... describes and analyzes three types of agreements: premarital agreements, postmarital agreements, and domestic partnership agreements. A premarital agreement is a contract between prospective spouses, including same-sex couples, made in contemplation of marriage. A postmarital agreement is a contract executed by parties to an ongoing marriage and not incident to a divorce or marital separation. A domestic partnership agreement, sometimes known as a cohabitation agreement, is a contract executed by a couple whose domestic arrangements may not be state-sanctioned. However, the term also includes such an agreement executed incident to a civil union or registered domestic partnership. Generally, all of these agreements are used to define the property and support rights of the parties upon termination of the marriage or other relationship by death or dissolution. Some parties also opt to include financial obligations during the marriage or other relationship. This Portfolio does not cover separation agreements that settle property rights, spousal and child support obligations, and child custody matters incident to a separation or divorce”--Portfolio description.

It's never too late to have a good divorce Based on two decades of groundbreaking research, The Good Divorce presents the surprising finding that in more than fifty percent of divorces couples end their marriages, yet preserve their families. Dr. Ahrons shows couples how they can move beyond the confusing, even terrifying early stages of breakup and learn to deal with the transition from a nuclear to a "binuclear" family—one that spans two households and continues to meet the needs of children The Good Divorce makes an important contribution to the ongoing "family values" debate by dispelling the myth that divorce inevitability leaves emotionally troubles children in its wake. It is a powerful tonic for the millions of divorcing and long-divorces parents who are tired of hearing only the damage reports. It will make us change the way we think about divorce and the way we divorce, reconfirming our commitment to children and families.

This practical guide clearly outlines the steps involved in obtaining an uncontested divorce in Minnesota, but at the same time can serve as a valuable resource for those who have determined that using an attorney is in their best interest. Includes blank tear-out forms and instructions.

The process of ending a marriage or marital union is called divorce. The process of divorcing a couple usually involves the cancellation or reorganization of their legal obligations and responsibilities. This results in the dissolution of matrimony under the law of that particular country. While divorce laws can vary widely around the globe, most countries require the approval of a court or another authority in a legal proceeding. This could include issues such as child custody, visitation / access and child support. Monogamy is required in most countries. Divorce allows one of the former partners to marry another person. Divorce is different to annulment. This declares the marriage null. There are many reasons for divorce. These can range from incompatibility between the spouses or lack of independence to personality clashes. Only the Vatican City, the Philippines and the British Crown Dependency on Sark allow divorce. Non-Muslim Filipinos cannot divorce unless their husband or wife is an alien who meets certain conditions. The Vatican City, an ecclesiastical country, does not have a divorce procedure. Italy (1970), Portugal (1975), Brazil (1977), Argentina (1987), Paraguay (91), [7] Colombia (1991: since 1976, only non-Catholics were allowed to marry), Andorra (1995),[8] Ireland (1996), Chile (2004), and Malta (2011) are some of the countries that have legalized divorcing. Divorce can be both emotionally and physically draining for all involved. There are many ways to get divorced. Each party can hire a lawyer to represent him or her during the divorce process. They can also choose to work with a mediator to help them reach an amicable agreement. Or, each side can hire a collaborative lawyer to help them work with the other in order to resolve their issues and avoid court.

You can have a divorce by fault, uncontested or contested.

Why are women still at a disadvantage in Chinese divorce courts? Despite the increase of gender consciousness in Chinese society and a trove of legislation to protect women, why are Chinese women still disadvantaged in divorce courts? Xin He argues that institutional constraints to which judges are subject, a factor largely ignored by existing literature, play a crucial role. Twisting the divorce law practices are the bureaucratic incentives of courts and their political concerns for most efficient, and safest, way to handle issues in divorce cases. In so doing, they allow the forces of inequality in social, economic, cultural, and political areas to infiltrate their decisions. Divorce requests are delayed: domestic violence is trivialized; and women's child custody is sacrificed. The institutional failure to enforce the laws has become a major obstacle to gender justice. Divorce in China is the only study of Chinese divorce cases based on fieldwork and interviews conducted in unusual vantage point. Xin He offers a rare and unfiltered view of the operation of Chinese courts in the authoritarian regime. Through a socio-legal perspective highlighting the richness, sophistication, and cutting-edge nature of the research, Divorce in China is as much an account of Chinese courts in action as a social ethnography of China in the midst of momentous social change.
