Cadan is their one chance at safety. But Lin is too valuable to let go, and Elissa has knowledge that is too dangerous. The government will stop at nothing to get them back. "Action-packed and thoroughly engrossing, this novel offers readers a classic sci-fi, space-travel adventure at its best" (BCCB).

A newborn's absent face appears on the back of someone else's head, a filmmaker goes to gruesome lengths to achieve the perfect silence he's after for his final scene, and a therapist begins, impossibly, to appear in a troubled patient's room late at night. In these stories of doubt, delusion, and paranoia, no belief, no claim to objectivity, is immune to the distortions of human perception. Here, self-deception is a means of justifying our most inhuman impulses—whether we know it or not.

And I’m singing my soul out. Fans of Once Upon a Time and Julie Kagawa, brace yourselves.” —Mary Weber, award-winning author of the Storm Siren Trilogy* Eliyana can’t bear to look at her own reflection. With a birthmark covering half her face, she just hopes to graduate high school unscathed. That is, until Joshua hops a fence and changes her perspective. No one, aside from her mother, has ever treated her like he does: normal. Maybe even beautiful. Because of Joshua, Eliyana finally begins to believe she could be loved. But one night her mother doesn’t come home, and that’s when everything gets weird. Now Joshua is her new, and rather reluctant, legal Guardian. Longlisted for the FT/McKinsey Business Book of the Year Award A groundbreaking chronicle of the birth--and death--of a pair of jeans, that exposes the fractures in our global supply chains, and our relationships to each other, ourselves, and the planet Take a look at your favorite pair of jeans. Maybe you bought them on Amazon or the Gap; maybe the tag says "Made in Bangladesh" or "Made in Sri Lanka." But do you know where they really came from, how many thousands of miles they crossed, or the number of hands who picked, spun, wove, dyed, packaged, shipped, and sold them to get to you? The fashion industry operates with radical opacity, and it's only getting worse to disguise countless environmental and labor abuses. It epitomizes the ravages inherent in the global economy, and all in the name of ensuring that we keep buying more while thinking less about its real cost. In Unraveled, entrepreneur, researcher, and advocate Maxine Bédard follows the life of an American icon--a pair of jeans--to reveal what really happens to give us our clothes. We visit a Texas cotton farm figuring out how to thrive without relying on fertilizers that poison the earth. Inside dyeing and weaving factories in China, where chemicals that are banned in the West slosh on factory floors and drain into waterways used to irrigate local family farms. Sewing floors in Bangladesh and Sri

Lanka are crammed with women working for illegally low wages to produce garments as efficiently as machines. Back in America, our jeans get stowed, picked, and shipped out by Amazon warehouse workers pressed to be as quick as the robots primed to replace them. Finally, those jeans we had to have get sent to landfills--or, if they've been "donated," shipped back around the world to Africa, where they're sold for pennies in secondhand markets or buried and burned in mountains of garbage. A sprawling, deeply researched, and provocative tour-de-force, Unraveled is not just the story of a pair of pants, but also the story of our global economy and our role in it. Told with piercing insight and unprecedented reporting, Unraveled challenges us to use our relationship with our jeans--and all that we wear--to reclaim our central role as citizens to refashion a society in which all people can thrive and preserve the planet for generations to come.

#1 NEW YORK TIMES BESTSELLER • From the author of *Small Great Things* and *A Spark of Light* comes a “powerful” (The Washington Post) novel about the choices that alter the course of our lives. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY

**MARIE CLAIRE** Everything changes in a single moment for Dawn Edelstein. She's on a plane when the flight attendant makes an announcement: Prepare for a crash landing. She braces herself as thoughts flash through her mind. The shocking thing is, the thoughts are not of her husband but of a man she last saw fifteen years ago: Wyatt Armstrong. Dawn, miraculously, survives the crash, but so do all the doubts that have suddenly been raised. She has led a good life. Back in Boston, there is her husband, Brian, their beloved daughter, and her work as a death doula, in which she helps ease the transition between life and death for her clients. But somewhere in Egypt is Wyatt Armstrong, who works as an archaeologist unearthing ancient burial sites, a career Dawn once studied for but was forced to abandon when life suddenly intervened. And now, when it seems that fate is offering her second chances, she is not as sure of the choice she once made. After the crash landing, the airline ensures that the survivors are seen by a doctor, then offers transportation to wherever they want to go. The obvious destination is to fly home, but she could take another path: return to the archaeological site she left years before, reconnect with Wyatt and their unresolved history, and maybe even complete her research on *The Book of Two Ways*—the first known map of the afterlife. As the story unfolds, Dawn's two possible futures unspool side by side, as do the secrets and doubts long buried with them. Dawn must confront the questions she's never truly asked: What does a life well lived look like? When we leave this earth, what do we leave behind? Do we make choices . . . or do our choices make us? And who would you be if you hadn't turned out to be the person you are right now?

Challenging traditional accounts of the origins of astrophysics, this book presents the first scholarly biography of nineteenth-century English amateur astronomer William Huggins (1824–1910). A pioneer in adapting the spectroscope to new astronomical purposes, William Huggins rose to scientific prominence in London and transformed professional astronomy to become a principal founder of the new science of astrophysics. The author re-examines his life and career, exploring unpublished notebooks, correspondence and research projects to expose the boldness of this scientific entrepreneur. While Sir William Huggins is the main focus of the book, the involvement of Lady Margaret Lindsay Huggins (1848–1915) in her husband's research is examined, where it may have been previously overlooked or obscured. Written in an engaging style, this book has broad appeal and will be valuable to scientists, students and anyone interested in the history of astronomy.

Fans couldn't get enough of them, their music, and the drama that followed them like moths to a flame--until the group's sudden implosion in 2002. And at the center of it all was Sassy Cassy, the Texan with a signature smirk that had everyone falling for her. But now she's dead. Suicide. The world is reeling from this unexpected news, but no one is more shocked than the three remaining bandmates. Fifteen years ago, Rose, Merry, and Yumi had been the closest to Cassidy, and this loss is hitting them hard. Before the group split, they each had a special bond with Cassidy--truths they told, secrets they shared. After years apart, each is wondering: what could they have done? Told in multiple perspectives--including Cassidy herself--and different timelines, this is a behind-the-scenes look into the rise and fall of a pop icon, and a penetrating examination of the dark side of celebrity and the industry that profits from it.

A New York Times Notable Book of 2020 "[A] sweeping and authoritative history" (The New York Times Book Review), Black Wave

is an unprecedented and ambitious examination of how the modern Middle East unraveled and why it started with the pivotal year of 1979. Kim Ghattas seamlessly weaves together history, geopolitics, and culture to deliver a gripping read of the largely unexplored story of the rivalry between Saudi Arabia and Iran, born from the sparks of the 1979 Iranian revolution and fueled by American policy. With vivid story-telling, extensive historical research and on-the-ground reporting, Ghattas dispels accepted truths about a region she calls home. She explores how Sunni Saudi Arabia and Shia Iran, once allies and twin pillars of US strategy in the region, became mortal enemies after 1979. She shows how they used and distorted religion in a competition that went well beyond geopolitics. Feeding intolerance, suppressing cultural expression, and encouraging sectarian violence from Egypt to Pakistan, the war for cultural supremacy led to Iran's fatwa against author Salman Rushdie, the assassination of countless intellectuals, the birth of groups like Hezbollah in Lebanon, the September 11th terrorist attacks, and the rise of ISIS. Ghattas introduces us to a riveting cast of characters whose lives were upended by the geopolitical drama over four decades: from the Pakistani television anchor who defied her country's dictator, to the Egyptian novelist thrown in jail for indecent writings all the way to the murder of journalist Jamal Khashoggi in the Saudi consulate in Istanbul in 2018. *Black Wave* is both an intimate and sweeping history of the region and will significantly alter perceptions of the Middle East.

The Great Unraveling: Losing Our Way in the New Century

*Papa says everyone has a story that deserves to be told. Most begin years ago, after the second bomb hit, unearthing a deadly contagion that divided the population into the pure, the infected, and the Ragers. Many recount the moment we rose up from the ashes and started anew. Others tell of the day we built a wall to keep them out. For some, they're nothing more than the vestiges left behind—a simple name carved into the knotty bark of a Juniper tree. My story begins with a boy. A mute, from the other side of the wall, known only as Six, who touched my heart in ways that words never could, and gave me the courage to face my darkest truth. Juniper Unraveling is a full-length standalone romance set in a post-apocalyptic world.*

*This book is about unraveling the layers of our lives, delving beneath the surface in order to better understand ourselves, our relationships, and our path. Author Susannah Conway uncovered this process following a tragedy—the sudden death of the man she loved. In sharing her journey of self-discovery first through her blog, then her online courses, and now in these pages, she reveals how grief reshaped her life and led her to reconnect with her creativity, make peace with her past, and learn to appreciate herself. This is a guidebook of sorts, a collection of thoughts and theories, each chapter culminating in a small creative exercise for the reader to reflect upon and apply to her own life. The author's signature dreamy Polaroid images are also included throughout. Conway reminds readers that they are not alone, that living mindfully is a process, and that unraveling is not about coming undone or losing control, but rather letting go in the best possible way. By untangling the knots*

*Like The Forest of Hands and Teeth, Elizabeth Norris's Unraveling blends realistic coming-of-age issues with a gripping science fiction world. Unraveling's heroine, sixteen-year-old Janelle Tenner, is used to having a lot of responsibility. She balances working as a lifeguard in San Diego with an intense academic schedule. Janelle's mother is bipolar, and her dad is a workaholic FBI agent, which means Janelle also has to look out for her younger brother, Jared. And that was before she died...and is brought back to life by Ben Michaels, a mysterious, alluring loner from her high school. When she discovers a strange clock that seems to be counting down to the earth's destruction, Janelle learns she has twenty-four days to figure out how to stop the clock and save the planet.*

*When Carl sells a box of slimming pills to his close friend Stacey, inadvertently causing her death, he sets in train a sequence of catastrophic events which begin with subterfuge, extend to lies, and culminate in murder. In Rendell's dark and atmospheric tale of psychological suspense, we encounter mistaken identity, kidnap, blackmail, and a cast of characters who are so real that we come to know them better than we know ourselves. Infused with her distinctive blend of wry humour, acute observation and deep humanity, this is Rendell at her most memorable and best.*
