The Girlfriend's Guide to Surviving and Thriving During Perimenopause and Menopause
The Menopause Manifesto

More than 125 detoxifying and hormone-healing recipes to reduce the symptoms of perimenopause and menopause, from the bestselling author of The Hormone Fix and Keto-Green 16 "Dr. Cabeca shows us how to take charge of our health in midlife, using the power of food to start feeling better—and find optimal weight, improved mood and more energy along the way!"—Izabella Wentz, PharmD, New York Times bestselling author of Hashimoto's Protocol A major hormonal shift in every woman's life, menopause heralds a time of new freedoms, potential, and empowerment. But this necessary shift often also brings with it uncomfortable symptoms like brain fog, reduced libido, joint pain, constipation, and hot flashes. And even while eating and exercising as usual, most menopausal women also experience frustrating weight gain—in and of itself a symptom that can make the other symptoms worse. We seldom make the connection between what we eat and how it affects our hormones. But food is a direct hormone regulator, so when hormones shift, we must shift as well. Choosing ingredients wisely is the best way to reduce all your symptoms, including that frustrating weight gain. Drawing inspiration from the cuisines of countries where women experience fewer menopausal symptoms, Dr. Anna Cabeca offers five unique, six-day eating plans that put a "pause" on the use of symptom-exacerbating ingredients. Depending on your health goals and the symptoms you're experiencing, choose from these five plans: • The Keto-Green Extreme Plan pauses inflammatory foods but includes stomach-soothing alkaline ingredients for an overall reduction in menopause symptoms. • Keto-Green Plant-Based Detox pauses animal proteins to stoke your fat-burning metabolism, ease hot flashes, and reduce brain fog. • The Carbohydrate Pause puts a temporary pause on all carbohydrates and sugar to help you break through a weight loss plateau, sleep better, and combat bloating. • The Keto-Green Cleanse briefly pauses solids to gently restore and energize you at the cellular level, leading to greater energy, less joint pain, and less constipation. • The Carbohydrate Modification Plan is the perfect feasting plan, allowing for the reintroduction of healthy but gluten-free carbohydrates to reduce restriction fatigue and maintain metabolic flexibility. With more than 125 delicious recipes—many of which fit more than just one eating plan—MenuPause is your guide to a more comfortable menopausal transition, and ensures you won't go hungry in the process!

The bestselling authors of "What Your Doctor May Not Tell You About Menopause," and an expert on hormones and breast cancer, present a breakthrough program for reducing the risk of the disease. For Ellen Dolgen, menopause education is a mission. Spurred by her own experience struggling with the symptoms of menopause, Dolgen has devoted the last ten years of her life to helping other women during this often difficult time. While she's not a doctor or scientist, she's "talked the talk" with countless menopause experts, so that she can "walk the menopause walk" with you and share the keys to this menopause kingdom. Together with her son, Jack, she created this new, comprehensive guide to all things menopause—the symptoms, the treatments, the long-range effects on a woman's health. Dolgen shares the expertise of numerous specialists to replace confusion and embarrassment with medically sound solutions, presented in an entertaining and informative way. You'll find detailed descriptions and treatments for the symptoms you or your loved one may experience, from hot flashes and mood swings to mental fogginess and loss of libido, and lots more in between. In addition to sharing the latest research and proven treatments, Dolgen offers guidance to finding a menopause specialist who's right for you, and she provides a clear explanation of what tests to ask for. You'll also learn about the latest studies on hormone replacement as well as alternative therapies and remedies. Finally, Dolgen shares the real-life experiences of women—and those who love them—as they traverse the crazy ups and downs of perimenopause and menopause. Her motto is: Suffering in silence is OUT! Reaching out is IN!

The Complete Guide for Women Deeply optimistic, reassuring, and essential, the book the North American Menopause Society called "required reading" is now revised and updated, with over 20 percent new material that incorporates the latest medical findings, cutting-edge research, and best-practices advice. Expertly separating fact from fiction in the latest "breakthrough" medical studies, it shows you what to pay attention to, and what you can ignore. Learn about the role of hormones and the latest advances in hormone therapy. The truth about hot flashes and how to deal with getting one at work. The impact of menopause on sexuality and how to manage an up-and-down libido. There are chapters on heart health (how to protect it), moods (how to ride them out), and exercise (how to stretch without strain). And finally, why this period of life can be a natural springboard to staying healthy, feeling great, and looking beautiful for the next act of your life. Your Questions, Your Answers: Is it possible that I could get another period after more than a year without one? Losing weight at midlife feels like an uphill battle—what's the healthiest approach? How do I perform a breast self-exam? Is hormone therapy necessary—and if so, which one is right for me? How effective are Kegel exercises, and how do I do them? I'm starting to get adult acne—is this normal?

The Essential How-to Guide to Symptoms, Dosage, Timing, and More
Dr. Susan Love's Hormone Book
Keto-Green 16

The Fat-Burning Power of Ketogenic Eating + the Nourishing Strength of Alkaline Foods = Rapid Weight Loss and Hormone Balance

A guide for improving a woman's physical and mental health from age 35 and on. It covers topics of vital interest to perimenopausal and postmenopausal women: hot flashes, vaginal dryness, poor sleep, memory loss, mood changes, depression, hormone replacement therapy, sleep, diet, exercise, weight control, and healthy sex.

Breast cancer is on the increase in the West and, despite governments spending billions on research and new treatments, your chances of survival are roughly the same today as they were 50 years ago. This controversial book exposes the failings of conventional treatments of breast cancers and offers a revolutionary programme for lowering the risk of breast cancer, significantly improving your chances of recovering from this disease, and preventing a recurrence. Topics include: teenagers taking the pill are 600 per cent more likely to get breast cancer; biopsies, mammograms and chemotherapy often do more damage than good; 80 per cent of breast cancers are brought on by environmental factors, such as diet and exposure to toxins and pollutants; natural progesterone helps prevent and treat breast cancer; and explains that 30 minutes of moderate exercise a day may save your life.

"There is no question that keto eating is the biggest diet trend in years. And it really works—dieters often report super-fast weight loss—but they also complain about the rigidity of the diet, as well as the flu-like symptoms that often accompany this high-fat/low-carb way of life. The solution? Add alkaline foods to your plate—leafy greens, other vegetables, broths, healthy oils, nuts, and seeds—for a lifestyle that's more sustainable and easier on your body"--

This report reviews current research on the menopause, including studies on its symptoms and their treatment, and its effects on the cardiovascular and skeletal systems. It also assesses the relevance of existing data to women in developing countries.

An Instant New York Times, Washington Post, USA Today, San Francisco Chronicle, and Publishers Weekly Bestseller! #1 Canadian Bestseller Just as she did in her groundbreaking bestseller The Vagina Bible, Dr. Jen Gunter, the internet's most fearless advocate for women's health, brings you empowerment through knowledge by countering stubborn myths and misunderstandings about menopause with hard facts, real science, fascinating historical perspective, and expert advice. "I feel more equipped to care for my patients, challenge the patriarchy, and empower & educate thanks to her work and advocacy." —Dr. Danielle Jones (Mama Doctor Jones) "An exhilarating read and a comprehensive review of all things menopause." —North American Menopause Society "Gynecologist Gunter (The Vagina Bible) helps women navigate the ins and outs of menopause in this delightfully conversational and strongly feminist guide. Readers looking to separate menopausal fact from fiction should take note." —Publishers Weekly

"Gunter mixes sound medical information with a bit of humor and a lot of candor...[this] frank and expert guide provides an informative and reassuring look at a long, often baffling and infuriating phase of life." —Booklist The only thing predictable about menopause is its unpredictability. Factor in widespread misinformation, a lack of research, and the culture of shame around women's bodies, and it's no wonder women are unsure what to expect during the menopause transition and beyond. Menopause is not a disease—it's a planned change, like puberty. And just like puberty, we should be educated on what's to come years in advance, rather than the current practice of leaving people on their own with bothersome symptoms and too much conflicting information. Knowing what is happening, why, and what to do about it is both empowering and reassuring. Frank and funny, Dr. Jen debunks misogynistic attitudes and challenges the over-mystification of menopause to reveal everything you really need to know about:

**Perimenopause * Hot flashes * Sleep disruption * Sex and libido * Depression and mood changes * Skin and hair issues * Outdated therapies * Breast health * Weight and muscle mass * Health maintenance screening * And much more! Filled with practical, reassuring information, this essential guide will revolutionize how women experience menopause—including how their lives can be even better for it! "Read this book immediately." —New York Times bestseller Ayelet Waldman, author of A Really Good Day and Love & Treasure "This is the new 'it' book for women who want to prepare for or understand what menopause is (and isn't)." —Dr. Jennifer Lincoln*
