers - Philosophy for Everyone investigates our profound intrigue with mass-murderers. Exploring existential, ethical and political questions through an examination of real and fictional serial killers, philosophy comes alive via an exploration of grisly death. Presents new philosophical theories about serial killing, and relates new research in cognitive science to the minds of serial killers Includes a philosophical look at real serial killers such as Ian Brady, Ted Bundy, John Wayne Gacy, Jeffrey Dahmer and the Zodiac killer, as well as fictional serial killers such as Dexter and Hannibal Lecter Offers a new phenomenological examination of the writings of the Zodiac Killer Contains an account of the disappearance of one of Ted Bundy's victims submitted by the organization Families and Friends of Missing Persons and Violent Crime Victims Integrates the insights of philosophers, academics, crime writers and police officers

Charles Manson was the illegitimate child of a teenage prostitute; in 1969, on his orders, eight people were hacked to death in an orgy of violence. Ted Bundy had the power to charm women. With his arm in a fake sling, he used to ask them to help him get his sailboat down off his car, but first they had to go to his house... Joanna Dennehy stabbed her lover Kevin Lee in the arm, dressed him in a black sequin dress, and dumped him in a ditch. To celebrate, she played Britney Spears' 'Oops... I Did It Again' down her phone and then helped torch Lee's Ford Mondeo. Serial killers are the ultimate outliers. They step outside not just the law but all human norms. They are fascinating because they are almost impossible to understand. It's comforting to know that all the serial killers featured here are now either dead or behind bars. Nevertheless, this book is not for the faint of heart.

Are you born a killer or are you shaped into one? How does one escape from his cell to start a 20+ victim killing spree? How infatiable evil can one be to murder over 24 children in less than two years? These are questions we will dig deep into as we investigate eight serial killers and murderers in this addition to Serial Killers Rage and Horror. Serial killers both intrigue and disgust the average member of society, and many question why this is. Is it because they do seem such regular people in the daylight? Or perhaps it is simply because it is hard to fathom how someone can cross that ever-present line of what is right and what is most horribly wrong. One of the most unusual cases in this book surrounds the murders of several women in Canada by a totally unique method, which may surprise you. Another, the story of Robert Hansen will terrify you. And the cases of the Atlanta Child Murderer and the Ogre of the Ardennes will sicken you to the core. But, once you start reading this book, it will be extremely hard for your curious mind to stop.

The book is about serial murder cases in America in the 1950s and 1960s. These cases seem to usher in a new era - the era of serial killers. This is a true serial killer crime book, and the author shares a lot of information and gets to the point.

A thorough, comprehensive guide to some of history's most disturbing killers, from Rodney Alcalá to the Zodiac Killer. Equal parts fascinating and horrifying, the stories of serial killers like Ted Bundy and Jeffrey Dahmer have taken on a new cultural prominence with the rise of the true-crime genre. Now, the Wikitopia Encyclopedia of Serial Killers offers murder fans and curious readers a new opportunity to learn about the lives and histories of these infamous criminals in greater depth and detail than ever before. Featuring extensive information about the backgrounds, crimes and aftermaths, victims, arrests and trials, and current lives of serial killers across the globe, as well as a variety of supplemental information—mug shots and crime-scene photos, letters from murderers, and information on victims and survivors—this book is an essential guide for all true-crime fans or any reader who wants an insight into the dark minds of the most notorious criminals in the world. Included in The Wikipedia Encyclopedia of Serial Killers, among many others, are: Ted Bundy The Zodiac Killer John Wayne Gacy Aileen Wuornos Son of Sam Jeffrey Dahmer The BTK Killer Gary Ridgway Samuel Little Karla Homolka and Paul Bernardo With nearly six million English-language articles covering essentially any topic imaginable, Wikipedia is one of the most visited websites on the internet and an important resource for anyone curious to learn about the world. This curated selection of content has been carefully selected and compiled by our editors to be the definitive book on the subject.

True crime anthology that takes a closer look at some of the worst of the worst serial killers.
We live in a society obsessed with monsters. You don't believe me? Think of all the television shows and movies in the past two years or so which have featured vampires, werewolves, and assorted creatures of the night. I'm betting you can come up with at least twenty titles. We like being scared. We like screaming in the middle of a crowded movie theatre and then awkwardly pretending it was someone else. We like that pulse pounding feeling evoked by Silent Hill and The Evil Dead because we can go home safe in the belief that it wasn't real. Monsters are real, and human beings can be the scariest of them all. It's an unfortunate fact that real life is sometimes even more twisted than the worst horror writer can imagine. Nowhere is this seen more than when discussing serial killers. Most people can understand, if not condone, a crime of passion. And who doesn't comprehend how strong the desire for vengeance can be? But what of those who kill, time and time again, for reasons that the common man, or woman, could not hope to understand?Before going any further, it is necessary to understand how a serial killer gets that designation and for this we must turn to the good old Federal Bureau of Investigations (FBI). Those familiar with the Criminal Minds series will already know that the FBI has spent a great deal of time and resources in tracking, capturing, and ultimately understanding serial killers. According to them, a serial killer can be classified as such if he (used loosely since there are female serial killers):* Has killed a minimum of three or more victims in a single spree* Typically chooses strangers as victims* Usually chooses a specific, symbolic target.* Exhibits an insatiable need to overpower/dominate victims, often by means of torture.These points help to distinguish a serial killer from spree killers or even mass murderers, since these two groups tend to lack a cooling off period. However, some experts have suggested the inclusion of a hybrid 'spree-serial killer' category. This is because some serial killers have experienced prolonged periods of sequential murder without the expected 'rest' in between.

The entertainment industry is obsessed with true crime stories. From Ted Bundy to the Zodiac Killer and the Night Stalker, Netflix and other streaming platforms have capitalized on these chilling true tales. But what about the other stories of heinous killings? These ten lesser-known true crime stories would make for fascinating docuseries. The cases presented in this book are extreme cases and display to what extent a serial killer can go... Read the stories of little-known serial killers that went beyond the limit of our imagination to perpetrate vile unremorseful murders in the blink of an eye. The book details ten cases most horrifying one from the other: -The isolated loner who butchered women and scattered their remains across Alaska -The killer who hurled huge stones through his victim's heads -Columbia's most violent serial killer -The police investigator who was secretly a serial killer -The woman who murdered hundreds of abandoned babies -A month-long killing spree from the former mental health patient -The letter-writing cannibal of old New York -The killer tried inside an iron cage for the court's protection -A man who earned the trust of tourists and killed them for their money -The man whose hammer and knife created a campaign of terror

Travel around the world and inside the minds of monsters in this true crime anthology Featuring sixteen astonishing serial killer exposés. Serial killers: Ted Bundy, John Wayne Gacy, and Jeffrey Dahmer are often the first names that spring to mind. Many people assume serial killers are people from the United States, but the truth is that serial killers have been around for a long time and can be found in every corner of the globe—and they're not just limited to the male gender, either. Some of these predators have been caught and brought to justice whereas others have never been found, let alone identified. Serial killers can be anywhere. And scarier still, they can be anyone. Edited by acclaimed author and anthropologist Mitzi Szereto, The Best New True Crime Stories: Serial Killers reveals all-new accounts of true-crime serial killers from the contemporary to the historic. The international list of contributors includes award-winning crime writers, true-crime podcasters, journalists, and experts in the dark crimes field such as Martin Edwards, Lee Mellor, Danuta Kot, Craig Pittman, Richard O. Jones, Marcie Rendon, Mike Browne, and Vicki Hendricks. This book will leave you wondering if it's ever really possible to know who's behind the mask you're allowed to see. Perfect for readers of true crime books such as I'll Be Gone in the Dark, Mindhunter, The Devil in the White City, or Sons of Cain. "An engrossing and multi-faceted anthology for a new era of true crime writing." —Piper Weiss, author of You All Grow Up and Leave Me

Discover the chilling true stories of killers who stalked their victims undetected and remain free to this day... When you hear the word "monsters", you probably conjure visions of gruesome and otherworldly creatures -- vampires, spirits, demons, and more. Yet the most terrifying monsters in history aren't the ones you see on the big screen. No horror movie music cues when you cross paths with them or when they spot their first victim. No, these vicious killers are much subtler. These are the killers who will walk away from a murder scene completely unphased by what they've done. The ones who pitilessly dump or hide bodies and then go about their day as usual. While you're likely familiar with the famous serial killers who have had their faces plastered on every television screen, that's only a part of the picture. One reason that people find these criminals so compelling is because they can rest easy at night knowing justice has been served, and the world has been made a little safer. Yes, these killers are shocking and perverse, yet there's a sense of comfort in knowing they won't be hunting for victims any time soon. But what about those who go undetected? In Unsolved Serial Killers, here is just a fraction of what you will discover: Explorations of the cities and historical contexts of the killings, so you understand the atmosphere when they were taking place In-depth profiles of the victims of each killer and what happened to them Comprehensive looks at the investigations, suspects, and actions of law enforcement while trying to identify the perpetrators The conspiracy theories and lasting legacies that surround these unknown predators The methodology of the killers and what those distinct patterns might reveal about their twisted inner psyche How gangs of serial killers like the Mad Killers of Belgium enthralled communities with fear and paranoia Public reactions to the murder sprees and the surprising ways that public opinion influenced investigations And much more. If you're a true crime junkie you may think you know the world of serial killers inside and out -- but prepare to be surprised by what you find within these pages. Many of these criminals' stories have been nearly lost to time, discarded amongst the drama and pace of the modern news cycle. Others have been eclipsed by even more horrific crimes that took place after their reign of terror. Yet their impact on the families and friends of the victims will never fade. These accounts are both thorough and compelling and will have you on the edge of your seat. If you're ready for the best true crime stories you've never heard before, then scroll up and click the "Add to Cart" button right now.

Turns out that reading nothing but true crime isn't exactly conducive to modern dating—and one woman is going to have to learn how to give love a chance when she's used to suspecting the worst. PhD candidate Phoebe Walsh has always been obsessed with true crime. She's even analyzing the genre in her dissertation—if she can manage to finish writing it. It's hard to find the time while she spends the summer in Florida, cleaning out her childhood home, dealing with her obnoxiously good-natured younger brother, and grappling with the complicated feelings of mourning a father she hadn't had a relationship with for years. It doesn't help that she's low-key convinced that her new neighbor, Sam Dennings, is a serial killer (he may dress business casual by day, but at night he's clearly up to something). It's not long before Phoebe realizes that Sam might be something much scarier—a genuinely nice guy who can pierce her armor to reach her vulnerable heart.

The 10 Most Notorious Serial Killers in Ohio and Their Horrible True Crime Cases
Witness how seemingly innocent, neighbor loved men turned into devilish creatures, feared till this day. Famous actors, musicians, political leaders and the greats of science. There are stories told. Movies filmed. And books written about the impact they've made on the world. But... This is a collection of different kind of people. People who are known not for their selfless, positive and genuine contributions, but the opposite... In this set of four true crime books, you will learn about men who performed acts so cruel, so inhumanely heartless, so unfathomable that their names will never be forgotten. This collection includes four of the world's most known serial killers: Edmund Kemper. A rejected child whose traumatic childhood scared him for a lifetime. The only way he could deal with his pain was by inflicting pain on others. Jeffrey Dahmer. Cannibalistic rapist and necrophiliac serial killer who felt no remorse and absolutely zero empathy. Robert Berdella. An ordinary man, appreciated by neighbors and a great lover of cooking, art, and culture, who turned into one of the most sadistic torturers to ever live. Ted Bundy. After taking dozens of innocent lives across the country, he escaped the prison twice, he earned the title of America's most wicked serial killer. What Amazon readers are saying: ***** "This is a well-researched collection of the darkness mankind is capable of. If you're a true crime junkie you may think you know the world of serial killers inside and out -- but prepare to be surprised by what you find within these pages.Many of these criminals' stories have been nearly lost to time, discarded amongst the drama and pace of the modern news cycle. Others have been eclipsed by even more horrific crimes that took place after their reign of terror.Yet their impact on the families and friends of the victims will never fade. These accounts are both thorough and compelling and will have you on the edge of your seat.If you're ready for the best true crime stories you've never heard before, then scroll up and click the "Add to Cart" button right now.

Discover the chilling true stories of killers who stalked their victims undetected and remain free to this day... When you hear the word "monsters", you probably conjure visions of gruesome and otherworldly creatures -- vampires, spirits, demons, and more. Yet the most terrifying monsters in history aren't the ones you see on the big screen. No horror movie music cues when you cross paths with them or when they spot their first victim. No, these vicious killers are much subtler. These are the killers who will walk away from a murder scene completely unphased by what they've done. The ones who pitilessly dump or hide bodies and then go about their day as usual. While you're likely familiar with the famous serial killers who have had their faces plastered on every television screen, that's only a part of the picture. One reason that people find these criminals so compelling is because they can rest easy at night knowing justice has been served, and the world has been made a little safer. Yes, these killers are shocking and perverse, yet there's a sense of comfort in knowing they won't be hunting for victims any time soon. But what about those who go undetected? In Unsolved Serial Killers, here is just a fraction of what you will discover: Explorations of the cities and historical contexts of the killings, so you understand the atmosphere when they were taking place In-depth profiles of the victims of each killer and what happened to them Comprehensive looks at the investigations, suspects, and actions of law enforcement while trying to identify the perpetrators The conspiracy theories and lasting legacies that surround these unknown predators The methodology of the killers and what those distinct patterns might reveal about their twisted inner psyche How gangs of serial killers like the Mad Killers of Belgium enthralled communities with fear and paranoia Public reactions to the murder sprees and the surprising ways that public opinion influenced investigations And much more. If you're a true crime junkie you may think you know the world of serial killers inside and out -- but prepare to be surprised by what you find within these pages. Many of these criminals' stories have been nearly lost to time, discarded amongst the drama and pace of the modern news cycle. Others have been eclipsed by even more horrific crimes that took place after their reign of terror. Yet their impact on the families and friends of the victims will never fade. These accounts are both thorough and compelling and will have you on the edge of your seat. Turns out that reading nothing but true crime isn't exactly conducive to modern dating—and one woman is going to have to learn how to give love a chance when she's used to suspecting the worst. PhD candidate Phoebe Walsh has always been obsessed with true crime. She's even analyzing the genre in her dissertation—if she can manage to finish writing it. It's hard to find the time while she spends the summer in Florida, cleaning out her childhood home, dealing with her obnoxiously good-natured younger brother, and grappling with the complicated feelings of mourning a father she hadn't had a relationship with for years. It doesn't help that she's low-key convinced that her new neighbor, Sam Dennings, is a serial killer (he may dress business casual by day, but at night he's clearly up to something). It's not long before Phoebe realizes that Sam might be something much scarier—a genuinely nice guy who can pierce her armor to reach her vulnerable heart.

The Ultimate Collection of Cold Cases, Serial Killers, and More
The 10 Most Notorious Serial Killers in Ohio and Their Horrible True Crime Cases
Witness how seemingly innocent, neighbor loved men turned into devilish creatures, feared till this day. Famous actors, musicians, political leaders and the greats of science. There are stories told. Movies filmed. And books written about the impact they've made on the world. But... This is a collection of different kind of people. People who are known not for their selfless, positive and genuine contributions, but the opposite... In this set of four true crime books, you will learn about men who performed acts so cruel, so inhumanely heartless, so unfathomable that their names will never be forgotten. This collection includes four of the world's most known serial killers: Edmund Kemper. A rejected child whose traumatic childhood scared him for a lifetime. The only way he could deal with his pain was by inflicting pain on others. Jeffrey Dahmer. Cannibalistic rapist and necrophiliac serial killer who felt no remorse and absolutely zero empathy. Robert Berdella. An ordinary man, appreciated by neighbors and a great lover of cooking, art, and culture, who turned into one of the most sadistic torturers to ever live. Ted Bundy. After taking dozens of innocent lives across the country, he escaped the prison twice, he earned the title of America's most wicked serial killer. What Amazon readers are saying: ***** "This is a well-researched collection of the darkness mankind is capable of. A definite page-turner for those who want to glimpse the darkness that resides amongst some of us." ***** "Awesome collection of four of the most prolific and horrific serial killers of all time." ***** "I couldn't put it down, Ryan Becker is an awesome writer." Look into the dark, hidden side of the impactful - their names are never said out loud yet will never be forgotten..."
