A thrilling sequel to These Rebel Waves—full of deadly magic, double crosses, and a revolution—from Sara Raasch, the New York Times bestselling author of the Snow Like Ashes series. Perfect for fans of Shannon Hale, Leigh Bardugo, and Marissa Meyer. As a child, she committed unforgivable acts to free Grace Loray from King Elazar of Argrid. Now Elazar’s plan to retake the island has surpassed Lu’s darkest fears: He’s holding her and his son, Ben, captive in an endlessly shifting prison, forcing them to make a weapon that will guarantee Elazar’s success. Escape is impossible—unless Lu becomes the ruthless soldier she hoped never to be again. Vex failed to save Lu and Ben—and that torments him as much as his Shaking Sickness. With the disease worsening, Vex throws himself into the rebellion against Argrid. The remaining free armies are allied with the stream raider syndicates—and getting them to cooperate will take a strength Vex thought burned on a pyre six years ago. Imprisoned, betrayed, and heartbroken, Ben is determined to end his father’s rampage. Watching Elazar sway the minds of Grace Loray as he did those of Argrid, Ben knows he has to play his father’s game of devotion to win this war. But how can a heretic prince defeat the Pious God? As armies clash and magic rises, Lu, Vex, and Ben will confront their pasts . . . or lose their futures forever.

What do the new arrivals on Sandhamn Island have to fear? Their own secrets--in this gripping novel of suspense by the bestselling author of In the Heat of the Moment. The new summer house on Sandhamn Island is an architectural dream for its owner, Carsten Jonsson. It's a nightmare for the locals. The venture capitalist has flouted local traditions, property lines, and the natural beauty of the coastline. He's also too wealthy and arrogant to heed the anonymous warnings to leave. The threats escalate when his guest lodge is burned to the ground and an unidentified corpse is found in the charred ruins. Detective Inspector Thomas Andreasson isn't sure if it's murder or a tragic accident. Until his friend attorney Nora Linde is drawn into the investigation. Nora's emotional investment in Carsten's fragile and fearful wife, Celia, is yielding a new level of suspicion: that the Jonssons are hiding more than anyone can imagine. Now Thomas and Nora must sift through the ashes of a puzzling crime and step into the shadows of a powerful family, whose deadly secrets are coming to light on Sandhamn.

The population of the island of Turos is mercilessly exterminated by the workings of black magic. Only Bashinoir, badly wounded, his wife Lil, and the Priestess Miril have survived. Determined to give their loved ones a worthy burial, the three soon discover that the corpses have disappeared. Their only hope for salvation now lies in the magical protection of the Temple, as sinister threats continue to pursue them. A shadow spreads over their hearts, dividing and destroying them, as their bodies appear to be fading away. Feeling increasingly isolated, Bashinoir watches as the two women grow closer... In the Kingdom of Isk, wizards and wisemen alike must bow down before the insatiable King Bearor, whose greed for power and war is matched only by his hunger for sex. A young woman he has chosen as his next bride does not, however, wish to surrender her freedom to love and live. Will games and tricks under the sheets turn the tide in a war that has lasted thousands of years?

Prison Time, the sequel to Hard Time, is the story of Shaun Attwood's journey through the Arizona Department of Corrections and his deportation to England. Sentenced to nine years in Arizona's state prison for distributing Ecstasy, 'English Shaun' Attwood finds himself living among gang members, sexual predators and drug-crazed psychopaths. After being attacked and stabbed a girlfriend, Shaun writes about the prisoners who befriend, protect and inspire him. They include T-Bone, a massive African American ex-Marine who risks his life saving vulnerable inmates from rape, and Two Tonys, an old-school Mafia murderer who left the corpses of his rivals from Tucson to Alaska. They teach Shaun how to turn incarceration to his adv

Resigned to living alongside violent, mentally-ill, and drug-addicted inmates, Shaun immerses himself in psychology and philosophy to try to make sense of his past behaviour, and begins applying what he learns as he adapts to prison life. Encouraged by Two Tonys to explore fiction as well, Shaun reads over a thousand books which, with support from brilliant psych

development. As his ability to deflect daily threats improves, Shaun begins to look forward to his release with optimism and a new love waiting for him. Yet the words of Aristotle from one of Shaun's books will prove prophetic: 'We cannot learn without pain'.

Nevernight is the first in an epic new fantasy series from the New York Times bestselling author, Jay Kristoff. In a land where three suns almost never set, a fledgling killer joins a school of assassins, seeking vengeance against the powers who destroyed her family. Daughter of an executed traitor, Mia Corvere is barely able to escape her father's failed rebellion with her life. Alone and friendless, she hides in a city built from the bones of a dead god, hunted by the Senate and her father's former comrades. But her gift for speaking with the shadows leads her to the door of a retired killer, and a future she never imagined. Now, a sixteen year old Mia is apprenticed to the deadliest flock of assassins in the entire Republic — the Red Church. Treachery and trials await her with the Church's halls, and to fail is to die. But if she survives to initiation, Mia will be inducted among the chosen of the Lady of Blessed Murder, and one step closer to the only thing she desires. Revenge.

Upset it, with individual gods acting to protect their own positions in an established hierarchy and struggling to gain power over their fellows. The nature of their immortal but not vulnerable bodies, their pleasures, and their needs are considered. What did they eat, the authors ask, and did they feel pain? The second part of the book cites familiar traditions and littleknown texts to explain the relationship of the gods to the pharaoh, who was believed to represent.

Following her acclaimed translation of Swann’s Way, Lydia Davis offers a partial alphabet of Proust translation problems – and their solutions. Godfather to Mussolini, national hero of Italy and the WWI irredentist movement, literary icon of Joyce and Pound,lover of actress Eleonora Duse: here is Lucy Hughes-Hallett's extraordinary biography of Gabriele d'Annunzio, poet, bon vivant, harbinger of Italian fascism. Gabriele d'Annunzio was Italy's premier poet at a time when poetry mattered enough to trigger riots. A brilliant self-publicist in the first age of mass media, he used his fame to sell his work, seduce women, and promote his extreme nationalism. In 1915 d'Annunzio's incendiary oratory helped drive Italy to enter the First World War, in which he achieved heroic status as an aviator. In 1919 he led a troop of mutineers into the Croatian port of Fiume and there a delinquent city-state. Futurists, anarchists, communists, and proto-fascists descended on the city. So did literati and thrill seekers, drug dealers, and prostitutes. After fifteen months an Italian gunship brought the regime to an end, but the adventure had its sequel: three years later, the fascists marched on Rome, belting out anthems they'd learned in Fiume, as Mussolini consciously modeled himself after the great poet. At once an aesthete and a militarist, d'Annunzio wrote with equal enthusiasm about Fortuny gowns and torpedoes, and enjoyed making love on beds strewn with rose petals as much as risking death as an aviator. Lucy Hughes-Hallett's stunning biography vividly re-creates his flamboyant life and dramatic times, tracing the early twentieth century's trajectory from Romantic idealism to world war and fascist aggression.

*Annihilation is the first volume in Jeff VanderMeer’s Southern Reach trilogy. Authority is the second, and Acceptance is the third. Area X—a remote and lush terrain—has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; all the members of the second expedition committed suicide; the third expedition died in a hail of gunfire as its members turned on one another; the members of the eleventh expedition returned as shadows of their former selves, and within months of their return, all had died of aggressive cancer. This is the twelfth expedition. Their group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain and collect specimens; to record all their observations, scientific and otherwise, of their surroundings and of one another; and, above all, to avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it’s the surprises that came across the border with them, and the secrets the expedition members are keeping from one another, that change everything. After the disastrous twelfth expedition chronicled in Annihilation, the Southern Reach—the secret agency that monitors these expeditions—is in disarray. In Authority, John Rodriguez, aka “Control,” is the team’s newly appointed head. From a series of interrogations, a cache of hidden notes and hours of profoundly troubling video footage, the secrets of Area X begin to reveal themselves—and what they expose pushes Control to confront disturbing truths about both himself and the agency he’s promised to serve. And the consequences will*

*spread much further than that. It is winter in Area X in Acceptance. A new team embarks across the border on a mission to find a member of a previous expedition who may have been left behind. As they press deeper into the unknown—navigating new terrain and new challenges—the threat to the outside world becomes more daunting. The mysteries of Area X may have been solved, but their consequences and implications are no less profound—or terrifying.*

A young woman moves across an ocean to uncover the truth about her grandparents' mysterious estrangement and pieces together the extraordinary story of their wartime experiences In 1948, after surviving World War II by escaping Nazi-occupied France for refugee camps in Switzerland, Miranda's grandparents, Anna and Armand, bought an old stone house in a remote, picturesque village in the South of France. Five years later, Anna packed her bags and walked out on Armand, taking the typewriter and their children. Aside from one brief encounter, the two never saw or spoke to each other again, never remarried, and never revealed what had divided them forever. A Fifty-Year Silence is the deeply involving account of Miranda Richmond Mouillot's journey to find out what happened between her grandmother, a physician, and her grandfather, an interpreter at the Nuremberg Trials, who refused to utter his wife's name aloud after she left him. To discover the roots of their embittered and entrenched silence, Miranda abandons her plans for the future and moves to their stone house, now a crumbling ruin; immerses herself in letters, archival materials, and secondary sources; and teases stories out of her reticent, and declining, grandparents. As she reconstructs how Anna and Armand braved overwhelming odds and how the knowledge her grandfather acquired at Nuremberg destroyed their relationship, Miranda wrestles with the legacy of trauma, the burden of history, and the complexities of memory. She also finds herself learning how not only to survive but to thrive—making a home in the village and falling in love. With warmth, humor, and rich, evocative details that bring her grandparents' outside characters and their daily struggles vividly to life, A Fifty-Year Silence is a heartbreaking, uplifting love story spanning two continents and three generations.

*In 1922, Howard Carter peered into Tutankhamun’s tomb for the first time, the only light coming from the candle in his outstretched hand. Urged to tell what he was seeing through the small opening he had cut in the door to the tomb, the Egyptologist famously replied, “I see wonderful things.” Carter’s fabulous discovery is just one of the many spellbinding stories told in Three Stones Make a Wall. Written by Eric Cline, an archaeologist with more than thirty seasons of excavation experience, this book traces the history of archaeology from an amateur pursuit to the cutting-edge science it is today by taking the reader on a tour of major archaeological sites and discoveries. Along the way, it addresses the questions archaeologists are asked most often: How do you know where to dig? How are excavations actually done? How do you know how old something is? Who gets to keep what is found? Taking readers from the pioneering digs of the eighteenth century to today’s exciting new discoveries, Three Stones Make a Wall is a lively and essential introduction to the story of archaeology.*
