Following up Robert Traina's classic Methodical Bible Study, this book introduces the practice of inductive Bible study to a new generation of students, pastors, and church leaders. The authors, two seasoned educators with over sixty combined years of experience in the classroom, offer guidance on adopting an inductive posture and provide step-by-step instructions on how to do inductive Bible study. They engage in conversation with current hermeneutical issues, setting forth well-grounded principles and processes for biblical interpretation and appropriation. The process they present incorporates various methods of biblical study to help readers hear the message of the Bible on its own terms.

The inerrancy of God's Word has been attacked throughout church history. Today's assaults are unique since neo-evangelicals now surrender to post-modernistic ideas of history and historical-critical ideologies that assault this vital doctrine. They seek to redefine the orthodox meaning of inerrancy. Since the signing of the Chicago Statements, troubling signs have once again appeared in recent years among many who either did not fight the battles for the inerrancy of Scripture as did the International Council on Biblical Inerrancy, or who do not remember the troubling times that caused their development. The nature and definition of "inerrancy" are now being changed to include ideas of fallibility. History is forgotten. The need arises for sounding the alarm for Vital Issues in Inerrancy. Evangelical schools and churches that broke away earlier to defend inerrancy surrender now to academic prestige and scholarly fads instead of faithfulness to God's inerrant Word. The contributors pray that the Lord will raise up a new generation with the spiritual fervency of the International Council on Biblical Inerrancy to uphold the inerrancy of God's Word: Isaiah 40:8--"The grass withers, the flower fades, But the word of our God stands forever."

"I spend hours in my study and on my knees preparing sermons, but when I preach them no one listens. What's wrong? Why aren't I getting through? Why do I see blank stares, daydream reveries, nodding heads as soon as I open my mouth to preach? I know my messages are biblically sound. I'm sure I'm preaching what God has laid on my heart. But it's not being received. What's wrong? What can I do?" Sound familiar? If you're a preacher, you probably know the feeling. But it doesn't have to be that way. You can learn to preach in a way that will be readily, even eagerly, received by your congregation. It's all here: what inductive preaching is, how it works, why it's effective, who's used it--including Jesus, Peter, Paul, Augustine, St. Francis, Wesley, Edwards, and Moody, to name only a few. Also included are: Step-by-step guidelines for constructing an inductive sermon Two sample inductive sermons A list of 96 inductive preachers from 20 centuries A strategy for making traditional sermon structures inductive A checklist of inductive characteristics. In 'Unlocking the Scriptures', Cyril Barber walks us through a specific text (Abraham and Sarah) of the Bible, showing us how to discover its riches, writes Warren Wiersbe, well-known and conference speaker. He goes on to say, You're not just holding a book in your hand, you're holding a key that can open the doors of Scripture and make exciting discoveries. Dr. Barber has earned these glowing words with a lifetime of intense Bible study and ministry. His academic endeavors under Dr. Howard G. Hendricks of the Dallas Theological Seminary prepared him early on to study and to teach others how to study for the most benefit. He knows well the patience and diligence required to get the most out of studying the Bible, as well as to encourage those who persist. He says, Bible study requires diligence, an easy-to-learn technique and perseverance. In the end, however, one's efforts are handsomely rewarded. In the interview, Dr. Barber garnered degrees from American, British and Canadian institutions as well as earning his doctorate from Biola University. He has served on the faculties of Trinity Evangelical School, Rosemead School of Psychology and Simon Greenleaf University; At present he serves as Associate Pastor of Plymouth Church in Whittier, CA, responsible for pastoral care and visitation, counseling and teaching. He is the author of over 30 books and numerous journal articles. Charles C. Ryrie says, The Bible is the greatest of all books; to study it is the most noble of all pursuits; to understand it, the highest of all goals. Whatever time you spend with Unlocking the Scriptures will be time you will treasure -- time well spent.

A Sneak Peek into the Future

Gauvreau explores the persistence and development of the evangelical creed as the intellectual expression of Protestant religion which largely defined English-Canadian culture in the Victorian period. This popular theology, which linked Methodist and Presbyterian church colleges to the world of popular preaching, was based on the Bible not only as the foundation of personal piety but as a sacred record of human history: past, present, and future. Gauvreau shows that the evangelical creed proved flexible when faced with the challenges of Darwinian evolution, higher criticism, and other new intellectual currents, and that it remained central to the intellectual life of the churches. By accommodating those aspects of modern thought most compatible with evangelicalism and filtering out those more threatening, clergymen-professors such as Samuel Nelles, Nathanael Burwash, George Monro Grant, and William Caven were able to find creative ways to move their churches toward social reform in the late nineteenth century. The evangelical synthesis lost its cultural supremacy only in the twentieth century, when the complexity of theological discussion in the church colleges broke down the close links between professor and preacher.

Bring the Bible to Your Students like Never Before Communicating the Scriptures is much like building a bridge. However, instead of ravines or rivers, the teacher must span both cultural boundaries and great gulfs of time between the present and the pasts of Moses, David, Jesus, and Paul. Though God's Word is always relevant, the teacher must help students see Scripture's vast treasures. The effective, engaging Bible teacher must, therefore, become creative. Together, Lawrence Richards and Gary Bredfeldt have created the ultimate guide to building bridges for those seeking to learn about God's Word. Creative Bible Teaching offers a five-step process by which Christian educators can construct a bridge across time, geography, and culture to help students of all ages connect with God's Word. This newly revised edition makes learning about God's Word more accessible for both teachers and students today. Simple, clear, and memorable, the method laid out in Creative Bible Teaching provides a sure-fire way of communicating God's Word in a way that sticks.

'Fundamentalism' is a label used often pejoratively of religious conservatism. Evangelicals are growing in number and power around the world and are frequently regarded as fundamentalist. This volume examines fundamentalism as a mentality which has greatly affected evangelicalism, but which some evangelicals now wish to leave behind.

The Grand Narrative of Christianity that the Bible created is dead, and the Bible is silent. Does the Bible have anything relevant to say to our modern circumstances? We ask, where did God come from? What happened to God? God's Autopsy reinterprets soul and God as historical-psychological phenomena related to the cultural structure of consciousness, the invisible shared context of thought, which has changed dramatically over the past three millennia. This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness—soul—visible and conscious. Our modern Western consciousness is radically different from that of antiquity when the Bible emerged. Jung's psychological-philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself, leads to the realization that today consciousness has come home to itself. Beginning with preliterate polytheism, the emergence of the transcendent god Yahweh and Christ, which led directly to the Enlightenment, objective soul continues to unfold itself. How did late modernity become a topsy-turvy, quantum, virtual, digital, impersonal, and abstract world that appears to be running away from us? The answer is unexpectedly and shockingly in the Bible itself.

This fresh, new approach to God's Word is designed to captivate teen readers and pull their inquisitive minds into the mystery and majesty of the Bible.
