DIFFERENT MATHEMATICAL RULES: In the 4D-world of wealth building, a 1% yield rate can have more value than 20% yield rate, a 1% yield rate can have 200x times more value than another 1% yield rate, a 20% yield rate can be 4x10% yield rate in value, and so on. Retire with \$300 million rather than with \$1 million. DIFFERENTIAL INTEREST RATES: Discover how banks make more money for themselves with your deposit than they let you make for yourself, and how you can play the same game for your own benefit. BORROWING TO INVEST: Learn how all Billionaires got there using other people ' s money and borrowed money, and how you too can do the same. The GOLDMINE of FOREIGN STOCK MARKETS: Discover how investing in some stock markets abroad can increase your net worth many-folds compared to investing in your domestic market. DEFERRED TAX: Discover how investments with deferred tax instead of yearly tax will take you to millionairehood several times faster and how the government is also an equal loser by maintaining yearly income tax system instead of deferred tax system. A FOOL ' S PARADISE: Discover the paradox of how mathematical laws stealthily make tax evaders lose more money than they save on taxes. Learn WHAT IT WILL TAKE TO ACCUMULATE \$1 MILLION OR \$1 BILLION NET WORTH: What initial investment, yield rate, and time will be required, and what the Influence of each of them will be on your net worth in 10, 30, or more years. Learn which of the TEN TRADITIONAL INVESTMENT

CATEGORIES will give you the highest returns and what returns you can expect from each of them. Learn why PERCENTAGES OF ANYTHING CAN BE VERY MISLEADING, and you should base all your decisions also on actual amounts. Learn HOW TO CALCULATE ALL INVESTMENT RESULTS such as amounts of return, net worth, tax drag, etc., in a simple way using matrix tables provided in this book. Get introduced to "YIELDOMETER", a software program developed by the author to calculate all investment results automatically. AN UNCOMFORTABLE TRUTH: Irrefutable mathematical laws always make wealth flow from bottom to top, from poor to rich, causing an exponentially growing wealth gap between rich and poor, making it a natural phenomenon necessitating government intervention through tax systems to maintain balance. THE AUTHOR, Mr. Jacob Sebastian, is an engineer with two master ' s degrees and an MBA in International Trade & Finance. He has broad experience in government and MNCs in different continents and as an entrepreneur. This book will take you to the JURASSIC PARK OF WEALTH BUILDING, a world full of surprises, but one that is real and sometimes also menacing, like the Tax Drag. Read and enjoy it, apply it, and ride in a Ferrari on the highway to great riches, destination Millions, or Billions. This book will be your light and guide.

*Money. We all want it. We all need it. Unfortunately, many of us may feel as if we never have quite enough of it. Cable TV, healthcare, education, eating out, Internet, vacations, housing, groceries, mobile phones, utilities, debt repayment, insurance, and transportation; all of these things cost money and their costs seem to continually increase over time. All the while, salaries stagnate for years, remaining unchanged. As a result, savings accounts suffer and we dig ourselves deeper and deeper into debt. This paints a bleak, long-term financial picture: work until you die, struggling the entire way. This result may seem like an inevitable conclusion for many of us. However, we believe you have the power to shape your own financial future. In The 6 Phases of Building Wealth, you will learn the specific steps to follow in order to improve your financial position. We have made an effort to be as explicit as possible, with clear-cut examples and detailed descriptions. The 6 Phases of Building Wealth will not teach you how to "get rich quick". **"Towards the Death of Humanity" is the endless demonstration of the disastrous side effects left on our environment, on life on this planet, on health and most of all on human dehumanization by a century of tremendous scientific and technological realizations and their material values. It illustrates how these unhealthy side effects are highly linked to the hasty and thoughtless decisions of scientists, intellectuals and governments to replace the humanities and the traditional methods of teaching with their own methods of science, technology and their essentially material values. Unfortunately totally deprived of the smallest bit of humanity, this method of education has killed the rudiments of humanity acquired during the course of history, has dehumanized the people, their institutions and their societies. These side effects originate in the age-old desire of intellectuals and scientists to take hold of the power of religion over man and to satisfy their morbid need to build a new world, re-designed following Hegel' belief that the matter is eternal and God. Although these ideologies have lost all their legitimacy today because science has recently demonstrated that the matter is not eternal, scientists and intellectuals keep on teaching the falseness of their materialistic social system as if the logic of their reasoning were the only truth. This work promotes certain guidelines that individuals must follow to make the lucid and effective compromises needed to try and solve these destructive problems affecting man and society before the end of History.**
