Brush with Danger

The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka Kode9.

*(Fake Book). The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! 400 songs, including: Air Mail Special * Birdland * Bye Bye Blackbird * Caravan * Doxy * Fly Me to the Moon (In Other Words) * Georgia * Girl Talk * I Remember You * I Thought About You * In Walked Bud * The Jodi Grind * Just the Way You Are * Killer Joe * Little Sunflower * Mercy, Mercy, Mercy * Moanin' * The Nearness of You * Now's the Time * Old Devil Moon * Phase Dance * St. Thomas * Speak Low * Stardust * Tangerine * Tenor Madness * Watch What Happens * Whisper Not * Willow Weep for Me * Yardbird Suite * and more.*

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are Breakfast at Tiffany's and Other Voices, Other Rooms (in one volume), Portraits and Observations, and The Complete Stories Truman Capote's masterpiece, In Cold Blood, created a sensation when it was first published, serially, in The New Yorker in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.
