Walk a Mile: Experiencing and Understanding Diversity in Canada is the first text of its kind to combine both cognitive and affective dimensions of studying diversity. It does so through an experiential framework that encourages self-reflection on the part of the reader, while providing a strong foundation in the history of diversity in Canada. Using as its starting point the notion that creating a more just, inclusive society requires each of us to figuratively and empathetically walk a mile in the shoes of others, the self-reflexive framework of Walk a Mile facilitates the development of diversity competencies, equipping students to work and live effectively with people from a wide variety of cultural, religious, economic, sexual, and age backgrounds.

This play serves as a guide to parents, guardians, educators, social service providers and others to help children adjust in life, after having experienced significant trauma. This play reveals the importance structure, love and compassion has in child developmental phases.

Discover "the stories America needs to hear" (Admiral William H. McRaven, US Navy (Ret.)) with these moving and powerful recollections of war, told by the men and women who lived them. Walk in my Combat Boots is a powerful collection crafted from hundreds of original interviews by James Patterson, the world's #1 bestselling writer, and First Sergeant US Army (Ret.) Matt Eversmann, part of the Ranger unit portrayed in the movie Black Hawk Down. These are the brutally honest stories usually only shared amongst comrades in arms. Here, in the voices of the men and women who've fought overseas from Vietnam to Iraq and Afghanistan, is a rare eye-opening look into what wearing the uniform, fighting in combat, losing friends and coming home is really like. Readers who next thank a military member for their service will finally have a true understanding of what that thanks is for.

Can you imagine going to kindergarten for the first time at the age of 13, living in a shack with eight other children and sleeping on a small foam mattress on a dirt floor? Or selling your clothes and searching the streets for returnable bottles so you can feed your children? Or being abandoned by everyone in your family when you are a toddler because they think you have a disease they don't understand and that they fear? Or having twelve children because you were an only daughter and your mother wanted lots of grandchildren to work endless hours on the farm? These are the realities of some women and children who live in poverty in the former township of Katutura, a suburb of the capital city of Windhoek, in Namibia. This book shares not only their stories and the stories of others, but it shows how one small organization, Family of Hope Services, is able to uplift these children and women and to give them a future. Walk a Mile in My Shoes is a fund-raising book with 100% of all proceeds from sales going to educate, feed, and to empower orphans and vulnerable children in Katutura. By buying this book you will empower a child and contribute to his or her future and hope. Reading this book will be your blessing; a realization of the good fortune in your own life."e;When I first met Abigail Bachopi and her team, and began to learn about Family of Hope Services, I found myself deeply moved by the vision and wisdom with which they run their Centre. They see clearly what is required to foster dignity, self-confidence, and not just an impression of hope but the real possibility that all of the children and youth who come through their doors will experience a more fulfilling life. I have witnessed the life-changing results of their programming over the past few years. Everything they undertake is done with the utmost integrity and honesty. They inspired me to share some of their stories so that others could see the challenges they face and to see the good work that they do. It is truly humbling to be in the company of these generous people with such big hearts, and incredible insight."e; Danette Jaeb, Author

As a kind, chatty, and good-humoured man with a zest for life and a passion for helping people, Chris Young adored his job as a social worker. But things fell apart when, in 2008, he was diagnosed with borderline personality disorder. His illness brought about the end of his calling and he found himself in need of a new project and purpose. And so it came to be that in 2011, Chris began a campaign called Walk A Mile In My Shoes. He walks around the edge of the UK – the edge of society being where many people with mental health problems feel they are – without spending any money and relying on the kindness of strangers. In 2015, he joined forces with See Me Scotland to distil the success of the coastal walk into a series of events, inviting other people to join him and discuss mental health. He encouraged them to literally walk a mile in each other's shoes. Walk a Mile: Tales of a Wandering Loon is the story of how a normal, nurturing childhood turned into one of neglect and abuse and how this, combined with a little faulty brain wiring, led to a severe and enduring mental illness.

We are all called to be change-makers in the world, and yet many of us don't know how to answer the call. Jesus Culture founder and pastor Banning Liebscher reveals the three key moves that will awaken your heart and propel you into a life of divine purpose. You were made for more than a life of holy discontent--more than the frustrating sense of sitting on the sidelines of your own life's purpose. From the beginning, Jesus has beckoned us out of passivity and into a high-stakes adventure with hearts fully alive, lives fully engaged, and the courage needed for both. With a heart-stirring message and compelling stories, founder of Jesus Culture and pastor Banning Liebscher will equip you with practical guidance to be and do all that God has called you to. The Three-Mile Walk draws from the biblical story of Jonathan, who, after a treacherous three-mile hike, boldly stepped into battle and watched God work a stunning victory in the midst of impossible odds. Likewise, Liebscher presents the three key attributes you need to fully engage your mission--courage, holiness, and faith. In his power-packed, memorable style, Liebscher offers fresh insight and instruction for answering your calling with a courageous "yes," and setting out on the journey of a lifetime. You are meant to change the world. It's going to be tough, surprising, and more fulfilling than you can imagine. You just need the courage to rise up and walk it out.

A young girl's guide to overcome being bullied through her own experiences. Join Makayla as she narrates her journey and what it is like growing up as a typical high school student but with abnormally large sized feet. Being a teenager isn't always the easiest and Makayla recalls how she navigated through multiple moves, new schools, several hospital stays due to her little sister's serious medical condition and the raging hormones that come with going from a teenage girl to becoming a woman. One might think you can ski through life, especially with the built in skis Makayla was blessed with, but occasionally there are some hills that are just more like a devils plunge than a bunny slope. Throw in a little humor, catty backstabbing high schoolers and a determination to be something more and you have a recipe for one intriguing memoir.

Ella Mae is used to wearing her cousin's hand-me-down shoes—but when her latest pair is already too tight, she's thrilled at the chance to get new shoes. Marnie Winston-Macauley, author of the bestselling HE SAYS/SHE SAYS and MEN WE LOVE TO HATE, turns our sexist world upside-down with a quick flip of the mirror. The results are hilarious (for women who've been there) and perhaps discomfiting (for men who are not quite aware). Combined with Don Smith's dead-on illustrations, Winston-Macauley's wit gives 20th-Century Man one last good shake before the new millennium. 70 illustrations.

In early March 1867, Muir was injured while working at a wagon wheels factory: a tool he was using slipped and struck him in the eye. This accident changed the course of his life. He was confined to a darkened room for six weeks, worried he'd lost his sight forever. When he did recover, the world looked completely different and life had taken on a new meaning for him. Muir later said, "This affliction has driven me to the sweet fields. God has to nearly kill us sometimes, to teach us lessons." From that point on, he determined to "be true to myself" and follow his dream of exploring and studying plants. A Thousand Mile Walk to the Gulf recounts Muir's walk of approximately 1,000 miles (1,600 km) from Indiana to Florida. He did not follow a specific route, only going by the "wildest, leafiest, and least trodden way I could find." This journal is the earliest of Muir's writings and autobiographically bridges the period between "The Story of my Boyhood and Youth" and "My First Summer in the Sierra." John Muir (1838-1914) was a Scottish-American author and naturalist, who is traditionally considered to be the "Father of the National Parks". Born in Dunbar (East Lothian), he spent his childhood exploring the area, and that is where his love of nature first bloomed. In 1849, his family emigrated to Portage, Wisconsin for religious reasons. At 22, he joined the University of Wisconsin-Madison, from which he never graduated, as he preferred to take a multitude of different classes in the variety of subjects he was interested in, such as chemistry, botany and geology. In 1866, whilst working at an Indianapolis wagon wheel factory, he got into a serious accident and almost lost his sight. When he recovered, he decided to follow his dreams and explore nature. In September 1867, he walked from Kentucky to Florida, later describing the trip in his "A Thousand-Mile Walk to the Gulf." In 1868, he boarded a ship to Cuba, then later on sailed to New York City, from whence he travelled to California. From there, he decided to visit Yosemite, which he had long read about. He was one of the first to infer that the landscape there must have been formed by glaciers, a widely disputed theory at the time. Muir wrote countless essays, books and letters recounting his adventures out in nature, especially in the Sierra Nevada, which have been read by millions. He played a vital role in the preservation of natural areas, and the creations of Yosemite and Sequoia National Park, amongst many others.

We can be quick to pray for people around the world in times of trauma, but has prayer become a way to avoid taking real action? Are we reluctant to be fully aware of the suffering around us? Trevor Hudson challenges us to see, hear, and respond to the needs of others, recognizing the living Christ in all things. Hudson designed an 8-day program—a pilgrimage—to help all Christians cultivate the depth of compassion Jesus demonstrated. Through this program, pilgrims learn to be present wherever they are and with whomever they meet. "We seldom become more compassionate without working at it," writes Hudson. "One practical way to cultivate compassion involves building the pilgrimage experience into our lives. ...The risen Christ meets us in the lives of those who suffer." Join Trevor Hudson in this exploration of how to love your neighbor as yourself and choose compassion as part of your daily life.

According to statistics reported by CDC in 2020, 1 in 54 children in the USA were diagnosed with autism spectrum disorder (ASD) in 2016. The latest statistics in the UK show that there are 700,000 autistic diagnoses. It is suggested that boys are 4 times more likely to get a diagnosis of autism than girls. Autism does not discriminate; it affects all ethnicities and socio-economic groups. Symptoms can be slight to severe and everything in between. Getting the diagnosis and intervention early is better, however, unfortunately, this does not happen for all families. Like so many parents, you might be wondering if you are doing things right. Aside from being a Speech and Language Therapist, I am also a mum and I know the worry we put ourselves through. The internet is our go-to resource to find our answers but with such a wide spectrum, it's hard to find the exact advice for your individual child. One of your biggest concerns may well be Speech and language. These are highly complex learning areas that we take for granted and are especially difficult if your child has more complex needs. But then what about all of the other areas that your little one might find challenging? What can you do to help your child with sensory difficulties and meltdowns? If you have received a recent autism diagnosis, your mind is probably full of questions, and you have no idea where to begin and you start typing questions into search engines. If this sounds like you, then you will have noticed hundreds of different sites offering information that is too complex and lengthy for light bedtime reading which is probably the only time you'll have to read without being distracted by what your child is doing. From the point of view of an experienced professional and a parent, we are going to look at all the different areas of development for children with ASD. This is the first book in a series of books dedicated to helping parents and families of ASD children. We will look at the world of autism today and I will provide you with the knowledge you need to build a solid foundation. In this book... Learn about the ASD diagnosis process Learn to create routines that you and your child can easily manage Discover simple ways to help your child develop their early interaction skills Tips and tricks to manage your child's anxiety Learn about different types of speech/play therapy you can do at home Each bite-sized book will cover a new topic. The next book is on potty training and mastering personal care skills. There will be books focusing on speech and language development and much more so look out for those.

The bare-fisted brawler from Blackpool, England tells his story of fortune and fumbling on the road to the WWE 's higher ranks. Since joining the WWE in 2000 as a goodwill ambassador from Great Britain, William Regal has established himself as an up-and-coming Superstar. He took the wrestling world by storm defeating many of the WWE 's best wrestlers to win both the European and Intercontinental championships—although he 's probably best known for getting back in WWE owner 's Vince McMahon 's good graces by kissing his naked backside on national television. While fans may still chuckle at Regal 's humiliation, his in-ring success is no laughing matter. In this no-holds-barred look at his life, Regal for the first time talks about how he has dragged himself out of a life of poverty and adversity on the street of Blackpool, England and battled his own inner-demons to reach the top of the WWE 's roster. He also discusses how he has overcome his recent life-threatening medical condition to return to triumphantly to the WWE. As we walk this walk of faith, we will get discouraged along the way.
