Annie Finch’s wide reputation precedes her. Her first full book of poems attracted the notice and glowing approval of Robert Pinsky, Carolyn Klzer, the Bloomsbury Review, and the Washington Times. Her poems are resonating, musical celebrations of life. Through mastery of rhythm and poetic patterning, this wonderfully gifted poet liberates and illuminates the sacred in the mundane, and gives voice to the earth-centered spirituality of our era.Annie Finch was a finalist for the 2001 Faulkner Society’s Poetry Award. Her poems have been widely published, appearing in the Yale Review, Paris Review, Prairie Schooner, Kenyon Review, and so on. She is also well-known as a writer on the craft of poetry. She teaches at Miami University in Ohio.

Midlife can be a time of great change - inner and outer. How do we journey through this...and what can we learn in the process? Molly Remer is our personal guide to the unraveling and reweaving required in midlife. She invites us to take a walk with the goddess Persephone, whose story of descent into the Underworld has much to teach us. This book is a journey of soul-rebuilding, of putting the pieces of oneself back together. Walking with Persephone weaves together personal insights and reflections with experiences in practical priestessing, family life, and explorations of the natural world. It advocates opening our eyes to the wonder around us, encouraging the reader to both look within themselves for truths about living, but also to the earth, the air, the animals, and plants we share our lives with. Part memoir, part poetry, part soul guide, Molly’s evocative voice is in the great American tradition of sacred nature writing.

Presents the tale of how the children of a perfect little town embraced their wild side and, in the process, found their joy and courage while saving the last wild witch and the last magic forest from disappearing.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Bringing together some of the most recognized and influential researchers and scientists in various space-related disciplines, Lunar Settlements addresses the many issues that surround the permanent human return to the Moon. Numerous international contributors offer their insights into how certain technological, physiological, and psychological challenges must be met to make permanent lunar settlements possible. The book first looks to the past, covering the Apollo and Saturn legacies. In addition, former astronaut and U.S. Senator Harrison H. Schmitt discusses how to maintain deep space exploration and settlement. The book then discusses economic aspects, such as funding for lunar commerce, managing human resources, and commercial transportation logistics. After examining how cultural elements will fit into habitat design, the text explores the physiological, psychological, and ethical impact of living on a lunar settlement. It also describes the planning/technical requirements of lunar habitat, the design of both manned and modular lunar bases, and the protection of lunar habitats against meteoroids. Focusing on lunar soil mechanics, the book concludes with discussions on lunar concrete, terraforming, and using greenhouses for agricultural purposes. Drawing from the lunar experiences of the six Apollo landing missions to the many American and Soviet robotic missions to current space activities and research, this volume summarizes the problems, prospects, and practicality of enduring lunar settlements. It reflects the key disciplines, including engineering, physics, architecture, psychology, biology, and anthropology, that will play significant roles in establishing these settlements.

"...Family reunions, class reunions, service reunions ... A-to-Z guide to reunions that leaves nothing to chance..." --back cover.

A heartfelt novel of shedding secrets, facing the past, and embracing the magic of love and family by the Amazon Charts and Wall Street Journal bestselling author of Where the Forest Meets the Stars. After the untimely deaths of her aunt and mother, young Riley Mays moved from Chicago to her cousins’ Wisconsin farm. Here she found solace in caring for her extraordinary adoptive brother, exploring the surrounding wild nature, and gazing at the mystical moon—a private refuge in which she hides from her most painful memories. But ten years later, now twenty-one, Riley feels too confined by the protective walls she’s erected around herself. When a stranger enters her family’s remote world, Riley senses something he’s hiding, a desire to escape that she understands well. Suffering from writer’s block, bestselling novelist Vaughn Orr has taken to the country roads when he happens upon the accommodating, if somewhat unusual, Mays family. He’s soon captivated by their eccentricities--and especially by Riley and her quiet tenacity. In her, he recognizes a shared need to keep heartbreaking secrets buried. As the worst moments of their lives threaten to surface, Riley and Vaughn must find the courage to confront them when they’re to have any hope of a happy future. With the help of Riley’s supportive family, a dash of everyday magic, and the healing power of nature, can the pair let go of the troubled pasts they’ve clung to so tightly for so long?
