"Quirky, unpredictable, often hilarious, Infante's book tells us much about the effect of the Cuban revolution on Cuban literature." - Publishers Weekly With bitter irony, the author tells a story sadly repeated during this century. A dictatorship that silences the intellectuals, a regime that lies and kills, and a propaganda war that has yet to end. One of the best compilations of documents on recent Cuban history.

A student textbook designed to introduce, in an accessible manner, all the principal themes and problems of this period in European history.

Interpretation and Visual Poetics in Medieval and Early Modern Texts

In this updated and extended edition of *The Greek Sense of Theatre*, scholar and practitioner J. Michael Walton revises and expands his visual approach to the theatre of classical Athens. From the tragedies of Aeschylus, Sophocles and Euripides to the old and new comedies of Aristophanes and Menander, he argues that while Greek drama is seen now as a performance-based rather than a strictly literary medium, more attention should still be paid to the nature of stage image and masked acting as part of this conception.

in the first four centuries in the light of modern Jewish and Christian scholarship.

Greek tragedy is currently being performed more frequently than at any time since classical antiquity. This book is the first to address the fundamental question, why has there been so much Greek tragedy in the theatres, opera houses and cinemas of the last three decades? A detailed chronological appendix of production information and lavish illustrations supplement the fourteen essays by an interdisciplinary team of specialists from the worlds of classics, theatre studies, and the professional theatre. They relate the recent appeal of Greek tragedy to social trends, political developments, aesthetic and performative developments, and the intellectual currents of the last three decades, especially multiculturalism, post-colonialism, feminism, post-structuralism, revisions of psychoanalytical models, and secularization.

Liturgical Worship ...

The Mystery of Death

2009 Catholic Press Association Award Winner! Perhaps no liturgical scholar of our time is better able than John Baldovin to write with clarity and accuracy about the meaning of the church's liturgy and the history of its development in the last half century. In this summary volume on the reform of the liturgy since the Second Vatican Council, Baldovin pinpoints and assesses 'both sympathetically and critically 'the objections to changes in the liturgy since the council, focusing on philosophical, historical-critical, and theological questions. After addressing each criticism in turn, in a final chapter he assesses the critique of post 'Vatican II liturgy as a whole, affirming what is accurate and necessary, rejecting what is backward looking, and proposing a set of principles to guide future development. No one who studies or participates in liturgical action in the twenty-first century can afford to overlook this book. John F. Baldovin, SJ, is professor of historical and liturgical theology at Boston College School of Theology and Ministry. His most recent books include Bread of Life, Cup of Salvation and The Urban Character of Christian Worship.

What do we know about that mysterious entity called, the soul? Occasionally, in the monotony of daily life, we feel our soul trying to speak to us. Sometimes it

communicates through suffering, which forces us to acknowledge our inner spiritual world, while at other times, in a sudden moment of illumination, we discover a completely new perspective on our existence. In *The Soul*, Rabbi Steinsaltz, author of the groundbreaking translation of the Talmud and one of the preeminent sages of our generation, reveals some of the spiritual mysteries that lie beyond the reach of the intellect. *The Soul* shows us how we can become sensitized to our souls, how we can understand its faint but persistent calling and use it to open new vistas in our own lives. Francesco Koslovic--even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

'An enjoyable, highly readable history that manages to bring murky, often fiendishly complex events into the light' Sunday Times Italy emerged from the Second World War in ruins. Divided, invaded and economically broken, it was a nation that some claimed had ceased to exist. By the 1960s, Italy could boast the fastest-growing economy in the world, as rural society disappeared almost overnight. In *The Archipelago*, acclaimed historian John Foot chronicles Italy's tumultuous history from the post-war period to the present. From the silent assimilation of fascists into society after 1945 to the artistic peak of neorealist cinema, he examines both the corrupt and celebrated sides of the country. While often portrayed as a failed state on the

margins of Europe, Italy has instead been at the centre of innovation and change – a political laboratory. This new history tells the fascinating story of a country always marked by scandal but with the constant ability to re-invent itself. Comprising original research and lively insights, *The Archipelago* chronicles the crises and modernisations of over seventy years of post-war Italy, from its fields, factories, squares and housing estates to the political intrigue of Rome.

Boris Pahor spent the last fourteen months of World War II as a prisoner and medic in the Nazi camps at Bergen-Belsen, Harzungen, Dachau and Natzweiler-Struthof. Twenty years later, as he visited the preserved remains of a camp, his experiences came back to him: the emaciated prisoners; the ragged, zebra-striped uniforms; the infirmary reeking of dysentery and death. *Necropolis* is Pahor's stirring account of providing medical aid to prisoners in the face of the utter brutality of the camps – and coming to terms with the guilt of surviving when millions did not. It is a classic account of the Holocaust and a powerful act of remembrance.

Against Theatre shows that the most prominent writers of modern drama shared a radical rejection of the theatre as they knew it. Together with designers, composers and film makers, they plotted to destroy all existing theatres. But from their destruction emerged the most astonishing innovations of modernist theatre.

In this fascinating volume, acclaimed theatre historian Erika Fischer-Lichte reflects on the role and meaning accorded to the theme of sacrifice in Western cultures as mirrored in particular fusions of theatre and ritual. *Theatre, Sacrifice, Ritual* presents a radical re-definition of ritual theatre through analysis of performances as diverse as: Max Reinhardt's new people's theatre the mass spectacles of post-revolutionary Russia American Zionist pageants the Olympic Games. In offering both a performative and a semiotic analysis of such performances, Fischer-Lichte expertly demonstrates how theatre and ritual are fused in order to tackle the problem of community-building in societies characterised by loss of solidarity and disintegration, and exposes the provocative connection between the utopian visions of community they suggest, and the notion of sacrifice. This innovative study of twentieth-century performative culture boldly examines the complexities of political theatre, propaganda and manipulation of the masses, and

Cattolica, il periodico dei gesuiti italiani al quale aveva dedicato gli ultimi dodici anni della sua vita, dopo averlo tenuto a battesimo nel 1850. Chiudeva gli occhi nel Collegio romano, centro di studi fondato da S. Ignazio di Loyola ed illustrato in tre secoli da uomini insigni nelle scienze sacre ed umane e del quale egli stesso era stato il primo Rettore, quando Leone XII, nel 1824, lo aveva restituito alla Compagnia di Gesù. Questa coincidenza di luogo era l'espressione di una continuità spirituale e di pensiero unificatore che aveva caratterizzato tutta la sua vita. Rettore del Collegio romano, P. Taparelli non era stato soltanto coscienzioso dirigente di un Istituto che raccoglieva per gli studi umanistici il fiore della gioventù romana, e per le scienze sacre gli alunni dei Seminari di tutto il mondo, ma soprattutto un pioniere e capo di un movimento che doveva imprimere un indirizzo al pensiero cattolico. Eredi e partecipi delle ricchezze intellettuali e morali di questa figura di uomo di scienza e di fede, la Pontificia Università Gregoriana e la Civiltà Cattolica hanno voluto commemorare degnamente il compiersi dei cento anni dalla sua morte.

During the 10th, 11th and 12th centuries, the exchange of artistic
ideas and formulas between regions surrounding the Mediterranean Sea
gave rise to the first genuine European art period in medieval Western
Europe, which is generally called 'Romanesque'. Crucial to this
integrative process was the mobility of artists, architects and
patrons, as well as the ability to absorb new artistic formulas and
integrate them into already existing patterns. Some especially
creative centres produced and exported successful formal and
architectural models, whereas others became real melting pots. All
these cultural and artistic exchanges took place over the substrate of
Roman Antiquity, which was highly valued and regularly reemployed
throughout the Mediterranean lands. This volume focuses on Romanesque
cathedral complexes as a lens to analyze the complexity and dynamics
of the artistic landscape in southern and central Europe during the*

10th to 12th centuries. The architectural characteristics of every single cathedral are the result of an age-old, complex process of morphogenesis which is always defined by local conditions regarding space, building material, etc. The contributions to this volume discuss the factors that have defined architectural configurations of Romanesque cathedrals. A twofold methodology is adopted. First, the question is raised to what extent the architectural forms of specific cathedrals can be ascribed to the preferences of patrons who, hypothetically, would also have imposed the liturgical protocol. Secondly, a wide range of other, rather more 'bottom-up' factors are also taken into account, including specific community practices, liturgical and others. In this analysis, special attention is paid to visual programmes and liturgical furnishings which made up a large part of the visual experience of Romanesque cathedral complexes. Examines the influence of culture on the newest studies of history, and presents several models for modern cultural history. This report examines the relationship between large business taxpayers and revenue bodies, five years on from the publication of the FTA's Study into the Role of Tax Intermediaries.
