A SWAT team is called in when criminal emergencies become too dangerous for regular police officers. Although most SWAT team members are police officers, they are trained in the use of powerful firearms and military tactics, and only used in very high-risk situations. The skills, equipment, training, and courage of these individuals are all discussed in this book, as well as how SWAT teams originated and have become one of our biggest defenses against terrorist attacks. This book will allow students to determine a central idea of a text and analyze its development over the course of the text, including its relationship to supporting ideas; provide an objective summary of the text.

These books expose children to vocabulary (parts of the body, toys, colors, animals, etc.), phrases, and simple sentences that relate to their daily experiences and activities (dressing, eating, playing, etc.). Level I books are appropriate for children, especially preschool age children, who attempt to imitate signed or spoken words and express themselves through single gestures or words.

The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her first year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsensical world of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time goes by she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. This time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. Speak was a 1999 National Book Award Finalist for Young People's Literature.

A National Book Award nominee! Returning to the same era of his "In a Dark Wood", Cadnum's majestic novel--part mystery, part history--chronicles the pageantry and brutality of the Crusades under King Richard. Edmund, a young apprentice, is awaiting punishment as a counterfeiter when a knight intervenes on his behalf--and compels Edmund to join Richard Lionheart's forces in the Holy Land. There, amidst the savagery of the twelfth-century Crusades, Edmund learns both courage and compassion, and discovers that cruelty is sometimes considered the will of Heaven. Set in medieval England and the war-torn shores of the Middle East, Cadnum's tale weaves together a rich tapestry of storms at sea, the brutality of hand-to-hand combat, and one of the classic horse and lance battles in recorded history--the Battle of Arsuf.

This is an important work that addresses a very timely issue: police stress and its treatment. Its authors both hold doctoral degrees in education and teach at the university level. In addition, both gentlemen have extensive experience treating police stress. The book begins by tracing the history of the treatment (or lack thereof) of police stress, specifically its treatment by peers. It describes the obstacles peer counselors face and their tactics for addressing them. It goes into detail regarding the types of stress that officers face on the job, and the ways in which these stresses make this work so very different from other jobs. It also provides statistics regarding the high rates of divorce, suicide, illness, and premature death that police are subject to. In these ways, it provides a strong argument supporting the establishment of stress-reduction programs for police. The book also makes it clear that peers are uniquely qualified to do this counseling work; they have "been there" and can gain the respect and trust more easily than an outsider. It recounts instances of successful peer counseling, and it recounts instances of sad failure. The book artfully

presents the results of extensive surveys and interviews of the people involved in a large peer counseling program—from both the peers and those they counsel. Perhaps most important, departments and organizations wishing to emulate the work that is profiled will find this to be an invaluable guide.

Police Lives Matter

This book provides a look into the job of a police officer, showing the how men and women of all genders and races can be police officers, and how the police keep us safe while being a positive part of our communities. The book is a tool to help parents provide their children with fair look of what police officers are enlisted to do in our communities. This book can be part of the "talk" that parents are having with their children at an earlier age than in the past and an effort to provide an understanding of what good policing is designed to be. It is crucial that our youth avoid entering police interactions with fear and misinformation, leading to misunderstanding and anger. During the current time of Police Reform, it is important that our children recognize that there are good and bad police officers, and that the bad police officers are being identified and removed from policing. As a learning tool for the youngest of readers, there is also a Vocabulary List in the back of the book to assist parents in explaining some of the vocabulary and policing terms that are used in the book, to their children.

After discussing the police shooting of a local Black man with their families, Emma and Josh know how to treat a new student who looks and speaks differently than his classmates.

As ex-drug baron Bazza Mackenzie runs for parliament, ex-cop Paul Winter knows that his time with Bazza must, at whatever cost, come to an end, in the 12th in this highly acclaimed series of police procedurals DI Faraday is gone and the police are left reeling. As his boss attempts to limit any possible PR damage, his one time shadow on the force, ex-DC Winter, is ever more concerned that he may have made the biggest mistake of his life throwing in his lot with the city's drug baron, Bazza McKenzie—especially as Bazza becomes increasingly desperate and violent as his empire begins to crumble under the weight of austere times. And, in the person of DS Jummy Suttle there's a new will at the heart of the embattled police force to nail Bazza once and for all, the one man Faraday was always desperate to bring to justice. Graham Hurley's trademark authenticity has been allied to an ever increasing sense of drama as he charts the lives of his vivid characters and paints a stunning portrait of a city and a country at war with itself, a war which throws the police into the front line.
