Everything you thought you knew about saving, managing risk, and securing your financial future has changed. The world is very different in the wake of the biggest financial crisis since the Great Depression. Retirement accounts have been eviscerated, risk appetites diminished, and questions raised about age-old personal finance strategies such as "buy and hold" and the efficacy of relying heavily on stock mutual funds. In The Wall Street Journal Guide to the New Rules of Personal Finance, Dave Kansas offers guidelines for understanding the new regulations for finance firms, the rising importance of international investing, and the very different environment that now exists for home buyers. With valuable chapters on debt reduction, diversification, retirement planning, real estate, commodities, and other vital topics, this essential volume is designed to help the individual determine which tenets of an investing strategy remain sound and which deserve re-examination. It is the ultimate guide to profitably investing your money in a world that has fundamentally changed.

¶The Secret History meets The Price of Salt¶ (Vogue) in this [equal parts dangerous and delicious¶ (Entertainment Weekly) novel about queer desire, religious zealotry, and the hunger for transcendence among the members of a cultic chapel choir at a Maine boarding school¶and the ambitious, terrifyingly charismatic girl that rules over them. When shy, sensitive Laura Stearns arrives at St. Dunstan¶s Academy in Maine, she dreams that life there will echo her favorite novel, All Before Them, the sole surviving piece of writing by Byronic [prep school prophet¶ (and St. Dunstan¶s alum) Sebastian Webster, who died at nineteen, fighting in the Spanish Civil War. She soon finds the intensity she is looking for among the insular, Webster-worshipping members of the school¶s chapel choir, which is presided over by the charismatic, neurotic, overachiever Virginia Straus. Virginia is as fanatical about her newfound Christian faith as she is about the miles she runs every morning before dawn. She expects nothing short of perfection from herself¶and from the member of the choir. Virginia inducts the besotted Laura into a world of transcendent music and arcane ritual, illicit cliff-diving and midnight crypt visits: a world that, like Webster¶s novels, finally seems to Laura to be full of meaning. But when a new school chaplain challenges Virginia¶s hold on the [family¶] she has created, and Virginia¶s efforts to wield her power become increasingly dangerous, Laura must decide how far she will let her devotion to Virginia go. The World Cannot Give is a [hypnotic and intense¶ (Shondaland) meditation on the power, and danger, of wanting more from the world.

For more than sixty years, The Wall Street Journal has prided itself not just on its serious journalism, but also on the whimsical and arcane stories that amuse and delight its readers. In that regard, animal stories have proven to be the most beloved of all. Now, veteran Journal reporter and Page One editor Ken Wells gathers the finest, funniest, and most fascinating of these animal tales in one exceptional book. Here are lighthearted, witty stories of breakthroughs in goldfish surgery, the untiring efforts of British animal lovers who guide lovesick toads across dangerous motorways, and the quest to tame doggy anxieties by prescribing the human pacifier Prozac. Other pieces reflect on mankind's impact on the animal kingdom: a close-up look at the nascent fish-rights movement, the retirement of U.S. Air Force chimpanzees that once soared through space, and ongoing scientific efforts to defeat that most hardy enemy -- the cockroach. Each of these fifty-odd stories -- from the outlandish to the poignant -- exemplifies the superb feature writing that makes The Wall Street Journal one of America's best-written newspapers. This charming and utterly captivating collection will be a joy not only to animal lovers, but to all those who appreciate artful storytelling by writers who are obviously having a wonderful time spinning the tales.

**"THRILLING. ... Up-end[s] the Apollo narrative entirely." —The Times (London) A "brilliantly observed" (Newsweek) and "endlessly fascinating" (WSJ) rediscovery of the final Apollo moon landings, revealing why these extraordinary yet overshadowed missions—distinguished by the use of the revolutionary lunar roving vehicle—deserve to be celebrated as the pinnacle of human adventure and exploration. One of The Wall Street Journal's 10 Best Books of the Month 8:36 P.M. EST, December 12, 1972: Apollo 17 astronauts Gene Cernan and Jack Schmitt braked to a stop alongside Nansen Crater, keenly aware that they were far, far from home. They had flown nearly a quarter-million miles to the man in the moon's left eye, landed at its edge, and then driven five miles in to this desolate, boulder-strewn landscape. As they gathered samples, they strode at the outermost edge of mankind's travels. This place, this moment, marked the extreme of exploration for a species born to wander. A few feet away sat the machine that made the achievement possible: an electric go-cart that folded like a business letter, weighed less than eighty pounds in the moon's reduced gravity, and muscled its way up mountains, around craters, and over undulating plains on America's last three ventures to the lunar surface. In the decades since, the exploits of the astronauts on those final expeditions have dimmed in the shadow cast by the first moon landing. But Apollo 11 was but a prelude to what came later: while Neil Armstrong and Buzz Aldrin trod a sliver of flat lunar desert smaller than a football field, Apollos 15, 16, and 17 each commanded a mountainous area the size of Manhattan. All told, their crews traveled fifty-six miles, and brought deep science and a far more swashbuckling style of exploration to the moon. And they triumphed for one very American reason: they drove. In this fast-moving history of the rover and the adventures it ignited, Earl Swift puts the reader alongside the men who dreamed of driving on the moon and designed and built the vehicle, troubleshot its flaws, and drove it on the moon's surface. Finally shining a deserved spotlight on these overlooked characters and the missions they created, Across the Airless Wilds is a celebration of human genius, perseverance, and daring.**

**INSTANT NATIONAL BESTSELLER The founder of Girls Who Code and bestselling author of Brave, Not Perfect confronts the “big lie” of corporate feminism and presents a bold plan to address the burnout and inequity harming America's working women today. We told women that to break glass ceilings and succeed in their careers, all they needed to do is dream big, raise their hands, and lean in. But data tells a different story. Historic numbers of women left their jobs in 2021, resulting in their lowest workforce participation since 1988. Women's unemployment rose to nearly fifteen percent, and globally women lost over \$800 billion in wages. Fifty-one percent of women say that their mental health has declined, while anxiety and depression rates have skyrocketed. In this urgent and rousing call to arms, Reshma Saujani dismantles the myth of “having it all” and lifts the burden we place on individual women to be primary caregivers, and to work around a system built for and by men. The time has come, she argues, for innovative corporate leadership, government intervention, and sweeping culture shift; it's time to Pay Up. Through powerful data and personal narrative, Saujani shows that the cost of inaction—for families, for our nation's economy, and for women themselves—is too great to ignore. She lays out four key steps for creating lasting change: empower working women, educate corporate leaders, revise our narratives about what it means to be successful, and advocate for policy reform. Both a direct call to action for business leaders and a pragmatic set of tools for women themselves, Pay Up offers a bold vision for change as America defines the future of work.**

Charlie and Margaret discover the dark side of Hollywood in Jake Tapper's follow-up to New York Times bestseller The Hellfire Club—an "excellent" cocktail of corruption and ambition (Publishers Weekly). Charlie and Margaret Marder, political stars in 1960s Washington DC, know all too well how the tangled web of power in the nation's capital can operate. But while they long to settle into the comforts of home, Attorney General Robert Kennedy has other plans. He needs them to look into a potential threat not only to the presidency, but to the security of the United States itself. Charlie and Margaret quickly find themselves on a flight to sunny Los Angeles, where they'll face off against a dazzling world of stars and studios. At the center of their investigation is Frank Sinatra, a close friend of President John F. Kennedy and a rumored mob crony, whom Charlie and Margaret must befriend to get the inside scoop. But in a town built on illusions, where friends and foes all look alike, nothing is easy, and drinks by the pool at the Sands and late-night adventures with the Rat Pack soon lead to a body in the trunk of their car. Before they know it, Charlie and Margaret are being pursued by sinister forces from Hollywood's stages to the newly founded Church of Scientology, facing off against the darkest and most secret side of Hollywood's power. As the Academy Awards loom, and someone near and dear to Margaret goes missing, Charlie and Margaret find the clock is not only ticking but running out. Someone out there knows what they've uncovered and can't let them leave alive. Corruption and ambition form a deadly mix in this fast-paced sequel to The Hellfire Club.

Named a Best Book of 2018 by the Financial Times and Fortune, this "thrilling" (Bill Gates) New York Times bestseller exposes how a "modern Gatsby" swindled over \$5 billion with the aid of Goldman Sachs in "the heist of the century" (Axios). Now a #1 international bestseller, BILLION DOLLAR WHALE is "an epic tale of white-collar crime on a global scale" (Publishers Weekly, starred review), revealing how a young social climber from Malaysia pulled off one of the biggest heists in history. In 2009, a chubby, mild-mannered graduate of the University of Pennsylvania's Wharton School of Business named Jho Low set in motion a fraud of unprecedented gall and magnitude—one that would come to symbolize the next great threat to the global financial system. Over a decade, Low, with the aid of Goldman Sachs and others, siphoned billions of dollars from an investment fund—right under the nose of global financial industry watchdogs. Low used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like The Wolf of Wall Street. By early 2019, with his yacht and private jet reportedly seized by authorities and facing criminal charges in Malaysia and in the United States, Low had become an international fugitive, even as the U.S. Department of Justice continued its investigation. BILLION DOLLAR WHALE has joined the ranks of Liar's Poker, Den of Thieves, and Bad Blood as a classic harrowing parable of hubris and greed in the financial world.

A spirited critique of the cultural politics of the tourist age. Or, why we are all tourists who hate tourists We've all been tourists at some point in our lives. How is it we look so condescendingly at people taking selfies in front of the Tower of Pisa? Is there really much to distinguish the package holiday from hipster city-breaks to Berlin or Brooklyn? Why do we engage our free time in an activity we profess to despise? The World in a Selfie dissects a global cultural phenomenon. For Marco D'Eramo, tourism is not just the most important industry of the century, generating huge waves of people and capital, calling forth a dedicated infrastructure, and upsetting and repurposing the architecture and topography of our cities. It also encapsulates the problem of modernity: the search for authenticity in a world of ersatz pleasures. D'Eramo retraces the grand tours of the first globetrotters - from Francis Bacon and Samuel Johnson to Arthur de Gobineau and Mark Twain - before assessing the cultural meaning of the beach holiday and the 'UNESCO-cide' of major heritage sites. The tourist selfie will never look the same again.

From Big Macs to "Zombie Banks," the Indicators Smart Investors Watch to Beat the Market

A collection of essays from New York Times columnist Reggie Nadelson, profiling and celebrating the (largely family-owned) institutions—restaurants, bookstores, museums—that make up the heart and soul of New York City.

A New York Times Book Review Editors' Choice | Winner of the New Deal Book Award An immersive account of the New Deal project that created state-by-state guidebooks to America, in the midst of the Great Depression—and employed some of the biggest names in American letters The plan was as idealistic as it was audacious—and utterly unprecedented. Take thousands of hard-up writers and put them to work charting a country on the brink of social and economic collapse, with the aim of producing a series of guidebooks to the then forty-eight states—along with hundreds of other publications dedicated to cities, regions, and towns—while also gathering reams of folklore, narratives of formerly enslaved people, and even recipes, all of varying quality, each revealing distinct sensibilities. All this was the singular purview of the Federal Writers' Project, a division of the Works Progress Administration founded in 1935 to employ jobless writers, from once-bestselling novelists and acclaimed poets to the more dubiously qualified. The FWP took up the lofty goal of rediscovering America in words and soon found itself embroiled in the day's most heated arguments regarding radical politics, racial inclusion, and the purpose of writing—forcing it to reckon with the promises and failures of both the New Deal and the American experiment itself. Scott Borchert's Republic of Detours tells the story of this raucous and remarkable undertaking by delving into the experiences of key figures and tracing the FWP from its optimistic early days to its dismemberment by the House Committee on Un-American Activities. We observe notable writers at their day jobs, including Nelson Algren, broke and smarting from the failure of his first novel; Zora Neale Hurston, the most widely published Black woman in the country; and Richard Wright, who arrived in the FWP's chaotic New York City office on an upward career trajectory courtesy of the WPA. Meanwhile, Ralph Ellison, Studs Terkel, John Cheever, and other future literary stars found encouragement and security on the FWP payroll. By way of these and other stories, Borchert illuminates an essentially noble enterprise that sought to create a broad and inclusive self-portrait of America at a time when the nation's very identity and future were thrown into question. As the United States ends a new era of economic distress, political strife, and culture-industry turmoil, this book's lessons are urgent and strong.

A prize-winning historian's revelatory account of a close-knit band of wildly famous American reporters who, in the run-up to World War II, took on dictators and rewrote the rules of modern journalism "As intimate and gripping as a novel, this brilliant book vividly conveys what it felt like to live through the shocking crises of the thirties and forties."—Larissa MacFarquhar, author of Strangers Drowning They were an astonishing group: glamorous, gutsy, and irreverent to the bone. As cub reporters in the 1920s, they roamed across a war-ravaged world, sometimes perched atop mules on wooden saddles, sometimes gliding through countries in the splendor of a first-class sleeper car. While empires collapsed and fledgling democracies faltered, they chased deposed empresses, international financiers, and Balkan gun-runners, and then knocked back doubles late into the night. Last Call at the Hotel Imperial is the extraordinary story of John Gunther, H. R. Knickerbocker, Vincent Sheean, and Dorothy Thompson. In those tumultuous years, they landed exclusive interviews with Hitler and Mussolini, Nehru and Gandhi, and helped shape what Americans knew about the world. Alongside these backstage glimpses into the halls of power, they left another equally incredible set of records. Living in the heady afterglow of Freud, they subjected themselves to frank, critical scrutiny and argued about love, war, sex, death, and everything in between. Plunged into successive global crises, Gunther, Knickerbocker, Sheean, and Thompson could no longer separate themselves from the turmoil that surrounded them. To tell that story, they broke long-standing taboos. From their circle came not just the first modern account of illness in Gunther's Death Be Not Proud—a memoir about his son's death from cancer—but the first no-holds-barred chronicle of a marriage: Sheean's Dorothy and Red, about Thompson's fractious relationship with Sinclair Lewis. Told with the immediacy of a conversation overheard, this revelatory book captures how the global upheavals of the twentieth century felt up close.

A wonderfully irreverent and endlessly entertaining guide—with more than 80,000 copies sold worldwide in multiple languages—about the indicators most investors aren't following, but should be! In order to make the best possible investment decisions, savvy investors know that they must pay close attention to economic indicators. But while most are looking at conventional barometers like unemployment rates and housing statistics, the smartest investors are following the curious and often ignored indicators that offer a true sense of where the economy is and where it's heading. These factors have been proven to provide the vital information needed to beat the market. Dow Jones columnist Simon Constable and respected financial historian Robert E. Wright offer valuable tips and insight to help investors forecast and exploit sea changes in the global macroeconomic climate. Unlike other investment handbooks, Constable and Wright's guide explores the little-known economic indicators that the smartest investors watch closely in order to beat the stock market—from "Big Macs" to "zombie banks." This valuable and informative read entertains and enlightens while offering essential advice on navigating the global economic climate.

The Irwin Guide to Using the Wall Street Journal

*A tale about big business, an imploding dynasty, a mogul at war, and a deal that epitomized an era of change While working at the Wall Street Journal, Sarah Ellison won praise for covering the \$5 billion acquisition that transformed the pride of Dow Jones and the estimable but eccentric Bancroft family into the jewel of Rupert Murdoch's Kingdom. Here she expands that story, using her knowledge of the paper and its people to go deep inside the landmark transaction, as no outsider has or can, and also far beyond it, into the rocky transition when Murdoch's crew tussled with old Journal hands and geared up for battle with the New York Times. With access to all the players, Ellison moves from newsrooms to estates and shows Murdoch, finally, for who he is—maneuvering, firing, undoing all that the Bancrofts had protected. Her superlative account transforms news of the deal into a timeless chronicle of American life and power.*

*'Jonathan Raban is one of the world's greatest living travel writers.' William Dalrymple 'The best book of travel ever written by an Englishman about the United States' Jan Morris, Independent Navigating the Mississippi River from Minneapolis to New Orleans, Raban opens himself to experience the river in all her turbulent and unpredictable old glory. Going wherever the current takes him, he joins a coon-hunt in Savana, falls for a girl in St Louis, worships with black Baptists in Memphis, hangs out with the housewives of Pemiscot and the hog-king of Dubuque. Through tears of laughter, we are led into the heartland of America - with its hunger and hospitality, its inventive energy and its charming lethargy - and come to know something of its soul. The journey is as much the story of Raban as it is of the Mississippi. Navigating the dangerous, ever-changing waters in an unsuitably fragile aluminium skiff, he immerses himself with an irresistible emotional intensity as he tries to give shape to the river and the story - finding himself by turns vulnerable, curious, angry and, like all of us, sometimes foolishly in love.*

It could happen when you make a routine withdrawal from an ATM, respond to an e-mail asking for information about an online account, or leave a new box of checks unattended in your mailbox. Identity theft is one of the easiest crimes to commit in America and one of the hardest to prosecute. As thieves become increasingly clever, Americans have more reasons than ever to fear this elusive, ubiquitous crime. Now there's a book to help you beat it. In two easy-to-understand sections, Terri Cullen, The Wall Street Journal's expert on identity theft, first walks you through the most common types of identity theft and how to arm yourself against them, and then leads victims step-by-step through the process of reclaiming a stolen identity. The average victim loses more than \$6,000 and spends approximately 600 hours negotiating the complex bureaucracies and paperwork! This book will help save time and effort by laying out the process. And by following the advice in the first half, you may never need the second! You'll learn: • how to avoid the most common scams, from phishing to dumpster diving • why children under eighteen are the fastest-growing target, and how you can protect your family • why your credit report is the single most important document for protecting your identity • how to use the sample letters, forms, and other useful tools inside for recovering from identity theft in today's marketplace, your two most valuable assets are your credit and your identity. No one should be without this vital guide to protecting them.

"Unsettled is a remarkable book! probably the best book on climate change for the intelligent layperson! that achieves the feat of conveying complex information clearly and in depth." • Claremont Review of Books "Surging sea levels are inundating the coasts." "Hurricanes and tornadoes are becoming fiercer and more frequent." "Climate change will be an economic disaster." You've heard all this presented as fact. But according to science, all of these statements are profoundly misleading. When it comes to climate change, the media, politicians, and other prominent voices have declared that "the science is settled." In reality, the long game of telephone from research to reports to the popular media is corrupted by misunderstanding and misinformation. Core questions about the way the climate is responding to our influence, and what the impacts will be remain largely unanswered. The climate is changing, but the why and how aren't as clear as you've probably been led to believe. Now, one of America's most distinguished scientists is clearing away the fog to explain what science really says (and doesn't say) about our changing climate. In Unsettled: What Climate Science Tells Us, What It Doesn't, and Why It Matters, Steven Koonin draws upon his decades of experience—including as a top science advisor to the Obama administration—to provide up-to-date insights and expert perspective free from political agendas. Fascinating, clear-headed, and full of surprises, this book gives readers the tools to both understand the climate issue and be savvy consumers of science media in general. Koonin takes readers behind the headlines to the more nuanced science itself, showing us where it comes from and guiding us through the implications of the evidence. He dispels popular myths and unveils little-known truths: despite a dramatic rise in greenhouse gas emissions, global temperatures actually decreased from 1940 to 1970. What's more, the models we use to predict the future aren't able to accurately describe the climate of the past, suggesting they are deeply flawed. Koonin also tackles society's response to a changing climate, using data-driven analysis to explain why many proposed "solutions" would be ineffective, and discussing how alternatives like adaptation and, if necessary, geoengineering will ensure humanity continues to prosper. Unsettled is a reality check buoyed by hope, offering the truth about climate science that you aren't getting elsewhere! what we know, what we don't, and what it all means for our future.

NATIONAL BESTSELLER | The gripping story of Elizabeth Holmes and Theranos | One of the biggest corporate frauds in history | A tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. • Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection. • [The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup [Unicom] promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings! from journalists to their own employees.

A practical approach to affording your kids from cradle to college. Bringing home your bouncing baby boy or girl should be an exciting time of celebration—not cause for worry about how you’re going to pay for feeding, clothing, and caring for your new bundle of expenses. The average family will spend between \$11,000 and \$16,000 during a new baby’s first year, and more than \$200,000 before a kid’s eighteenth birthday. Unfortunately, a second child only doubles your costs, with little economy of scale for each additional baby. Before you start using these statistics as birth control, take a deep breath and know that you can have a family and make a comfortable future for your children while saving for your own important goals. The Wall Street Journal Financial Guidebook for New Parents shows you the way, with information on how to:

- Safeguard your child’s well-being with wills, trusts, and life insurance
- Best weigh your child-care options and decide whether to go back to work
- Save on taxes with child-friendly tax credits and deductions plus tax-advantaged benefits at work
- Manage your family’s health-care costs
- Save for long-term costs by setting up a college fund
- Spend smart and save money at every stage of your child’s development
- Continue to contribute to your own retirement savings

From maternity (and paternity) leave to flexible spending accounts to 529 college plans, The Wall Street Journal Financial Guidebook for New Parents provides all the information you need to meet your child’s expenses while also protecting your family’s financial security. Change the world one trip at a time. In this illuminating collection of stories and lessons from the road, acclaimed travel writer Rick Steves shares a powerful message that resonates now more than ever. With the world facing divisive and often frightening events, from Trump, Brexit, and Erdogan, to climate change, nativism, and populism, there’s never been a more important time to travel. Rick believes the risks of travel are widely exaggerated, and that fear is for people who don’t get out much. After years of living out of a suitcase, he still marvels at how different cultures find different truths to be self-evident. By sharing his experiences from Europe, Central America, Asia, and the Middle East, Rick shows how we can learn more about own country by viewing it from afar. With gripping stories from Rick’s decades of exploration, this fully revised edition of Travel as a Political Act is an antidote to the current climate of xenophobia. When we travel thoughtfully, we bring back the most beautiful souvenir of all: a broader perspective on the world that we all call home. All royalties from the sale of Travel as a Political Act are donated to support the work of Bread for the World, a non-partisan organization working to end hunger at home and abroad.
