Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore a car to show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it 's easy to see why; these cars are rare, unspoiled survivors – cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV 's ' Salvage Hunters ' fame.

*Baber Mittough's life takes an unexpected turn as he is catapulted from leafy suburbia to the murky alphabet soup of Kazakhstan's underworld. This compelling tale unfolds as engineer Baber is sold by his employer to a questionable Kazakh businessman. When the irresistible Irena and two ageing hippies befriend Baber, he begins to suspect his new job isn't quite all it seems. As things start to go wrong Baber is left with no option other than to make a hasty escape in a rusty old VW van with the unlikely companion Katerina, two stowaways and a cell phone that has only ever said NO NETWORK. For all concerned it's as well Baber has committed the Haynes Manual to memory... Set against a backdrop of suburban England and a politically turbulent Kazakhstan, Baber's Apple is both funny and tragic, a thought-provoking novel about family and friendships, old age and new beginnings. Marina Lewycka meets Malcolm Bradbury in this extraordinary first novel. A literary tour de force that will stay with you long after you have turned the last page.*
