In Dec. 2008, the FBI implemented a new DIOG, which described the procedures its employees must follow when conducting domestic investigations. The FBI implemented comprehensive training on the DIOG for approx. 20,000 FBI agents, analysts, and technicians. These employees were required to complete 16.5 hours of live classroom-style training. Moreover, after taking this training, the employees had to take and pass a written, computerized 51-question exam concerning the DIOG. Because of the concerns that there may have been widespread assistance given during the exam, in January 2010 this investigation was begun related to the DIOG exam. This is a print on demand edition of an important, hard-to-find report.
