Jesus Christ is arguably the most famous man who ever lived. His image adorns countless churches, icons, and paintings. He is the subject of millions of statues, sculptures, devotional objects and works of art. Everyone can conjure an image of Jesus: usually as a handsome, white man with flowing locks and pristine linen robes. But what did Jesus really look like? Is our popular image of Jesus overly westernized and untrue to historical reality? This question continues to fascinate. Leading Christian Origins scholar Joan E. Taylor surveys the historical evidence, and the prevalent image of Jesus in art and culture, to suggest an entirely different vision of this most famous of men. He may even have had short hair.

A frenetic doctor-narrator named Ferdinand endeavors to tell the reader about the allied bombardment of Montmartre in April 1944, "baroom!" and "baboom!" and all. The explosions are enough to make the furniture dance around the room, but Ferdinand attends mainly to his beloved cat, Bebert; his girlfriend, Lili; and Jules, a humpbacked local artist he despises.

European Governments and other institutions are currently engaged in complex negotiations over the question of the accession of Turkey to the European Union. Many doubts and reservations on this matter have been raised in the past years. Those who support Turkey's joining the EU maintain that it would prove to be a natural ally of the West in the fight against Islamist Fundamentalism. However, Turkey today is no longer the lay country of Kemal Ataturk: with the 2002 elections, further confirmed by the 2004 elections, the "party of the veil" led by the Prime Minister Recep Tayyip Erdogan and the President Abdullah Gul, both with a proven background of radical Islamist fundamentalism, came into power. The Treaty of Lisbon stipulates that each State in the European Union has a political weight directly proportional to its demographics. Turkey, with its almost 85 millions inhabitants, would therefore be the most populated country and, as a consequence, the most represented in the European Parliament. While Europe is giving up on its Christian roots, Turkey exhibits an extremely well-defined and strong religious - political identity and its request to

join the EU has not been put forward in order to renounce such identity, but, on the contrary, to impose it more widely. With or without Erdogan, Turkey would become the leader of the Islamic minority within the European institutions, where it will no doubt play a central role. So would the potential joining of Turkey be of benefit or, instead, an irreparable catastrophe for our Continent? This book poses the question and raises the alarm.

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

The planet is sick. Human beings are guilty of damaging it. We have to pay. Today, that is the orthodoxy throughout the Western world. Distrust of progress and science, calls for

individual and collective self-sacrifice to ‘ save the planet ’ and cultivation of fear: behind the carbon commissars, a dangerous and counterproductive ecological catastrophism is gaining ground. Modern society ’ s susceptibility to this kind of thinking derives from what Bruckner calls “ the seductive attraction of disaster, ” as exemplified by the popular appeal of disaster movies. But ecological catastrophism is harmful in that it draws attention away from other, more solvable problems and injustices in the world in order to focus on something that is portrayed as an Apocalypse. Rather than preaching catastrophe and pessimism, we need to develop a democratic and generous ecology that addresses specific problems in a practical way.

This is one of Pasolini's least known books, it is one of his most important challenges to himself and to the world. The book pits assumed Western cultural supremacy against the battle for Africa's freedom and self-assertion. The Savage Father offers a deep analysis of the internal struggles between the coloniser and the colonised, as well as showing us the externalised conditioning to which both are prey.

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France's--and literature's--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of Journey to the End of the Night move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that's lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.

A successful Italian doctor's idyllic life is shattered by shameful accusations in a novel by the Campiello Prize-winning author of *The Worst Intentions*. In a sprawling villa on the outskirts of Rome, the internationally revered pediatric oncologist Leo Pontecorvo and his family have gathered for dinner. For these exemplary members of Italy's upper middle-class, the scene is perfect in every way—until a horrifying accusation airs on the evening news concerning Leo Pontecorvo himself. From this point on, nothing will ever be the same. An allegation of embezzling would be bad enough, but to the horror of his family, Leo is also said to have seduced his son's twelve-year-old girlfriend. The spotlight now turned on Leo reveals every mistake, regret, and contradiction of his lifetime. The details of his private and professional life are debated by both friends and foes, ravenous reporters and punctilious prosecutors. Unable to face the suspicious gazes of his wife and children, Leo descends into the basement of his palatial home—a self-imposed exile in which he attempts to piece together the shattered remains of his life.

Transrealist writing treats "immediate perceptions in a fantastic way," according to science fiction writer and mathematician Rudy Rucker, who

originated the term. In the expanded sense argued in this book, it also intensifies imaginative fiction by writing the fantastic from the standpoint of richly personalized experience, as in the works of Philip K. Dick. This volume examines a variety of work from a transrealist perspective, including the writings of Dick, Rucker, Kurt Vonnegut, J.G. Ballard, and John Barth.

Celine's fascination with the ballet spans his literary career: three of the pieces in this volume were written around the same time that he published his great novel, *Voyage au bout de la nuit*, which he dedicated to the dancer Elisabeth Craig. At the time of his death, according to his wife - also a dancer - he was planning a book devoted to dance.

"The tale of a man imprisoned and reviled by his own countrymen, the Fable follows its character's decline from virulent hatred to near madness as a result of his violent frustration with the hypocrisy and banality of his fellow human beings. In part because of the story's clear link to his own case - and because of the legal and political difficulties this presented - Celine was compelled to push his famously elliptical, brilliantly vitriolic language to new and extraordinary extremes in *Fable for Another Time*. The resulting linguistic and stylistic innovation make this work stand out as one of the most original and revealing literary undertakings of its time."--BOOK JACKET.

There, this fourth wise man learns the recipe from a fellow prisoner, and learns of the existence and meaning of Jesus.

Death on the Installment Plan is a companion volume to Louis-Ferdinand Céline's earlier novel *Journey to the End of Night*. Published in rapid succession in the middle 1930s, these two books shocked European literature and world consciousness. Nominally fiction but more rightly called "creative confessions," they told of the author's childhood in excoriating Paris slums, of service in the mud wastes of World War I and African jungles. Mixing unmitigated despair with Gargantuan comedy, they also created a new style, in which invective and obscenity were laced with phrases of unforgettable poetry. Céline's influence revolutionized the contemporary approach to fiction. Under a cloud for a period, his work is now acknowledged as the forerunner of today's "black humor."

A landmark collection of essays on the Nobel laureate's conception of Latin America, past, present, and future Throughout his career, the Nobel Prize winner Mario Vargas Llosa has grappled with the concept of Latin America on a global stage. Examining liberal claims and searching for cohesion, he continuously weighs the reality of the continent against the image it projects, and considers the political dangers and possibilities that face this diverse set of countries. Now this illuminating and versatile collection assembles these never-before-translated criticisms and meditations. Reflecting the intellectual development of the writer himself, these essays distill the great events of Latin America's recent history, analyze political groups like FARC and Sendero Luminoso, and evaluate the legacies of infamous leaders such as Papa Doc Duvalier and Fidel Castro. Arranged by theme, they trace Vargas Llosa's unwavering demand for freedom, his embrace of and disenchantment with revolutions, and his critique of nationalism, populism, indigenism, and corruption. From the discovery of liberal ideas to a defense of democracy, buoyed by a passionate invocation of Latin American literature and art, Sabers and Utopias is a monumental collection from one of our most important writers. Uncompromising and adamantly optimistic, these social and political essays are a paean to thoughtful engagement and a brave indictment of the discrimination and fear that can divide a society.

Cultural Writing. Fiction. New to SPD. Celine's first novel, Journey to the End of the Night and its sequel, Death on Credit, were a new kind of novel, frank about the author's thoughts and actions in a way that readers had never encountered, ultra-realistic, and full of incidents that could not possibly be true to life, characters that stretched the imagination in spite of their having obviously been drawn from life. In Death on Credit, Ferdinand Bardamu, Celine's alter ego, is a doctor in Paris treating the poor, who seldom pay him but who take every advantage of his availability. The action is not continuous but goes back in time to earlier memories and often moves into fantasy. This fascinating book by one of the greatest 20th-century novelists is an unforgettable experience for the reader. Translated and with an introduction by Ralph Manheim.

Completed the day before his death in 1961, Rigadoon, the most compassionate of Celine's novels, explores the ravages of war and its aftermath. Often comic and always angry, the first-person autobiographical narrator, with his wife and their cat in tow, takes the reader with him on his flight from Paris to Denmark after finding himself on the losing side of World War II. The train rides that encompass the novel are filled with madness and mercy, as Celine, a physician, aids refugees while ignoring his own medical needs.

The narrative focuses on discussions about literature between an author and an academic.

A desperate man frantically flees France in the closing months of World War II. Giorgio Manganelli (1922-1990), one of Italy's most radical and original writers, went further than most in exploring the creative possibilities of hybrid genres and open forms. Ostentation, theatricality, and a love of drapery and verbal excess are defining features of his body of work, which ranges from prose fiction, literary criticism, and drama to travel writing, treatises, commentaries, and imaginary interviews. This study examines the wealth of Manganelli's imagination - his grotesque animals, speaking corpses, and melancholy spectres - and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models. Following Manganelli's lead, the author addresses issues such as the boundaries of meaningful language, the relationship between literary and visual texts, fantasy and realism, and the power of literature to express the apprehensions and intimations of human consciousness.

Was The Virgin Mary really the naive woman established religions have depicted? No. Mary was an Essene, a high level initiate, a healer, and an authentic Master. What do we truly know of the one whom history calls the mother of God? Thanks to his capacity to penetrate the soul of a being, the author raises a corner of the veil, and blows away the dust of all the false beliefs that we have been inculcated about her. With him we plunge into the richness and beauty of her inner life and we discover a fascinating world of sensitivity, joy, and ecstasy. This remarkable woman is a genuine jewel capable of enriching our lives.

This book offers a survey of the history and archaeology of the Longobards (known until recently as the Lombards), one of the many barbarian tribes who exploited the collapse of the Roman Empire.

Bertolt Brecht's extraordinary historical novel presents an aspiring scholar's efforts to write an idealized life of Julius Caesar twenty years after his death. But the historian abandons his planned biography, confronted by a baffling range of contradictory views. Was Caesar an opportunist, a permanently bankrupt businessman who became too big for the banks to allow him to fail – as his former banker claims? Did he stumble into power while trying to make money, as suggested by the diary of his former slave? Across these different versions of Caesar's career in the political and economic life of Rome, Brecht wryly contrasts the narratives of imperial progress with the reality of grasping self-interest, in a sly allegory that points to the Weimar Republic and perhaps even to our own times. Brecht reminds his readers of the need for constant vigilance and critical suspicion towards the great figures of the past. In an echo of his dramatic theories, the audience is confronted with its own task of active interpretation rather than passive acceptance -- we have to work out our own views about Mr Julius Caesar. This edition is translated by Charles Osborne and features an introduction and editorial notes by Anthony Phelan and Tom Kuhn.

Review of Books

In this magical novel a count from Milan stumbles upon a desolate community of noblemen on an uncharted island off the coast of Portugal. When he discovers, to his astonishment, that their ill-treated servant is in fact a maiden iguana, and then proceeds to fall in love with her, the reader is given a fantastic tale of tragic love and delusion. It ranks among the most affecting in contemporary literature. "The reptilian servant is the first in a series of fantastic touches that transform the narrative into a satire as dense with the echoes of Shakespeare's 'Tempest' and Kafka's 'Metamorphosis.' . . . Iguana is a superb performance." "€"New York Times Book Review
