There's always been magic in our world We just needed to know where to look for it In 1924, two brothers both loved Eleanor Raines, a promising young actress from the East End of London. She disappeared during the filming of Alfred Hitchcock's debut, Number

twisted secret threatens to tear the city apart. Joshua Raines is about to enter a world of macabre beauty, of glittering celluloid and the silver screen, of illusion and deception, of impossibly old gangsters and the fiendish creatures they command, and most frighteningly of all, of

genuine magic. He is about to enter Glass Town. The generations-old obsession with Eleanor Raines's unsolved case is about to become his obsession, handed down father-to-son through his bloodline like some unwanted inheritance. But first he needs to bury his
