Situated in the heart of the magnificent Southwest, Las Vegas is surrounded by spectacular natural landscapes. Within easy reach are five national parks, including Zion, Grand Canyon, and Death Valley. Dozens of state parks, regional preserves, recreation areas, and public lands offer amazing variety, from sand dunes and salt flats to alpine meadows, waterfalls, and ancient forests. Unique plant and animal life as well as archaeology, paleontology, and fascinating Wild West history are all waiting to be discovered in this region, making Las Vegas an ideal basecamp: Hikers can enjoy solitude and unspoiled wilderness by day and world-class urban amenities by night. Base Camp Las Vegas includes 101 of the best hiking destinations within hours of Las Vegas. The author has hiked each of the 101 featured routes more than once, and she describes each in detail, including route, elevations, terrain, flora & fauna, and historical details. She notes the best season for enjoying each one, what to wear, and what to take along. She describes any hazards or inconveniences that hikers might encounter and rates the difficulty of each hike from easy to strenuous. She's also included an easy-reference guide to the top five hikes in a variety of categories including birdwatching, stargazing, wildflowers, wetlands, kid and teen favorites, most strenuous, and most remote. Base Camp Las Vegas tells hikers where and when to go--and also how to prepare--to enjoy the best trails this unparalleled region has to offer.

New parents and parents of toddlers face unique challenges when it comes to planning outdoor trips. "Family-friendly trail" is often a misleading phrase, and doesn't take young children under the age of 5 into consideration, whose safety and comfort require a different perspective. The unpredictable nature of little ones leads many parents to put their adventure dreams on the back burner, missing out on years of meaningful experiences as a family. Hike it Baby presents 100 outdoor adventures across the U.S. that you can take with babies and toddlers (really!), along with everything you need to know about exploring the natural world. Sourced from real families using Hike it Baby's trail-tested system, this book helps moms and dads get out there in their comfort zone, yet feel like hardcore adventurers! Whether you've always wanted to hike part of the Appalachian Trail, splash around in gentle Northwest waterfalls, or scramble up rocks in the desert surrounded by Joshua Trees, this book shows you how to plan a truly memorable journey together.

Each park offers visitors the dramatic scenery that invites exploration and discovery. In *50 Best Short Hikes in Utah's National Parks*, veteran hiking guide Greg Witt shares the best routes in each park, hikes that are both “must see” and accessible. Park visitors who are short on time will find this book to be the ideal traveling companion, quickly helping readers identify the hikes and sights, making the best use of their time and provide maximum enjoyment. Each hike in the book includes distances, highlights, area maps, and easy-to-follow trailhead directions to make hike selection fast and efficient. Once on the trail, the detailed maps, route description, and interpretive details insure that hikers get the most out of their trip. Even avid hikers and experienced desert explorers will find new insights and discoveries as Witt's interesting and approachable style details the geologic forces that created this landscape. He brings to life the human history—prehistoric cliff-dwellers, native tribes, ranchers, farmers, loggers, miners, and outlaws—that adds to the color of the Colorado Plateau where these five parks are set.

**This guide is about hiking and generally exploring desert areas, specifically southwest Utah and adjacent areas (southern Nevada and northern Arizona). There is no better way to experience the ruggedness, the history of settlement by Native Americans and later pioneers, and the solitude than by simply hiking and exploring. My purpose in writing this book is to enhancement the enjoyment of all who wish to sample the richness of southwest Utah and adjacent areas. My wife, Deb Looker, accompanied me on every hike. This book is a testament to her love of the outdoors as much as mine. Through trial and error from scores of hikes, reading many hiking books, and much Internet research, we have become experienced desert hikers. More than 25 years ago we began seriously exploring the American southwest. During the first several years we concentrated on areas fairly close to our then home in Santa Barbara, California-the Mojave Desert around Barstow and Baker and Death Valley. We later branched out to Joshua Tree National Park and Anza-Borrego Desert State Park in south central California. In the early 2000s Arizona became a favorite destination. Finally, we began exploring southern Utah in 2006. In the fall of 2009 we left California and settled in St. George, Utah. St. George is a great**

base camp for adventures in southwest Utah, southern Nevada, and northern Arizona. While we much enjoy the grandeur of big name desert national parks-Death Valley, Zion, Bryce Canyon, the Grand Canyon, and others-our preference is hard to find, out of the bustle of humanity, slot canyons. Fortunately, the area we choose to live is full of slot canyons. This book was originally published in 2014. One would think not much changes regarding hiking trails. Wrong. For example, at the end of each story I provide Internet links to web sites with more information about the hike. Many of the links are missing as of January/February 2018 and almost all have been updated. With a bit of computer work, I have updated or provided new links where necessary. Some of the stories required updating since entrance fees or other minor details have changed. One hike, Sloan Canyon National Conservation Area, near Las Vegas now has a totally different approach to the trailhead. Instead of needing a high clearance vehicle to navigate a very rocky dirt road, one can now easily reach the trailhead in a standard vehicle. As of March 2018, the information in this hiking guide is correct for all trails according to my online research and personal experience in re-visiting some of the hikes. Happy trails.
