Craig Caudill of Nature Reliance School has spent four decades gathering expertise in outdoor survival—including two 30-day solo sabbaticals in remote woods with only a knife. In this book, Craig puts it all together in a sensible way, step by step, for almost any scenario—from getting lost alone to extreme group tactics. You’ll learn how to: · Strengthen your mental fortitude · Heighten awareness to avoid danger · Hunt, fish and forage for food · Make gear from scratch · Use tactics and self-defense to fight off predators · Track animals and other people · Choose the right gear to help you get home safe always In this book, you’ll learn how to work with nature, not against it, so you can travel with a healthy dose of confidence and caution, stay safe and survive no matter what dangers you encounter.

The original and best survival guide for any situation in every climate. Now with added techniques for handling Urban dangers, the ‘SAS Survival Handbook’ is the complete companion for adventurers everywhere.

Designed for use in formal Air Force training, the U.S. Air Force Pocket Survival Handbook was written to help a pilot who finds him or herself in a hostile environment. This new edition will allow you to carry all the same information condensed in your back pocket. For the general reader, it offers a complete and comprehensive manual of outdoor survival techniques. It includes expert advice on: First aid for illness and injury Finding your way without a map Building a fire Finding food and water Using ropes and tying knots Mountain survival Concealment techniques Signaling for help Survival at sea Building shelters Animal tracking Predicting the weather And much more By outlining specific survival threats found at sea, in the desert, in mountain terrain, and in arctic conditions, and offering techniques on surviving them, this book is invaluable to both the casual outdoorsman and the extreme sports enthusiast, as well as anyone looking for insight into the training tactics of the U.S. Air Force.

I’ve written this book to help you – the soldier – kill the enemy when you get the chance and, most importantly, come back home in one piece. To achieve this aim I’ve covered combat training from boot camp up to the level required of a Special Forces soldier. And then gone on to add a few tricks of my own. I’ve done a bit of soldiering (Northern Ireland, SAS deployments, Bush Wars in Africa, life as a merc) and been in my fair share of fire-fights. I’ve only been wounded twice and learnt from both occasions. I’m going to use my experience to teach you to play the game. I’m not going to teach you how to survive in snowy mountains for a month with only one tea-bag or how to kill a room full of people with only a toothpick. There are plenty of books that do that already. This book will teach you how to fight and survive war in the 21st century from the tools of the trade, to avoiding getting shot or blown-up, from surviving an interrogation to defending a position. This is a book not for the faint hearted. But then neither is war.

Now that the next disaster will be earthquake, Coronavirus, flu epidemic, flood, terrorist attack, but everyone should know how to survive a medical emergency if a medical professional isn't available. From Dr. Joe Alton and Amy Alton ARNP comes an updated edition of their bestseller The Survival Medicine Handbook. This unique medical book is meant to enable the average person to handle injuries and illness in situations in which modern medical facilities and professionals aren't available due to a disaster. with surviving disasters and epidemics. The Altons also discuss the medical supplies needed to become a medical asset to your family and community as well as alternative and natural strategies for when pharmaceuticals aren't available. Topics include: Appendicitis and Conditions that Mimic It Urinary Tract Infections Mosquito-Borne Illnesses Allergic Reactions and Anaphylaxis Head Injuries Animal Bites Snake Bites Head injuries Kidney Stones Dislocations and Fractures Nosebleeds Pain Medications Natural Pain Relief And much much more! The Altons assume that the worst might actually happen—that the average person could be left without medical help in a disaster. With their book, you can keep your family healthy in times of trouble. What if you were dropped in the woods with little more than a knife, your wits, and the (hopefully warm) shirt on your back? Could you survive? If you'd read this book, the answer is yes! Survival! It's one of our most primal fears, most basic needs. What do you do when everything is stripped away except your will to prevail? In this book, survival expert Tim MacWelch examines how native peoples around the world and throughout history have made their own shelter, weapons, tools, and more, and well as clever MacGuyver-esque ideas for using anything you might find in your pockets or pack. Whether your goal is to test yourself against nature, be prepared for any catastrophe, or learn more about traditional ways of survival, this is the one book you need. Packaged in a durable, wipe-clean flexicover with metallic corner-guards, this practical manual withstands heavy-duty use indoors and out.
