Late in the 15th century the discovery of the New World revealed to the Europeans the existence of peoples and cultures whose forms of artistic and intellectual expression were totally different to their own but of immense appeal. While at that time the white Conquistadores had no interest in and were perhaps incapable of appreciating and respecting this cultural heritage, for some considerable time now the so-called "pre-Columbian civilisations" have been rediscovered and archaeologists are attempting to reconstruct their marvellous cultural mosaic, the roots of which lie in an historical substrata predating the Christian era by some thousands of years. The aim of this book is to trace the development of some of the civilisations that emerged in the Mesoamerican region and gave rise to surprisingly advanced and sophisticated cities. The Olmecs, Maya, Aztecs and other less well known groups have in fact left extraordinary evidence of their passing in the form of great architectural complexes, monumental sculptures, ceramics, jewellery and surprising written records that have only recently given up their secrets. This volume also intends to underline the importance of the so-called minor cultures that have until now been unknown to the public at large but which nonetheless contributed to the economic and

cultural development of pre-Columbian Mesoamerica. The work is characterised by a dual scientific and generalist approach to provide all readers with in-depth information - that is both stimulating and comprehensible - concerning a world that is still far from contemporary models. Concise but exhaustive captions, comprehensive iconographical references, numerous colour plates, line drawings and black and white maps complement the text and contextualise the cultural parallels and ideologies of the various civilisations in question within the chronological sequence in the most reliable and attractive manner possible.

An astonishing, revelatory, and redemptive memoir from two women who escaped the international drug trade, with never-before-revealed details about El Chapo, the Sinaloa Cartel, and the dangerous world of illicit drugs. Olivia and Mia Flores are married to the highest level drug traffickers ever to become US informants. Their husbands worked with--and then brought down--El Chapo, as well as dozens of high-level members of the Mexican cartels. They had everything money could buy: luxury cars, huge houses, and expensive jewelry--but they chose to give it all up when they cooperated with the US government. They knew that life was about more than wealth; it was about love, family, and doing what's right. Cartel Wives is a love story, a "Married to the Mob" story, an insider's look into the terrifying but high-flying empire of the new world of

drugs, and, finally, the story of a major DEA and FBI operation.

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous

countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

An instant New York Times bestseller, Dan Lyons' "hysterical" (Recode) memoir, hailed by the Los Angeles Times as "the best book about Silicon Valley," takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. "I think they just want to hire younger people," his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They

offered Dan a pile of stock options for the vague role of "marketing fellow." What could go wrong? HubSpotters were true believers: They were making the world a better place ... by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; "shower pods" became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the "content factory," Nerf gun fights raged. Groups went on "walking meetings," and Dan's absentee boss sent cryptic emails about employees who had "graduated" (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball "chair."

I've begged God for forgiveness, but I won't know till the day I die if He has truly forgiven me ... I've paid my dues to society by serving my long sentence, but perhaps I haven't earned His indulgence ... Oh my God, I've lived so many different lives! I survived Pablo Escobar Gaviria, El Patrón (The Boss), and it was the strength of his indomitable spirit that kept me going all these years; I don't quite know how or why. I still feel his presence every day of my existence. The Medellin cartel's crimes weigh as heavily on my shoulders today as they did yesterday. My youth, wasted in crime, became the sword that now hangs over my graying head. To the world, I'll always be known by my alias, Popeye, the fearsome hitman of the Medellin cartel, Pablo Escobar Gaviria's right-hand man ... How

can I make you understand I'm a new man ... that twenty-three years behind bars in that hellhole have transformed the person I once was. Now the freedom I yearned for is vanishing in the murderous hands of my enemies. Perhaps fate has extended my life only to toy with me by preparing my own dying moments. I survived in captivity but I don't know if I'll be able to live in freedom ... A prisoner of my own mind, I'll try to fight to find some peace ... It's very cold ... now it's August 2014. I'm one step from freedom and I'm still breathing ... still here in this dimly lit cell in the maximum security prison in Cómbita, Boyacá.

“Malcolm Beith risked life and limb to tell the inside story of Joaquín ‘El Chapo’ Guzmán Loera, Mexico’s notorious drug capo.” —George W. Grayson, author of Mexico: Narco-Violence and a Failed State? The dense hills of Sinaloa, Mexico, were home to the most powerful drug lord since Pablo Escobar: Joaquín “El Chapo” Guzman. Guzman was among the world’s ten most wanted men and also appeared on

Forbes magazine's 2009 billionaire list. With his massive wealth, his army of professional killers, and a network of informants that reached into the highest levels of government, catching Guzman was once considered impossible. Newly isolated by infighting amongst the cartels, and with Mexican and DEA authorities closing in, El Chapo was vulnerable as never before. Newsweek correspondent Malcolm Beith had spent years reporting on the drug wars and followed the chase with full access to senior officials and exclusive interviews with soldiers and drug traffickers in the region, including members of Guzman's cartel. The Last Narco combines fearless reporting with the story of El Chapo's legendary rise from a poor farming family to the "capo" of the world's largest drug empire. "The Last Narco gracefully captures the heroic struggle of those who dare to stand up to the cartels, and the ways those cartels have tragically corrupted every aspect of Mexican law enforcement." —Laura Bickford, producer, Traffic

In this unprecedented and chilling monologue, a repentant Mexican hitman tells the unvarnished truth about the war on drugs and reveals why the violence that now defines the American-Mexican border will only worsen.

In the spirit of a young Barack Obama's *Dreams from My Father*, comes a candid and compelling memoir about race and poverty in America. In many ways, there was no reason Julian Castro would have been expected to be a success. Born to unmarried parents in a poverty-stricken neighborhood of a struggling city, his prospects of escaping his circumstance seemed bleak. But he and his twin brother Joaquin had something going for them: their mother. A former political activist, she provided the launch pad for what would become an astonishing

ascent. Julian and Joaquin would go on to attend Stanford and Harvard before entering politics at the ripe age of 26. Soon after, Joaquin become a state representative and Julian was elected mayor of San Antonio, a city he helped revitalize and transform into one of the country's leading economies. His success in Texas propelled him onto the national stage, where he was the keynote speaker at the 2012 DNC--the same spot President Obama held three conventions prior--and then to Washington D.C. where he served as the Obama Administration's Secretary of Housing and Urban Development. After being shortlisted as a potential running mate for Hillary Clinton, he is now seen by many as a future presidential candidate. Julian Castro's story not only affirms the American dream, but also resonates with millions, who in an age of political cynicism and hardening hearts are searching for a new hero. No matter one's politics, this book is the transcendent story of a resilient family and the unlikely journey of an emerging national icon.

Ancient Mexico

World Without Order

Durante mi niñez y adolescencia fui testigo de una cultura popular del pionero del oro negro en México, Ébano, S.L.P., me resultó singular el origen de ese pueblo, su historia, sus “fuerzas vivas”, todo lo que se generaba a través de sus formas de pensar, de trabajar, de divertirse, pero sobre todo de comunicarse. Durante los primeros cincuenta años del siglo XX El Ébano, como se le conocía, escribió páginas de la historia del petróleo en México que moldeó el carácter e identidad del ebanense, buena parte de esa historia se proyecta en anécdotas, apodos y ocurrencias que surgieron de esa comunidad heterogénea de origen, pero solidarios en sus tristezas y alegrías. La Sociología, la Lingüística, y la Pedagogía son los andamios con los cuales se construye la narrativa empírica de la anécdota, del apodo y de la ocurrencia, para dar paso a la microhistoria de ese terruño de la huasteca potosina. El contenido de este ensayo refleja entonces, el lenguaje, el humorismo, la agilidad de pensamiento para divertir, reconocer o halagar, pero también para ofender si de agredir se trata. Todo este bagaje cultural se gesta en el contexto del gremio petrolero en el Campo Ébano, su “inercia” forma parte de la historia que las nuevas generaciones de petroleros y ebanenses merecen conocer y valorar.

A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years. On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

NATIONAL BOOK CRITICS CIRCLE NOMINEE • A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • NEW YORK TIMES BEST SELLER • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of *Say Nothing* The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. The Sackler name has adorned the walls of many storied institutions—Harvard, the Metropolitan Museum of

Art, Oxford, the Louvre. They are one of the richest families in the world, known for their lavish donations to the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. *Empire of Pain* begins with the story of three doctor brothers, Raymond, Mortimer and the incalculably energetic Arthur, who weathered the poverty of the Great Depression and appalling anti-Semitism. Working at a barbaric mental institution, Arthur saw a better way and conducted groundbreaking research into drug treatments. He also had a genius for marketing, especially for pharmaceuticals, and bought a small ad firm. Arthur devised the marketing for Valium, and built the first great Sackler fortune. He purchased a drug manufacturer, Purdue Frederick, which would be run by Raymond and Mortimer. The brothers began collecting art, and wives, and grand residences in exotic locales. Their children and grandchildren grew up in luxury. Forty years later, Raymond's son Richard ran the family-owned Purdue. The template Arthur Sackler created to sell Valium—co-opting doctors, influencing the FDA, downplaying the drug's addictiveness—was employed to launch a far more potent product: OxyContin. The drug went on to generate some thirty-five billion dollars in revenue, and to launch a public health crisis in which hundreds of thousands would die. This is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. *Empire of Pain* chronicles the multiple investigations of the Sacklers and their company, and the scorched-earth legal tactics that

the family has used to evade accountability. Empire of Pain is a masterpiece of narrative reporting and writing, exhaustively documented and ferociously compelling. It is a portrait of the excesses of America's second Gilded Age, a study of impunity among the super elite and a relentless investigation of the naked greed and indifference to human suffering that built one of the world's great fortunes.

The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a "high warning"-or worse- in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.1 State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding

state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.² A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan

have adopted the symbolic violence of terrorists-the propaganda of the deed-to secure their "turf." And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

National Bestseller National Book Critics Circle Award Nominee From the Pulitzer Prize-winning author of The Overstory and the forthcoming Bewilderment, a magnificent double love story of two young couples separated by a distance of twenty-five years. "The most lavishly ambitious American novel since Gravity's Rainbow . . . An outright marvel." -Washington Post

Stuart Ressler, a brilliant young molecular biologist, sets out in 1957 to crack the genetic code. His efforts are sidetracked by other, more intractable codes—social, moral, musical, spiritual—and he falls in love with a member of his research team. Years later, another young man and woman team up to investigate a different scientific mystery: Why did the eminently promising Ressler suddenly disappear from the world of science? Strand by strand, these two love stories twist about each other in a

double helix of desire. The critically acclaimed third novel from Pulitzer Prize-winning author Richard Powers, The Gold Bug Variations is an intellectual tour-de-force that probes the meaning of love, science, music, and art.

The new media environment has challenged the role of professional journalists as the primary source of politically relevant information. After Broadcast News puts this challenge into historical context, arguing that it is the latest of several critical moments, driven by economic, political, cultural and technological changes, in which the relationship among citizens, political elites and the media has been contested. Out of these past moments, distinct 'media regimes' eventually emerged, each with its own seemingly natural rules and norms, and each the result of political struggle with clear winners and losers. The media regime in place for the latter half of the twentieth century has been dismantled, but a new regime has yet to emerge. Assuring this regime is a democratic one requires serious consideration of what was most beneficial and most problematic about past regimes and what is potentially most beneficial and most problematic about today's new information environment.

A group of liberal commentators with shady origins, loosely calling themselves "BreadTube" have become the primary online pro-socialist voices. The ideology that BreadTubers espouse, however, is not consistent with Marxism-Leninism or genuine anti-capitalism. Drawing from the work of Marx, Lenin, Mao Zedong, William Z. Foster, R. Palm Dutt, Peter Kropotkin and other great revolutionary thinkers, Caleb Maupin shows that BreadTube has emerged due to a power struggle within the US ruling class. Maupin contrasts the BreadTube worldview of pessimism, anti-populism and post-modernism with

the hopeful project of 21st Century Socialism around the world. He urges working people to reject the dead end of identity politics, liberalism and de-growth, and instead to stand against decaying imperialism and its drive toward fascism and war.

Is there any hope for men and women in the "voluntary slavery" of pornography addiction? Deepak Reju shows that this worship problem can be fought only with a greater love for Christ. This month-long devotional, with reflection questions and practical suggestions for action, gives you the encouragement and resources you need to fight in the war being waged for your soul every day. Book jacket. ¿Cómo fue que un personaje tan limitado acaparó tanto poder en los sexenios de Fox y Calderón? Esta es la historia del exsecretario de Seguridad Pública que rendía cuentas a los narcos mientras les mentía a todos los mexicanos. Un personaje que supo esconder una meteórica y corrupta carrera: de soplón de la policía a espía de Carlos Salinas de Gortari, de funcionario estrella de Fox a titiritero de la guerra de Calderón. Durante años mantuvo una imagen pública de funcionario honesto, sin embargo, hay pruebas de que desde 2006 ya estaba asociado a los capos, y de que su guerra personal contra los cabecillas más peligrosos del crimen organizado --el Barbas, los Beltrán Leyva y la Barbie-- era una estrategia para cimentar el poder del Cártel de Sinaloa, que en dos ocasiones le entregó maletines con hasta 5 millones de dólares, como detalla la orden de captura en su contra. El Topo, como lo apodaba el Chapo, vio en la publicidad, en la calumnia y

en la desaparición de documentos su mejor arma para encumbrarse y aniquilar a sus enemigos; colocó en áreas clave a su gente de confianza, que hoy todavía opera en células durmientes a la espera de instrucciones. Esta es la historia de un manipulador que no tuvo reparo en sacrificar a quien le estorbara. La historia del «súper policía», como le gustaba que lo llamaran, que le vendió México al narco. En Subway Placebo asistimos al derrumbe del mundo personal de dos personas en paralelo al derrumbe del mundo a su alrededor. Esta novela tan ágil como profunda coquetea con el fantástico para abrirnos una ventana al interior del alma humana, a la posibilidad de ser feliz y a las herramientas para soportar el dolor de esta vivo.
