"Encyclopedia of World Religions" explores the major religions of the world, emphasizing the living faiths and their background. Each illustrated volume provides access to the theological concepts, personalities, historical events, institutions, and movements that helped shape the history of each religion and the way it is practiced. RENNER Studies on New Religions is an initiative supported by the Danish Research Council for the Humanities. The series was established to publish books on alternative spiritual movements from a wide range of perspectives. The books will appeal to an international readership of scholars, students, and professionals in the study of religion, theology, the arts, and the social sciences. It is hoped that this series will provide a proper context for scientific exchange between these often competing disciplines. Stimulated by travel, mass media and education, individuals have spent the twentieth century questioning organized religion, and at the start of a new millennium, many are turning to spirituality rooted in ancient practice, but modernized by secular experience. In this volume, an international

group of authors surveys the religious and spiritual movements growing in popularity in Western Europe including (to name a few) theosophy, Transcendental Meditation, the Rosicrucians, the Occult, and Hare Krishna.

Radhasoami Reality explores the emergence of a new religious tradition that is expanding rapidly across North India and throughout the world. Mark Juergensmeyer seeks to explain why the religious logic of Radhasoami, which is based on the teachings of medieval Hindu saints, is so compelling to today's society.

At a literal crossroads in the South, there are two speakers in these poems — the descendant

has traveled here to try to find her ancestors in the archives, records, and receipts of their v and near-unrecorded history, and the ancestors, who are alternately bemused, angry, and ten with their descendant. Petrosino's poems argue with each other across time and seek to hea other over the guardians and soldiers of the past who want to keep black genealogy from the descendants who would sing its truth. Interchapters illustrated by artist Lauren Haldeman reimagine the barriers of genealogical research as an enigmatic Confederate soldier with the disquieting habits and obstructive magicks of Alice in Wonderland's Cheshire Cat. Timely, groundbreaking, and powerful, Kiki Petrosino's Black Genealogy has the weight of an instant classic.

This is a much expanded, revised and totally updated edition of David Barrett's excellent guide and source book of the world's off-beat and alternative religions, organisations, sects, cults and movements.

Deft and lyrical, fearless and human, The Fahrenheit Twins sealed Faber's reputation as one of Britain's most arresting and important authors.

Renowned for his pitch-perfect prose and brilliant characterisation, Faber is

also celebrated for his mastery of wildly different styles. Within these seventeen stories he levels his gaze at humanity in all its despair, joy and mundanity. From the achingly sad lost lives of 'The Safehouse' through moments of exquisitely distilled happiness in 'Vanilla-Bright Like Eminem' to the biblical innocence and savagery of 'The Fahrenheit Twins', we are redeemed, abandoned, beloved and laid bare but we are always recognisable. Michel Faber has written several books, including the highly acclaimed *The Crimson Petal and the White*, *The Fahrenheit Twins* and the novellas *The Hundred and Ninety-Nine Steps* and *The Courage Consort*. *The Apple*, based on characters in *The Crimson Petal and the White*, was published in 2006. He has also won several short-story awards, including the Neil Gunn, Ian St James and Macallan. He was born in Holland, brought up in Australia and now lives in the Scottish Highlands.

textpublishing.com.au 'Some are splendid fables, a couple border on the silly, while a few are truly poignant and complete. However, all are worth reading for the dizzying balancing act of a compulsively satirical, yet resolutely humanitarian voice.' *Courier Mail* 'Whether you are new to his work or an established fan, *The Fahrenheit Twins* is a delight.' *Australian Bookseller & Publisher* 'Faber's extraordinary imagination can be as dark as the deepest dungeon and as light as a wisp of gossamer, and he gives it

full rein. Each of the stories is as unlike the others as possible, so every time you start one you have no idea what to expect - except you know you're in for a total treat.' Good Reading 'Were you to lock Paul Auster, Roald Dahl and Ian McEwan in a room together, the result might well resemble this collection of short stories by Michel Faber.' Sydney Morning Herald 'By turns crepuscular, buoyant, delicate, wry, horrific, otherworldly, this worldly and organ-rupturingly funny collection is a vitamin-boost for the British short-story.' David Mitchell, Guardian 'Such is the state of affairs in Faberville; anything is possible. And such is the other thing about these stories - their ability to get to you and stay with you.' The Times 'Dazzling...Faber is defiantly and inventively unafraid of love; he's optimistic and alive with possibilities.' Observer Huyler provides an introduction to the scope of Hindu beliefs and practices, accompanied by his arresting photographs documenting the spirituality of common men and women in India. 200 color illustrations.

Allen Feldman has been leaving his body since a small child and has been formally practicing his Spiritual Exercises since 1982. After many failed attempts and much difficulty and hardships he finally made it to VARDAN Mastership after having left his body thousands upon thousands of times and traveling with the Ancient VARDAN Masters such as Rebazar Tarzs, Yaubl Sacabi and Rami Nuri. He has had numerous experiences in the Pure Positive God Worlds beyond Matter, Energy, Space and Time, as well as the lower worlds (The Physical, Astral., Casual, Mental and Etheric) and has much to teach about how to leave this world consciously via out of body Soul Projection and reach Spiritual Liberation. What follows is just some of our dialogues and experiences together. They were intense in many ways. He took me on many journeys into the Far Country, that group of worlds that stretch from the physical through the Astral, Causal, Mental, Etheric, through the great Void into the Pure Positive God Worlds of VARDAN! To say that these worlds are magnificent is an understatement. Forget all you have read about heaven! There are simply no words to describe IT. IT must be experienced through the Ancient methods of Soul Projection also known as VARDANKAR the Ancient Science of out of body Tuza or Soul Travel. I have however attempted to describe them as well as record the great words of Rami Nuri as well many other beings and Spiritual Travelers!

The late 1960s and early 1970s constituted a remarkable period for spiritual experimentation and for the proliferation of new religious groups. Now the children born into these religions have come of age. While their parents made the decision as adults to embrace alternative religious practices, the children have been raised with a very different orientation toward the larger society. While they take their religious communities for granted, many of these children gaze with curiosity at the surrounding secular world which their parents, not they, chose to reject. The contributors to this volume examine children from many different alternative religious movements worldwide, including The Family, Hare Krishna, Wiccans, and Pagans, Messianic Communities, and the Rajneesh (Osho) Movement. The essays explore two general questions: 1) What impact does the presence of children have on a new religion's lifestyle and chance of surviving into the future? 2) Is child abuse more likely to occur in unconventional religions, or are children born into them, the 'new' religions have grown up and have become an important and rapidly changing social force that we cannot reasonably dismiss or wisely ignore

As the official photographer on the set of Watchmen, Clay Enos was there at every stage of production as director Zack Snyder filmed the adaptation of the legendary graphic novel. As well as his day-to-day duties making sure there was a visual record of the production, Enos also made time to work on a very special project: a collection of black-and-white portraits photographs. From the lead characters, including of course Rorschach, the Comedian, Dr

Manhattan, Nite-Owl and all the other Watchmen, to supporting characters and even extras in the crowd, his lens captured them all. With its wealth of exclusive photographs, this stunning book is a unique look into the world of the film.

ECKANKAR Ancient Wisdom for Today is an intriguing book that reveals how ancient mysteries of past lives, dreams, and Soul Travel lead to spiritual freedom and truth today.

The series Religion and Society (RS) contributes to the exploration of religions as social systems – both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such as art, economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects

of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity, and their relation to society and the wider public are key issues of this series.

Australia is a country rich in religious diversity. While constitutionally-speaking Australia is a secular society, waves of immigration over its short history have had a large impact on its religious and cultural make-up. The Encyclopedia of Religion in Australia is the first major work of reference to describe the beliefs, practices and organisation of religion in Australia. It examines religion in several different ways: historical development, belief systems and controversies, as well as the social role each faith plays in modern Australian society. This comprehensive volume includes entries on indigenous

spirituality, Scientology, hillsong, and atheism, and features all of the major religions. Richly illustrated, it includes a section dedicated to current debates and issues in modern-day Australia, such as the place of religion in politics, fundamentalism, religious education and social cohesion.
