Fall in love with the addictive, suspenseful love story between a teenage girl and a vampire with the book that sparked a "literary phenomenon" and redefined romance for a generation (New York Times). Isabella Swan's move to Forks, a small, perpetually rainy town in Washington, could have been the most boring move she ever made. But once she meets the mysterious and alluring Edward Cullen, Isabella's life takes a thrilling and terrifying turn. Up until now, Edward has managed to keep his vampire identity a secret in the small community he lives in, but now nobody is safe, especially Isabella, the person Edward holds most dear. The lovers find themselves balanced precariously on the point of a knife -- between desire and danger. Deeply romantic and extraordinarily suspenseful, Twilight captures the struggle between defying our instincts and satisfying our desires. This is a love story with bite. It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated companion, Midnight Sun: the iconic love story of Bella and Edward told from the vampire's point of view. "People do not want to just read Meyer's books; they want to climb inside them and live there." -- Time "A literary phenomenon." -- The New York Times #1 NEW YORK TIMES BESTSELLER • "This book delivers completely new and refreshing ideas on how to create value in the world."—Mark Zuckerberg, CEO of Meta "Peter Thiel has built multiple breakthrough companies, and Zero to One shows how."—Elon Musk, CEO of SpaceX and Tesla The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we're too distracted by shiny mobile devices to notice. Information technology has improved

rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether, because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation: it starts by learning to ask the questions that lead you to find value in unexpected places.

"A perfect book"—and basis for the Maggie Smith film—about a teacher who makes a lasting impression on her female students in the years before World War II (Chicago Tribune).

"Give me a girl at an impressionable age, and she is mine for life!" So asserts Jean Brodie, a magnetic, dubious, and sometimes comic teacher at the conservative Marcia Blaine School for Girls in Edinburgh. Brodie selects six favorite pupils to mold—and she doesn't stop with just their intellectual lives. She has a plan for them all, including how they will live, whom they will love, and what sacrifices they will make to uphold her ideals. When the girls reach adulthood and begin to find their own destinies, Jean Brodie's indelible imprint is a gift to some, and a curse to others. The Prime of Miss Jean Brodie is Spark's masterpiece, a novel that offers one of twentieth-century English literature's most iconic and complex characters—a woman at once admirable and sinister, benevolent and conniving. This ebook features an illustrated biography of Muriel Spark including rare photos and never-before-seen documents from the author's archive at the National Library of Scotland.

NATIONAL BESTSELLER • "How did our democracy go wrong? This extraordinary document ... is Applebaum's answer." —Timothy Snyder, author of On Tyranny The Pulitzer Prize-winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In Twilight of Democracy, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Elegantly written and urgently argued, Twilight of Democracy is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values.

According to ancient prophecy, there's only one chance to avert the complete annihilation of the Undead. Twins James William and Brigit Poe part human, part vampire believe that they are that chance. In truth, the key lies with reclusive and mortal scholar, Lucy Lanfair. As Armageddon approaches, anti-vampire sentiment fuels a war neither side can win, driving James to abandon his moral code and draw Lucy into a deadly battle she wants no part of. But Lucy soon realises that she holds this powerful immortal's soul in her hands, and that it's her destiny not only to stop a war, but to save James from his inner darkness. If she fails, his race will die and so will her heart. Is the power of their love strong enough to save the world?

" This is a collection of poems by the author of the novel Purgatorio. This book of verses harks back to the late Renaissance of Florence and expands into what the poet calls "rarefied tracts of toiling and dreaming." Quotes from Online Book Club (www.OnlineBookClub.org) that reviewed my last book Purgatorio. These quotes include: "It is a great book" and "He is a gifted poet". Excerpts from "In the Twilight" "...but the echo of an echo may be heard in a dreamlike flash of a vigorous transcendent wave." "...the moment turns to stone, a monument to rapturous illusion." "...but the willow branch still blooms, and the pond is alive with primeval tunes below the smoke of my untimely dreams." "...I feel like singing, undaunted by the twilight of my fate." "

Performed throughout Europe during the 1700s, Italian heroic opera, or opera seria, was the century's most significant musical art form, profoundly engaging such figures as Handel, Haydn, and Mozart. Opera and Sovereignty is the first book to address this genre as cultural history, arguing that eighteenth-century opera seria must be understood in light of the period's social and political upheavals. Taking an anthropological approach to European music that's as bold as it is unusual, Martha Feldman traces Italian opera's shift from a mythical assertion of sovereignty, with its festive forms and rituals, to a dramatic vehicle that increasingly questioned absolute ideals. She situates these transformations against the backdrop of eighteenth-century Italian culture to show how opera seria both reflected and affected the struggles of rulers to maintain sovereignty in the face of a growing public sphere. In so

doing, Feldman explains why the form had such great international success and how audience experiences of the period differed from ours today. Ambitiously interdisciplinary, Opera and Sovereignty will appeal not only to scholars of music and anthropology, but also to those interested in theater, dance, and the history of the Enlightenment.

twilight and Philosophy What can vampires tell us about the meaning of life? Is Edward a romantic hero or a dangerous stalker? Is Bella a feminist? Is Stephenie Meyer? How does Stephenie Meyer's Mormonism fit into the fantastical world of Twilight? Is Jacob "better" for Bella than Edward? With everything from Taoism to mind reading to the place of God in a world of vampires, this book offers some very tasty philosophy for both the living and the undead to sink their teeth into. This book investigates the relationship between the ideas of nation and race among the nationalist intelligentsia of the Italian Risorgimento and argues that ideas of race played a considerable role in defining Italian national identity. The author argues that the racialization of the Italians dates back to the early Napoleonic age and that naturalistic racialism—or race-thinking based on the taxonomies of the natural history of man—emerged well before the traditionally presumed date of the late 1860s and the advent of positivist anthropology. The book draws upon a wide number of sources including the work of Vincenzo Cuoco, Giuseppe Micali, Adriano Balbi, Alessandro Manzoni, Giandomenico Romagnosi, Cesare Balbo, Vincenzo Gioberti, and Carlo Cattaneo. Themes explored include links to antiquity on the Italian peninsula, archaeology, and race-thinking.

In the distant past, a prophetess named Sarafina was sentenced to the lonely fate of becoming a vampire. While she was still human, she would sometimes be visited by her “guardian spirit”—a man named Will, with whom she fell in love. On one of his last visits, he told the now-ageless prophetess, “I’m from the future. Trust me...and wait for me.” So Sarafina waited until the day when she finally found him...Colonel Will Stone, an American war hero who’d just returned home. Sarafina should be thrilled to reunite with him, but deep in her heart she’s already made other plans, convinced that he could never truly love her.

Both in Greece in 2012 and Italy in 2013, it took two elections to form a government. A repeat parliamentary contest was required in Greece and the unprecedented re-election of the outgoing President of the Republic in Italy before a cabinet could be formed. Against a background of economic crisis and national austerity, both countries experienced ‘protest elections’ in which the overriding concern for an unusually large proportion of voters was not to choose a government but to express dissent. The outcome included record-breaking electoral volatility, the decline of bipolarism, the startling rise of challenger parties and the transformation of national patterns of government formation, including experiments with grand coalitions and technocrat-led cabinets. These developments sent shock waves through Europe and beyond, suggesting Southern Europe might be drifting towards ungovernability. The volume offers analyses of the key electoral contests at the parliamentary, presidential and local government levels, complemented by special studies of two key challenger parties, Beppe Grillo’s Five Star Movement in Italy and Golden Dawn in Greece. An introductory comparative overview traces the process of convergence between the political systems of Italy and Greece which appears to have been triggered by the economic crisis. This book was published as a special issue of South European Society and Politics.

In these impressions of the Italian countryside, Lawrence transforms ordinary incidents into passages of intense beauty. Twilight in Italy is a vibrant account of Lawrence's stay among the people of Lake Garda, whose decaying lemon gardens bear witness to the twilight of a way of life centuries old. In Sea and Sardina, Lawrence brings to life the vigorous spontaneity of a society as yet untouched by the deadening effect of industrialization. And Etruscan Places is a beautiful and delicate work of literary art, the record of "a dying man drinking from the founts of a civilization dedicated to life."

A National Bestseller! The great filmmaker Werner Herzog, in his first novel, tells the incredible story of Hiroo Onoda, a Japanese soldier who defended a small island in the Philippines for twenty-nine years after the end of World War II. In 1997, Werner Herzog was in Tokyo to direct an opera. His hosts asked him, Whom would you like to meet? He replied instantly: Hiroo Onoda. Onoda was a former soldier famous for having quixotically defended an island in the Philippines for decades after World War II, unaware the fighting was over. Herzog and Onoda developed an instant rapport and would meet many times, talking for hours and together unraveling the story of Onoda's long war. At the end of 1944, on Lubang Island in the Philippines, with Japanese troops about to withdraw, Lieutenant Hiroo Onoda was given orders by his superior officer: Hold the island until the Imperial

army's return. You are to defend its territory by guerrilla tactics, at all costs. . . . There is only one rule. You are forbidden to die by your own hand. In the event of your capture by the enemy, you are to give them all the misleading information you can. So began Onoda's long campaign, during which he became fluent in the hidden language of the jungle. Soon weeks turned into months, months into years, and years into decades—until eventually time itself seemed to melt away. All the while Onoda continued to fight his fictitious war, at once surreal and tragic, at first with other soldiers, and then, finally, alone, a character in a novel of his own making. In The Twilight World, Herzog immortalizes and imagines Onoda's years of absurd yet epic struggle in an inimitable, hypnotic style—part documentary, part poem, and part dream—that will be instantly recognizable to fans of his films. The result is a novel completely unto itself, a sort of modern-day Robinson Crusoe tale: a glowing, dancing meditation on the purpose and meaning we give our lives. Presents the classic play, first produced in 1947, about guilt, responsibility, and the relationship between fathers and sons in the aftermath of a World War II corruption case.

This powerful book explicates the many ways in which colonial encounters continue to shape forced migration, ever evolving with times and various geographical contexts. Bringing historians, political scientists, sociologists, anthropologists, and criminologists together, the book presents examples of forced migration events and politics ranging from the 18th century to the practices and geopolitics in the present day. These case studies across Europe, Africa, North America, Asia and South America are then put in dialogue with each other to propose new theoretical and real-world agendas for the field. As the pervasive legacies of colonialism continue to shape global politics, this unprecedented book moves beyond critique, ahistoricity and Eurocentrism in refugee and forced migration studies and establishes postcoloniality and forced migration as an important field of migration research.
