NEW YORK TIMES BESTSELLER SHORTLISTED FOR THE NATIONAL BOOK AWARD 2021 A BARACK OBAMA BEST BOOKS PICK 2021 'Lush, gripping and ferocious, MATRIX is animated with sensual detail on every page' MADELINE MILLER 'An audacious piece of storytelling, full of passion, wisdom and magic' SARAH WATERS 'A gorgeous, sensual, addictive read' SARA COLLINS Seventeen-year-old Marie, too wild for courtly life, is thrown to the dogs one winter morning, expelled from the royal court to become the prioress of an abbey. Marie is strange - tall, a giantess, her elbows and knees stick out, ungainly. At first taken aback by life at the abbey, Marie finds purpose and passion among her mercurial sisters. Yet she deeply misses her secret lover Cecily and queen Eleanor. Born last in a long line of women warriors and crusaders, women who flew across the countryside with their sword fighting and dagger work, Marie decides to chart a bold new course for the women she now leads and protects. She will bring herself, and her sisters, out of the darkness, into riches and power. MATRIX is a bold vision of female love, devotion and desire from one of the most adventurous writers at work today. 'A thrillingly vivid, adventurous story about women and power that will blow readers' minds. Left me gasping.' EMMA DONOGHUE 'Both epic and intimate, this sweeping novel explores questions of female ambition, creativity and passion with electrifying prose and sparkling wit. A propulsive, captivating read' BRIT BENNETT 'A dazzlingly clever tale' THE TIMES 'A remarkable novel: unusual, profound, transcendental' EVENING STANDARD

Meet Yinka: a thirty-something, Oxford-educated, British Nigerian woman with a well-paid job, good friends, and a mother whose constant refrain is "Yinka, where is your huzband?" Yinka's Nigerian aunties frequently pray for her delivery from singledom, her work friends think she's too traditional (she's saving herself for marriage!), her girlfriends think she needs to get over her ex already, and the men in her life . . . well, that's a whole other story. But Yinka herself has always believed that true love will find her when the time is right. Still, when her cousin gets engaged, Yinka commences Operation Find-A-Date for Rachel's Wedding. Aided by a spreadsheet and her best friend, Yinka is determined to succeed. Will Yinka find herself a huzband? And what if the thing she really needs to find is herself? Yinka, Where Is Your Huzband? brilliantly subverts the traditional romantic comedy with an unconventional heroine who bravely asks the questions we all have about love. Wry, acerbic, moving, this is a love story that makes you smile but also makes you think--and explores what it means to find your way between two cultures, both of which are yours.

The Poetical Works of Henry Wadsworth Longfellow

The perfect getaway turns into a nightmare when a girl vanishes without a trace in this horror novel that could only have come from the mind of Bram Stoker Award-winning author Bentley Little. Gary, his girlfriend, Joan, and their friends intend to make the most of their three day vacation from UCLA partying at Burning Man. But soon after they arrive at the festival in the remote desert, Joan disappears. Calls to her parents' home yield only dead air. Her school records are gone. And there's no evidence that Joan, or even her roommate, ever existed. Most disturbing of all is what they do find. Among Joan's belongings is a prayer written on a small scroll. It's a safeguard--and a warning--from something called The Outsiders. For Gary and his friends it's the only clue. Now, if they want to find out exactly what happened to Joan, they must follow it. But they may not like what they uncover....

For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers--such as Henry Mancini, Randy Newman, and John Williams--have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

Sea and Sardinia

A Novel

## La Commedia di Dante Alighieri fiorentino

In the years of the Reagan – Bush era, the controversy over ‘ political correctness ’ erupted on American campuses, spreading to the mainstream media as right-wing pundits like Dinesh D ’ Souza and Roger Kimball prosecuted their publicity campaign against progressive academics. Michael B é rub é ’ s brilliant new book explains how and why the political correctness furore emerged, and how the right ’ s apparent stranglehold on popular opinion about the academy can be loosened. Traversing the terrain of contemporary cultural criticism, B é rub é examines the state of cultural studies, the significance of postmodernism, the continuing debate over multicultural curricula, and the recent revisions of literary history in American studies. Also included is B é rub é ’ s witty and self-deprecating autobiographical reflection on why interpretive theory has emerged as an indispensable part of education in the humanities over the past decade. Public Access insists that academics must exercise more responsibility towards the publics who underwrite but often misunderstand their work and its significance. Taken seriously as a potential audience, B é rub é argues, such publics can be weaned from their present inclination to believe the distortions and half-truths peddled by the right ’ s ideologues. The goal of such ‘ public access ’ criticism is not just a better environment for teachers and scholars, but a world in which education itself achieves its proper place in a society committed to equality of opportunity and true critical thinking.

Guide to Earthwork Construction

Witchcraft and the Inquisition in Venice, 1550-1650

*Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel *The Name of the Rose*, he was one of Italy's most celebrated intellectuals, a distinguished academic and the author of influential works on semiotics. Some years before that, in 1977, Eco published a little book for his students, *How to Write a Thesis*, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and translated into seventeen languages, *How to Write a Thesis* has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. *How to Write a Thesis* is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid “thesis neurosis” and he answers the important question “Must You Read Books?” He reminds students “You are not Proust” and “Write everything that comes into your head, but only in the first draft.” Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. *How to Write a Thesis* belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit nicely between two other classics: *Strunk and White* and *The Name of the Rose*. Contents The Definition and Purpose of a Thesis • Choosing the Topic • Conducting Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft*

*The purpose of this Guide is to provide construction engineers and technicians with information on all aspects of earthwork construction. Although it is not intended to be a design manual, it does contain considerable background on the design concepts that are necessary for good earthwork construction. ***Ugliness or unsightliness is much more than a quality or property of an individual's appearance—it has long functioned as a social category that demarcates access to social, cultural, and political spaces and capital. The editors of and authors in this collection harness intersectional and interdisciplinary approaches in order to examine ugliness as a political category that is deployed to uphold established notions of worth and entitlement. On the Politics of Ugliness identifies and challenges the harmful effects that labels and feelings of ugliness have on individuals and the socio-political order. It explores ugliness in relation to the intersectional processes of racialization, colonization and settler colonialism, gender-making, ableism, heteronormativity, and fatphobia. On the Politics of Ugliness asks that we fight against visual injustice and imagine new ways of seeing.***

***“Halting State [is] a near-future story that is at once over-the-top and compellingly believable.” - Vernor Vinge, author of Rainbows End In the year 2018, Sergeant Sue Smith of the Edinburgh constabulary is called in on a special case. A daring bank robbery has taken place at Hayek Associates—a dot-com start-up company that's just floated onto the London stock exchange. But this crime may be a bit beyond Smith's expertise. The prime suspects are a band of marauding orcs with a dragon in tow for fire support. The bank is located within the virtual reality land of Avalon Four, and the robbery was supposed to be impossible. When word gets out, Hayek Associates and all its virtual “economies” are going to crash hard. For Smith, the investigation seems pointless. But the deeper she digs, the bigger the case gets. There are powerful players—both real and pixelated—who are watching her every move. Because there is far more at stake than just some game-head's fantasy financial security...***

Meet Edinburgh Detective Inspector Liz Kavanaugh, head of the Innovative Crimes Investigation Unit, otherwise known as the Rule 34 Squad. They monitor the Internet for potential criminal activity, analyzing trends in the extreme fringes of explicit content. And occasionally, even more disturbing patterns arise... Three ex-cons have been murdered in Germany, Italy, and Scotland. The only things they had in common were arrests for spamming—and a taste for unorthodox entertainment. As the first officer on the scene of the most recent death, Liz finds herself sucked into an international investigation that isn't so much asking who the killer is, but what—and if she doesn't find the answer soon, the homicides could go viral.

From #1 New York Times bestselling author Stephen King whose "storytelling transcends genre" (Newsday) comes "another winner: creepy and touching and horrifyingly believable" (The Boston Globe) about a group of kids confronting evil. In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis's parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as Firestarter, and with the spectacular kid power of It, The Institute is "first-rate entertainment that has something important to say. We all need to listen" (The Washington Post).

Incorporating the Hugo & Nebula award-nominated novella "Identity Theft" The name's Lomax—Alex Lomax. I'm the one and only private eye working the mean streets of New Klondike, the Martian frontier town that sprang up forty years ago after Simon Weingarten and Denny O'Reilly discovered fossils on the Red Planet. Back on Earth, where anything can be synthesized, the remains of alien life are the most valuable of all collectibles, so shiploads of desperate treasure hunters stampeded here in the Great Martian Fossil Rush. I'm trying to make an honest buck in a dishonest world, tracking down killers and kidnappers among the failed prospectors, the corrupt cops, and a growing population of transfers—lucky stiffs who, after striking paleontological gold, upload their minds into immortal android bodies. But when I uncover clues to solving the decades-old murders of Weingarten and O'Reilly, along with a journal that may lead to their legendary mother lode of Martian fossils, God only knows what I'll dig up...
