

How the Fear of God Makes Us Human

Melody Hollenback has a problem. Her husband, Jeff, has joined what appears to be a cult. Considering his and her months-long unemployment and Jeff's clinical depression, Melody has a lot to worry about. When Jeff exhibits sudden signs of mental wellness, he is convinced the cult is curing him. He becomes increasingly immersed in the teachings, and Melody worries he is pulling away from her. In an effort to hold on to him, she pretends to join the fold. She soon discovers that the cult has long arms and keeps a tight grip on its followers. In fact, one of the group's ringleaders, the mysterious Floyd, has been keeping his creepy eye on her. Somebody's Watching You, the debut novel from Robin D'Amato, reads like a quirky thriller. Set in a community unaware of danger in its tree-lined blocks, the absurd tactics of the cult frame this otherwise simple love story with both dread and humor.

After being found in a compromising position by her father, Annabel and Seamie decide on a suicide pact to escape his fury. Their old friend Tess, the White Witch, reappears in time to save them as they are being swept to a watery grave in Lough Sheedon. Rather than lose the love of her parents and that of her young lover, Annabel decides to join a monastery in hidden Spain. Old Tess reassures Seamie she will return to him one day. Years later after a failed business due to foreclosure during the banking crisis, he decides to try to find his lost love. He has few clues to go on except that Tess once told him that "he would find his nest where the eagles rest far away from here." Something told him it had to be Spain because they had studied the language and had often spoken about doing the Camino together because of Tess's belief in Abbeyopia, a Paradise where the souls of those who believe in Mother Nature retire to. It was time to go because the banks and the police were closing in on him, suspecting rightly, that he had more to hide than money. A series of coincidences leads him along the northern coast of Spain where he meets a school pal who has information that might help him find Annabel and a buyer for the unusual package concealed in his trusty jeep. Many twists and turns later he learns that her reason for leaving was twofold, spiritual and physical but that her love for him has never wavered. Together again, they set out on an adventure to beat all adventures, the recovery of the lost treasure of Maria, a beautiful girl kidnapped from her family by gypsies but later left in the same convent that Annabel lived in. Now a beautiful young lady, she has a mind-map of where it can be found in a cave in Los Alpujarras south of Granada. She joins them but the gypsies have traced her through their vast network and are after her and the treasure. Intrigue, treachery, betrayal and mayhem follow them every step of the way until Nature finally takes over with unexpected repercussions.

There is no better message of wisdom than a lesson that has been tried and tested . . .

#1 NEW YORK TIMES BESTSELLER • A decorated former Air Force pilot. A pregnant flight attendant. A dedicated TSA agent. The fates of these three, and many others, converge in Danielle Steel ’ s gripping new novel—a heart-stopping thriller that engages ordinary men and women in the fight of their lives during a flight from New York to San Francisco. On a beautiful May morning at New York ’ s John F. Kennedy airport, two planes have just departed for San Francisco—one a 757, another a smaller Airbus A321. At a security checkpoint, TSA agent Bernice Adams finds a postcard of the Golden Gate Bridge bearing an ambiguous—perhaps ominous—message. Her supervisor dismisses her concerns, but Bernice calls security and soon Ben Waterman arrives. A senior Homeland Security agent, still grappling with guilt after a disastrous operation in which hostages were killed, Ben too becomes suspicious. Who left the postcard behind, which flight is that person on, and what exactly does the message mean? As Ben scans the passenger manifests, his focus turns to the A321, with Helen Smith as its senior pilot. Helen ’ s military service and her tenure with the airline have been exemplary. But her husband ’ s savage death in Iraq was more than anyone should bear, leaving her widowed with three children. A major film star is on board. So is an off-duty pilot who has just lost his forty-year career. So is a distraught father, traveling with the baby son he has abducted from his estranged wife. Sifting through data and relying on instinct, Ben becomes convinced that someone on Helen ’ s plane is planning something terrible. And he ’ s right. Passengers, crew, and experts on the ground become heroes out of necessity to try to avert tragedy at the eleventh hour. In her stunning novel, Danielle Steel combines intense action with stories of emotionally rich, intertwined lives. As the jet bears down on its destination of San Francisco, strangers are united, desperate choices are made, and futures will be changed forever by a handful of accidental heroes.

I Know Their Crimes. Star prosecutor Kristen Mayhew has a dangerous secret admirer. He seems to know her every thought, her every move. He sends her letters. Like Kristen, Reagan is haunted by the loss of something precious that can never be regained. But in the shadow of a calculating serial killer, the two turn to each other and dare to rediscover passion...even as the messages and vicious murders continue. Even as the killer's thirst for retribution makes Kristen a target for murder.

Winner of the 2013 Scotiabank Giller Prize. Shortlisted for the Rogers Writers' Trust Fiction Prize. Selected as an Amazon.ca Best Book and for The Globe's Top 10 Books of 2013. With astonishing range and depth, Scotiabank Giller Prize winner Lynn Coady gives us nine unforgettable new stories, each one of them grabbing our attention from the first line and resonating long after the last. A young nun charged with talking an anorexic out of her religious fanaticism toys with the thin distance between practicality and blasphemy. A strange bond between a teacher and a schoolgirl takes on ever deeper, and stranger, shapes as the years progress. A bride-to-be with a penchant for nocturnal bondage can ’ t seem to stop bashing herself up in the light of day. Equally adept at capturing the foibles and obsessions of men and of women, compassionate in her humour yet never missing an opportunity to make her characters squirm, fascinated as much by faithlessness as by faith, Lynn Coady is quite possibly the writer who best captures what it is to be human at this particular moment in our history.

AI 2001 is the 14th in the series of Arti cial Intelligence conferences sponsored by the Canadian Society for Computational Studies of Intelligence/Soci et e - nadienne pour l' etude de l'intelligence par ordinateur. As was the case last year too, the conference is being held in conjunction with the annual conferences of two other Canadian societies, Graphics Interface (GI 2001) and Vision Int- face (VI 2001). We believe that the overall experience will be enriched by this conjunction of conferences. This year is the 'silver anniversary' of the conference: the rst Canadian AI conference was held in 1976 at UBC. During its lifetime, it has attracted Canadian and international papers of high quality from a variety of AI research areas. All papers submitted to the conference received at least three indep- dent reviews. Approximately one third were accepted for plenary presentation at the conference. The best paper of the conference will be invited to appear in Computational Intelligence.

THE INSTANT NEW YORK TIMES BESTSELLER FROM THE #1 NEW YORK TIMES BESTSELLING AUTHOR OF PEOPLE WE MEET ON VACATION! "Original, sparkling bright, and layered with feeling."--Sally Thorne, author of The Hating Game A romance writer who no longer believes in love and a literary writer stuck in a rut engage in a summer-long challenge that may just upend everything they believe about happily ever afters. Augustus Everett is an acclaimed author of literary fiction. January Andrews writes bestselling romance. When she pens a happily ever after, he kills off his entire cast. They're polar opposites. In fact, the only thing they have in common is that for the next three months, they're living in neighboring beach houses, broke, and bogged down with writer's block. Until, one hazy evening, one thing leads to another and they strike a deal designed to force them out of their creative ruts: Augustus will spend the summer writing something happy, and January will pen the next Great American Novel. She'll take him on field trips worthy of any rom-com montage, and he'll take her to interview surviving members of a backwoods death cult (obviously). Everyone will finish a book and no one will fall in love. Really.

Imagine being born the daughter of a mega-star. Inexhaustibly rich, unbelievably famous, and by a chance of fate trapped in an ultra-luxurious prison - the Royal Trocadero Hotel. Holly Bliss Winterman's mother is a mega-star. Literally. She has trouble finding time to squeeze Holly in between facials and press interviews - without the help of her trusty PA. But when someone threatens to kidnap Holly, her mother decides the safest place for Holly is by her side - then they can also spend more 'quality time' together. Oh no. What does a girl do when there's a kidnap threat hanging over you and you're not allowed to venture outside? When your Mum wants to turn you into a mini-version of herself, but you'd rather be a vet? Holly must struggle to assert her personality against all the odds. Her grandmother's murder brings her back to the town she fled years ago to reclaim her home and unearth the truth ... while a killer watches her every move. Ten years ago, Kim testified against her rich stepfather in a local girl's murder. When he was acquitted, the hostile and disbelieving residents forced her to leave town. Now, her grandmother's mysterious death brings her back to her small Everglades town, where they're happy to show her how unwelcome she is. The last person she'd expect to protect her is Zell MacGregor, the sexy, laid-back son of the man against whom she testified. And Zell's the last person she'd ever expect to fall for. But as they dig into the secrets of the past, their growing attraction makes their present much more dangerous. Zell has a killer smile ... but can he save her from a murderer?

The author was walking his little dog on a leash when it was attacked by a loose German Shepherd. How could he protect his dog if it happened again? He tried this, he tried that. Things only got worse. The answer came from a lucky contact with a dog psychologist. Her solution may make you laugh. But it worked. And the author learned more than just how to protect his dog. He finally learned what dogs are about. Includes a rare interview with a top dog-psychologist and trainer. Find out the easy way to prevent dog fights, how to stop your dog yanking on the leash, how to get your dog to understand what stop barking means, and why certain kinds of dog training never work.

In this final chapter of the Order of the Wave trilogy, Grace Rainwater is closer to finding answers than she's ever been, while vampires and lycanthropes appear to take opposite sides in a ramp up to Armageddon.
