*Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.*

*Joni Mitchell was a solidly middle-class bohemian; an anti-feminist who loved men but scorned free love; a female warrior taking on the male music establishment. She was both the party girl with torn stockings and the sensitive soul. Her earthy, poetic lyrics and the unusual melodic intervals traced by that lissome voice earned her the status of a pop legend. Joni on Joni is a chronologically arranged anthology of Mitchell's most illuminating interviews, spanning the years 1966 to 2014. Included are revealing pieces from her early years in Canada and Detroit, along with influential articles such as Cameron Crowe's Rolling Stone piece. Interspersed throughout are key quotes from dozens of additional Q&As. Together, this material paints a revealing picture of the artist—bragging and scornful, philosophical and deep, but also a beguiling flirt.*

The Brave Athlete solves the 13 most common mental conundrums athletes face in their everyday training and in races. You don't have one brain—you have three: your ancient Chimp brain that keeps you alive, your modern Professor brain that navigates the civilized world, and your Computer brain that accesses your memories and runs your habits (good and bad). The Brave Athlete helps you get crazy nervous before a race, you choke under pressure, you quit when the going gets tough, you make dumb mistakes, you worry about how you look. What if you could stop the thoughts and feelings you don't want? What if you could feel confident, suffer like a hero, and handle any stress? You can. The Brave Athlete from Dr. Simon Marshall and Lesley Paterson helps you race faster, and better enjoy your sport. Dr. Marshall is a sport psychology expert who trains the brains of elite professional athletes. Paterson is a three-time world champion triathlete and coach. Together, they offer this innovative, brain training guide that is the first to draw from both clinical science and real-world experience with athletes. That means you won't be left behind.
The Brave Athlete is the set of cutting-edge mental skills revealed in The Brave Athlete actually work because they challenge the source of the thoughts and feelings you don't want. The Brave Athlete is packed with practical, evidence-based solutions to the most common mental challenges athletes face. Which of these sound like you? · Why do I have thoughts and feelings I don't want? · Why do I have my goals. · Other athletes seem tougher, happier, and more badass than me. · I feel fat. · I don't cope well with injury. · People are worried about how much I exercise. · I don't like leaving my comfort zone. · When the going gets tough, the tough leave me behind. · I need to harden the f\*ck up. · I keep screwing up. · I don't handle pressure well. With The Brave Athlete: The Mental Game Plan, you'll have the tools you need to overcome all these problems to become mentally strong and make your brain your most powerful asset.
